

Agency Response
Board of Medicine
Department of Health Professions

The Board of Medicine concurs with the Economic Impact Analysis of the Department of Planning and Budget for proposed amendments to 18VAC85-130. The Board would like to clarify that this regulatory change and its impacts only apply to licensed professional midwives licensed under 18VAC85-130 and does not apply to certified nurse midwives, a category of advanced practice registered nurse, or licensed certified midwives, both of which possess prescriptive authority and are jointly licensed by the Boards of Nursing and Medicine.
