

**Virginia Board for Asbestos, Lead, Mold, and Home Inspectors  
Guidance Document  
Effective Date: August 23, 2011**

**Asbestos Licensing Regulations Interpretations and Policies**

**18VAC15-20-32.E Qualifications for licensure – individuals and 18VAC15-20-70.C Procedures for renewal**

May 13, 2009 – Training courses completed through EPA/AHERA accredited training providers are considered acceptable to satisfy asbestos licensing training requirements only when the course taken by the participant was taught within the geographical boundaries of the state in which the provider was approved at the time the course was taken.

**18VAC15-20-70.C Procedures for renewal**

May 13, 2009 – To be consistent with EPA's Model Accreditation Plan outlined in 40 CFR Part 763, Subpart E, Appendix C, Subpart D, a 12 month grace period is allowed to enable a formerly licensed person with an expired training certificate to complete a refresher training course without having to retake the initial training course.

**18VAC15-20-453.2 Conflict of interest**

May 3, 2011 - The Conflict of Interest section does not apply to a contractor / sub-contractor relationship between an asbestos contractor and an asbestos project monitor. A contractor / sub-contractor relationship does not meet the definition of an employee as defined by this chapter therefore contractor / sub-contractor relationships are not prohibited.

**18VAC15-20-70.C Procedures for renewal**

August 23, 2011 – Refresher training courses must be specific to the discipline of license being renewed.
