Periodic Review Report of Findings

Agency name	Commonwealth Transportation Board
Virginia Administrative Code (VAC) citation	24 VAC 30-92
Regulation title	Secondary Street Acceptance Requirements
Date this document prepared	April 19, 2019

This information is required for executive branch review and the Virginia Registrar of Regulations, pursuant to the Virginia Administrative Process Act (APA), Executive Order 14 (as amended, July 16, 2018), the Regulations for Filing and Publishing Agency Regulations (1 VAC7-10), and the *Virginia Register Form, Style, and Procedure Manual for Publication of Virginia Regulations*.

Acronyms and Definitions

Please define all acronyms used in this Report. Also, please define any technical terms that are used in the document that are not also defined in the "Definition" section of the regulations.

SSAR - Secondary Street Acceptance Requirements

Legal Basis

Please identify (1) the agency or other promulgating entity, and (2) the state and/or federal legal authority for the regulatory change, including the most relevant citations to the Code of Virginia or Acts of Assembly chapter number(s), if applicable. Your citation must include a specific provision, if any, authorizing the promulgating entity to regulate this specific subject or program, as well as a reference to the agency or promulgating entity's overall regulatory authority.

Chapter 382 of the 2007 Acts of Assembly (SB1181) added § 33.1-70.3 (now §33.2-334) to the *Code of Virginia*. The legislation required the Commonwealth Transportation Board to develop Secondary Street Acceptance Requirements, promulgated by regulation, to determine the conditions and

standards that must be met before streets constructed by developers, localities and entities other than VDOT will be accepted into the state secondary system for maintenance by VDOT.

Alternatives

Please describe any viable alternatives for achieving the purpose of the regulation that were considered as part of the periodic review. Include an explanation of why such alternatives were rejected and why this regulation is the least burdensome alternative available for achieving its purpose.

There are no alternatives to the promulgation of this regulation.

Public Comment

Please summarize all comments received during the public comment period following the publication of the Notice of Periodic Review, and provide the agency response. Ensure to include all comments submitted: including those received on Town Hall, in a public hearing, or submitted directly to the agency or board. Please indicate if an informal advisory group was formed for purposes of assisting in the periodic review.

No comments were received following publication of the Notice of Periodic Review.

Effectiveness

Pursuant to § 2.2-4017, please indicate whether the regulation meets the criteria set out in Executive Order 14 (as amended, July 16, 2018), including why the regulation is (a) necessary for the protection of public health, safety, and welfare, and (b) is clearly written and easily understandable.

Chapter 382 of the 2007 Acts of Assembly (SB1181) added § 33.1-70.3 to the *Code of Virginia* (now §33.2-334). The legislation required the Commonwealth Transportation Board to develop Secondary Street Acceptance Requirements, promulgated by regulation, to determine the conditions and standards that must be met before secondary streets constructed by developers, localities and entities other than the Virginia Department of Transportation (VDOT) will be accepted into the state secondary system for maintenance by the Virginia Department of Transportation (VDOT). All proposed developments which include roads to be accepted into VDOT’s Secondary System of Highways, which were initially received by the agency after June 2009, must meet the requirements of the SSAR. The consistent construction, review, and acceptance of streets which meet specified requirements promotes the protection of public health, safety, and welfare. The standards ensure access by emergency response vehicles, reduce congestion, and ensure the safe, efficient movement of people and goods. The SSAR is written in a manner which is clear and easily understandable.

Decision

Please explain the basis for the rulemaking entity's decision (retain the regulation as is without making changes, amend the regulation, or repeal the regulation).

The Secondary Street Acceptance Requirements should be retained and not amended at this time. The regulation promotes public health, safety, and welfare as well as accepting only qualified roads into the state's highway systems.

Small Business Impact

As required by § 2.2-4007.1 E and F of the Code of Virginia, include a discussion of the agency's consideration of: (1) the continued need for the regulation; (2) the nature of complaints or comments received concerning the regulation from the public; (3) the complexity of the regulation; (4) the extent to which the regulation overlaps, duplicates, or conflicts with federal or state law or regulation; and (5) the length of time since the regulation has been evaluated or the degree to which technology, economic conditions, or other factors have changed in the area affected by the regulation. Also, discuss why the agency's decision, consistent with the stated objectives of applicable law, will minimize the economic impact of regulations on small businesses.

The Secondary Street Acceptance Requirements have a positive impact on state resources as well as small businesses. This regulation helps reduce long-term traffic congestion, support and promote more economic activity and better transportation systems.
