Exempt Action Final Regulation Agency Background Document

Agency name	Virginia Waste Management Board
Virginia Administrative Code (VAC) citation	9VAC20-110
Regulation title	Regulations Governing the Transportation of Hazardous Materials
Action title	Annual Update 2016
Final agency action date	February 24, 2017
Document preparation date	December 15, 2016

When a regulatory action is exempt from executive branch review pursuant to § 2.2-4002 or § 2.2-4006 of the Virginia Administrative Process Act (APA) or an agency's basic statute, the agency is not required, however, is encouraged to provide information to the public on the Regulatory Town Hall using this form. Note: While posting this form on the Town Hall is optional, the agency must comply with requirements of the Virginia Register Act, Executive Orders 17 (2014) and 58 (1999), and the *Virginia Register Form, Style, and Procedure Manual*.

Brief summary

Please provide a brief summary of the proposed new regulation, proposed amendments to the existing regulation, or the regulation proposed to be repealed. Alert the reader to all substantive matters or changes. If applicable, generally describe the existing regulation.

Virginia's *Regulations Governing the Transportation of Hazardous Materials* under 9VAC20-110, incorporate by reference certain federal regulations from Title 49 of the Code of Federal Regulations (CFR). This amendment will bring these regulations up to date with the latest update to Title 49 of the CFR as published on October 1, 2016.

Each year the U.S. Department of Transportation (U.S. DOT) makes several changes to the federal rules regarding the transportation of hazardous materials in Title 49 of the Code of Federal Regulations. Since Virginia regulations incorporate the federal regulations, with certain exceptions, it is only necessary to change one item to bring Virginia's regulations up-to-date with the federal changes. The item that must be amended is 9VAC20-110-110, which specifies the date of the federal regulations that are incorporated into Virginia regulations. For the ease of use by the regulated community, this date is always October 1; however, the text is amended to

change the year, thus incorporating federal changes from October 1 of the previously incorporated year through September 30 of the newly specified year.

Statement of final agency action

Please provide a statement of the final action taken by the agency including: 1) the date the action was taken; 2) the name of the agency taking the action; and 3) the title of the regulation.

The Virginia Waste Management Board adopted this amendment on February 24, 2017 as a final regulation and affirmed that the Board will receive, consider and respond to requests by any interested person at any time with respect to reconsideration or revision. This amendment revises 9VAC20-110-110.

Family impact

Please assess the impact of this regulatory action on the institution of the family and family stability including to what extent the regulatory action will: 1) strengthen or erode the authority and rights of parents in the education, nurturing, and supervision of their children; 2) encourage or discourage economic self-sufficiency, self-pride, and the assumption of responsibility for oneself, one’s spouse, and one’s children and/or elderly parents; 3) strengthen or erode the marital commitment; and 4) increase or decrease disposable family income.

There is no impact on the institution of the family or family stability.

All changes made in this regulatory action

Please detail all changes that are being proposed and the consequences of the proposed changes. Detail new provisions and/or all changes to existing sections.

Current section number	Proposed new section number, if applicable	Current requirement	Proposed change and rationale
9VAC20-110-110		Incorporates U.S. DOT's regulations under Title 49 of the CFR by reference.	Updated to the most recent adoption date, October 1, 2016. This change is needed to ensure that the most recent and accurate federal documents are adopted and enforceable by Virginia.

Regulatory flexibility analysis

Pursuant to § 2.2-4007.1B of the Code of Virginia, please describe the agency’s analysis of alternative regulatory methods, consistent with health, safety, environmental, and economic welfare, that will

accomplish the objectives of applicable law while minimizing the adverse impact on small business. Alternative regulatory methods include, at a minimum: 1) the establishment of less stringent compliance or reporting requirements; 2) the establishment of less stringent schedules or deadlines for compliance or reporting requirements; 3) the consolidation or simplification of compliance or reporting requirements; 4) the establishment of performance standards for small businesses to replace design or operational standards required in the proposed regulation; and 5) the exemption of small businesses from all or any part of the requirements contained in the proposed regulation.

The regulations apply to all persons, including small business owners, who transport or offer for transportation hazardous materials within or through Virginia. Any (1) establishment of less stringent compliance or reporting standards; (2) establishment of less stringent schedules or deadlines for compliance and reporting requirements; (3) consolidation or simplification of compliance or reporting requirements; (4) establishment of performance standards for small businesses to replace design or operational standards required in the regulation; or (5) exemption of small businesses from all or any part of the requirements contained in this regulation for all small businesses would directly, significantly and adversely affect the benefits that would be achieved through the implementation of the regulations.

Conforming state regulations to those of the U.S. DOT is necessary to maintain authority to implement the national programs. Additionally, facilities benefit from state implementation of the program as they have easier access to decision makers with a clearer understanding of state-specific issues and needs.

Acronyms and definitions

Please define all acronyms used in the Agency Background Document. Also, please define any technical terms that are used in the document that are not also defined in the "Definition" section of the regulations.

CFR - Code of Federal Regulations

U.S. DOT – United States Department of Transportation
