PROCUREMENT PROCEDURES MANUAL

VIRGINIA DEPARTMENT OF TRANSPORTATION
Administrative Services Division
1401 E. Broad Street
Richmond, VA 23219

March 2017

POLICY

As an Executive Branch Agency, the Virginia Department of Transportation (VDOT) is subject to the Virginia Public Procurement Act (VPPA) (2.2-4300 through 2.2.4377) and the implementing regulations of the Agency Procurement and Surplus Property Manual (APSPM) as published by the Department of General Services/Division of Purchases and Supply and Construction and Professional Services Manual (CPSM) as published by the Department of General Services/Bureau of Capital Outlay Management.

It is the policy of VDOT to make all procurements in compliance with the VPPA, APSPM, CPSM, and all federal and state procurement laws and regulations. This Administrative Services Division (ASD) Procurement Procedures Manual includes VDOT specific requirements for the procurement of non-IT goods, non-professional and professional services in support of VDOT general services, highway maintenance and Capital Outlay.

PURPOSE

ADMINISTRATIVE SERVICES DIVISION PROCUREMENT PROCEDURES MANUAL

This Manual will provide guidance to those individuals who have delegated procurement authority and define internal requirements for the procurement of non-IT goods and services for general services and highway maintenance projects. It has been formatted for use in conjunction with the *Agency Procurement and Surplus Property Manual* (APSPM) published by the Department of General Services/Division of Purchases and Supply (DPS) under the authority of Section 2.2.-1111 of the Code of Virginia. The Administrative Services Division will periodically issue internal directives that will become part of this manual that define policies and procedures. They will be issued under the closest applicable chapter number in the APSPM.

ASD also has responsibility for procurement of professional and construction services for Capital Outlay projects. These procurements are conducted in accordance with the *Construction and Professional Services Manual* (CPSM) published by the Department General Services/Bureau of Capital Outlay Management (BCOM). A general overview of VDOT processes for Capital Outlay procurement is included in this manual.

This manual supersedes any procurement policy, guidance or directives previously issued by Administrative Services Division. It is our intent that all requirements and procedures are clear, consistent and in support of best purchasing practices.

All procurements must be conducted in accordance with applicable federal and state procurement laws and regulations. If any guidance or procedure in this Manual conflicts with applicable federal and/or state laws and regulations, such laws and regulations shall govern.

The manual is available online at: [ASD Procurement Procedures Manual](#)

Comments or questions of interpretation are welcomed and should be addressed to ASD Regional Procurement Managers.

Administrative Services Division Administrator

Districts or Divisions must purchase services from a mandatory source as defined in the APSPM via a purchase order in Cardinal regardless of whether payment is made by SPCC or voucher. For more information refer to SPCC User Guide in Section 5.

See Attachment 2A for detailed process to use when purchasing from mandatory sources and DPS and VDOT mandatory use contracts.

- 2.2 Mandatory Use Contracts and Suppliers** - In addition to the mandatory sources defined in the APSPM, the following are also mandatory use contracts and suppliers for VDOT purchases:

- (a) DPS mandatory use contracts** - Districts or Divisions may use SPCC to purchase goods from a mandatory use contract up to \$5,000 with the SPCC. Districts or Divisions must purchase goods greater than \$5,000 via a purchase order in Cardinal. The contract number and expiration date must be documented in the file.

Districts or Divisions must purchase services from a mandatory use contract as defined in the APSPM by issuing a purchase order in Cardinal regardless of whether payment is made by SPCC or voucher. For more information refer to SPCC User Guide in Section 5.

(b) VDOT Term Contracts and Suppliers

Districts/Divisions must purchase goods and services by issuing a purchase order in Cardinal against the appropriate contract.
- ii. **Inventory Management System (IMS)** – VDOT maintains certain items in inventory. Districts must verify item(s) availability in the Inventory Management System before making purchases from another source. [IMS Manual](#).

MANCON utilizes the VDC, VIB and other State Mandatory Contracts to meet VDOT’s needs.

- iv. **Central Office Supply Center (COSC)** - The COSC is a mandatory supplier of office supplies consumed by the Central Office Divisions. The online form for ordering supplies through the COSC can be found at: [Central Office Supply Center](#).

The Division shall check the list of office supplies offered. If the item(s) is not listed, the Buyer has the option to order the supplies under their delegated procurement authority or order through the COSC.

SECTION 4

GENERAL PROCUREMENT GUIDELINES & PLANNING

- 4.1 Procurement Checklist** – The Procurement Checklist Form ASD-17 (See Attachment 4A) provides general information for Divisions and Districts relevant to documentation needed for each procurement request. The form should be used for general guidance when gathering documents needed to submit with the procurement request.
- 4.2 Lead Time** – Generally, 60 days is required to solicit bids or 120 days to solicit proposals and establish a contract. This may vary depending on the complexity of the procurement. .
- 4.3 Preparing the Written Solicitation** – All procurement requests above the district or division authority-level must be submitted to the local ASD procurement office by entering and approving a requisition in Cardinal. Attach signed Procurement Approval Request Form ASD-15 if greater than \$100,000, Specification/scope of work, Supplemental Requisition Form ASD-30 (See Attachment 4B), and/or any special terms specific to the need as applicable.
- (a) **Federal Funds** – Procurements that are federally funded, in whole or partially, have additional requirements and approvals. Refer to Federal Funding Procedures in Attachment 4C.
- (b) **Road Maintenance Projects** - Guidance has been established by Construction Division and ASD on deciding which division will procure certain road maintenance projects. The Decision Tree document (Attachment 4D) may be found using the following link: [Decision Tree](#).
- (c) **Templates** - Contract templates have been approved for use when procuring certain commodities. These templates may not be changed without approval from the Regional Procurement Manager and Contracts Section of the Maintenance Division. Templates can accessed at this link: [ASD Contract Templates](#).
- (d) **Contract Types**
- i. **Requirements Contracts** - All requirements contracts will include an estimated quantity based on the work to be performed. Use the word “estimated” when referring to quantities that are uncertain, *not* “approximate”.

- ii. **Time and Materials Contracts (T&M)** – Generally, T&M contracts are difficult to administer and may have higher costs and require more resources to manage. As a result, the use of T&M contracts must have written approval of the Assistant District Administrator or Central Office Division Administrator, for procurements up to \$250,000, and the District Administrator or Central Office Division Chief, for procurements \$,000. The written approval will be part of the procurement file documentation.
- iii. **Construction** – Procurement of general construction services for facility repair and maintenance where architectural engineering design services are *not* required is conducted in accordance with *APSPM* guidelines for non-professional services. Note the Facility Manager must ensure drawings, if required, have been reviewed, approved, and signed by the Assistant Director of Capital Outlay prior to soliciting bids. Approved drawings, if required, must be submitted with scope of services to the local ASD procurement office for procurement processing.

Construction projects without an A/E are mainly limited to:

- Roof replacement limited to less than 25% of roofing area
- Replacement in kind of steep-slope (4/12) asphalt shingle roofing
- Ordinary repairs & maintenance (does not require a building permit)
- Replacement in kind (does not require a building permit)

Procurement of professional and construction services for Capital Outlay and Maintenance Reserve Projects which require architectural engineering design services is governed by the rules of the *Construction and Professional Services Manual (CPSM)* and procured by ASD Capital Outlay. Please refer to Section 15 of this manual for guidance.

- iv. **Job Order Contracting** – Job order contracting shall not be used for construction, maintenance, or asset management services for a highway, bridge, tunnel or overpass.

- (e) **Specification and Scope of Work** – Words like “similar” or “like” shall be replaced with statements that *accurately* define the item or service. Example: The contractor shall have had previous experience in furnishing drawbridge operators. Some other things to consider when developing specifications include:

- i. **Information Technology (IT) and Telecommunications** – Requests to procure IT goods and services are processed by submitting an IT-96 to VDOT Technology Procurement mailbox.

For certain IT goods and services, ASD may be delegated authority by VDOT Information Technology Division (ITD) to process the procurement. In these instances, ASD Contract Officers will work closely with VDOT Information Technology Division (ITD) Contract Administrator and/or Project Manager to ensure that the procurement is conducted in accordance with policy and procedures for review of technology procurements, agreements, or contracts for amounts exceeding \$100,000 as defined by the Secretary of Technology and Virginia Information Technologies Agency (VITA).

- ii. **Materials** - All materials purchased by VDOT and all materials purchased by Contractors for use in construction and maintenance work must be approved by the Materials Division, as applicable, or its authorized representative, before they may be used. Specific information may be found using this link: [Materials Division](#).
- iii. **Road and Bridge Specifications** - A book of specifications that is standard for all contracts awarded by the Commonwealth Transportation Board. Excerpts of sections can be taken from the book in developing goods or services contracts: [Roads and Bridge Specifications and Revisions](#).
- iv. **Road and Bridge Standards** - Two volumes of detailed drawings and specifications that can be used in goods and services solicitations. [Road and Bridge Standards](#).
- v. **Safety Equipment** - VDOT's Safety and Health Division issues all specifications for safety equipment such as personal protective equipment, hazard labels, extinguishers and other safety items. No changes or modifications shall be made to the safety equipment for VDOT employees use without written permission from the Division Administrator of Safety and Health or designee. All safety equipment issued under the MANCON contract is in accordance with current federal/state safety regulations, codes and national standards and specifications.
- vi. **Traffic Control Devices** – Traffic Engineering has a listing on VDOT's external site of Traffic Control Devices that are approved. Information can be accessed at: [Pre-Approved Traffic Control Devices and Procedures](#).

- vii. **Work Area Protection Manual** – These standards and guidelines for temporary traffic control within the VDOT right of way must be included in all contracts where traffic control is required. Manual and additional information may be accessed on the VDOT Internet site at: [Work Zone Safety](#).

- viii. **Equipment with Operator**
 - (1) **Snow Removal Services** – These services will be procured using competitive bidding processes or Maintenance Division M7B “Snow Removal Equipment Agreement”. Specific information related to the M7B program can be found in the [VDOT Maintenance Best Practices Manual \(BPM\)](#).

 - (2) **Other Equipment Services** – These services will be procured using competitive bidding processes.

 - (3) **Equipment Inspections** – Inspections may be required prior to contract award. Vendor Qualification/Equipment Certification Form ASD-08 (See Attachment 4E) should be included in solicitations when such inspections are required. Only equipment listed should be inspected and verification of ownership, lease, rental or subcontracted status will be confirmed prior to award.

- ix. **Tree Pruning and Removal Services** – Procurement of tree pruning and removal services is processed by Central Office ASD Procurement Office. There is a policy that governs tree pruning and removal operations on VDOT right-of-way by employees, agents, and contractors that has been approved by the CTB and implemented by Maintenance Division for use in developing contracts.

- x. **Aggregates**
 - (1) **Delivered** – Statewide needs are advertised and awarded on a two-week cycle. District requests are submitted via an approved requisition in Cardinal which will be routed to the Central Office ASD Procurement Office to consolidate all needs and issue one solicitation.

 - (2) **Free on Board (FOB)** – Purchases picked up from local quarries by VDOT will be processed by the local ASD Procurement Office using proper purchases procedures.

xi. FOB Asphalt and Ready-Mix Concrete

Purchases will be processed by the local ASD Procurement office using proper purchases procedures.

(f) Other Considerations

- i. Complex and non-routine procurement** – Some procurement requires more in-depth analysis and planning to ensure the resultant contract meets user needs and can be administered effectively. Refer to Attachment 4F for *Guidance in Procurement Planning for Complex, Non-routine Contracts* for more information and questions to consider during the procurement planning.
- ii. Pre-bid or Pre-proposal Conferences** – Unless a waiver is requested and approved on the DTF Form ASD-03 for procurements over \$100,000, ASD will conduct conferences/site visits when the procurement is for complex or critical requirements or determined to be beneficial by the Contract Officer. A technical representative provided by the requestor will be present at all conferences.
- iii. Insurance** - Any contract that requires insurance will include the appropriate terms and conditions in the solicitation. For each type of insurance required by the contract, Contract Officer will obtain a copy of the insurance certificate and related endorsement which names the Commonwealth of Virginia as an additional insured with respect to the contract.
- iv. Security (CII/SSI)** – The procurement of goods or services that may present a security risk by the access to Critical Infrastructure (CI) and/or release of either Critical Infrastructure Information (CII) or Sensitive Security Information (SSI) must include VDOT special term and condition, Security Requirements, and comply with Department Memorandum (DM) 1-25 on the Criminal History Record Check program.

If special terms and conditions are used, notify the Personnel Security Section (PSS) after posting the Notice of Intent and provide the following information: Contractor Name, physical address, email address, telephone number, and Contact person.

- v. Conference Planning Checklist**

4.4 **Debarment, Enjoinment, Prohibited and Suspended Listing** – Prior to award of any contract, Contract Officers must check the state and federal listing to ensure bidder/offeror and all subcontractors can be awarded a state or federally funded contract.

For federally-funded contracts, print documentation from website and include in procurement file.

The state debarment, enjoinment prohibited listing can be accessed here: [Virginia's eProcurement Portal](#).

The federal suspended and debarment listing can be accessed here: [System for Award Management \(SAM\)](#).

FEDERAL FUNDING PROCEDURES

ASD Invitation for Bids (IFB)/Request for Proposals (RFP)

Utilizing federal funds

1. End User (EU) determines work is federally eligible and completes the ASD-15 Procurement Approval Request Form (if applicable) and obtains appropriate approvals to begin procurement.
2. EU works with District Project Investment Management (PIM) office and enters project into Project Pool, submits initiation request, and Infrastructure Investment Division- Finance Section (IID Finance) establishes a Universal Project Code (UPC).
3. EU updates Project Pool, assigns Phase Job Numbers, and updates the Integrated Project Management System (iPM) as appropriate and obtains Environmental and Right Of Way clearance.
4. EU submits "Scope of Work" or "Statement of Needs" to the Federal Highway Administration (FHWA) for preliminary review and final eligibility and participation concurrence.
5. FHWA provides written email confirmation of concurrence; however, this is **NOT** permission to advertise the project. **Permission to advertise is obtained on Step 15.**
6. EU contacts the Federal Programs Management Division (FPMD) – Federal Section to assign a federal project number based on approved "Scope of Work" or "Statement of Needs" and submits a copy of FHWA concurrence.
7. The EU develops and uploads budget estimate into the Project Cost Estimating System (PCES). The EU works with the Regional Operations Business Administrator (ROBA) or Assistant District Maintenance Engineer (ADME) to send Funding Transfer (OPO/PD-24) form to Infrastructure Investment Division – Program Section (IID Program). IID Program verifies funding on transfer is available and works with the Financial Planning Division and Fiscal Division to complete funding transfer.
8. The EU enters requisition in Cardinal and uploads/attaches the following documents to the requisition in Cardinal:
 - a. Approved ASD-15 Procurement Approval Form (if applicable)
 - b. ASD-30 Supplement Form For Requisitions
 - c. "Scope of Work" or "Statement of Needs" with FHWA concurrence e-mail.
 - d. Detailed Estimate Summary ("Preliminary Cost Summary" form) (broken out by work type code). Complete form - [FPMD Detailed Cost Estimate](#), also a Detailed Engineer's Estimate (if available).
 - e. Federal Criteria Sheet and supporting documentation (*see pages 6 & 7*)

ASD Procurement Process Begins

9. ASD Regional Procurement Manager (RPM) or Central Office Procurement Manager (COPM) assigns a Contract Officer (CO) to handle the procurement.
10. ASD CO forwards detailed scope of work or statement of needs and Detailed Engineer's Estimate (if available) to the Civil Rights Division (CRD) for Disadvantaged Business Enterprise (DBE) goal determination and list of required documents. The CO works with the EU to develop and finalize the solicitation while waiting for CRD response.
11. CRD forwards the ASD CO the DBE goal (if any) as well as a list of all DBE related documents to be included in the solicitation. These forms and provisions may be found using the CRD link below. Construction forms and provisions listed on Page 7, Item 7 of the 11-Point Checklist can be found on the below Construction Division link.

Civil Rights Forms and Provisions:

Federal forms must be included in the IFB/RFP. Contact Wayne Fedora at FHWA r.wayne.fedora@dot.gov or 804-775-3344 with questions about federal forms to be included in the IFB/RFP.

Below are some helpful links to federal forms/guidelines.

12. IID Finance verifies funding is programmed in "Live Six Year Plan (SYP)" and obtains Chief Financial Officer (CFO) approval. IID Finance sends copy of the Approved PD4 Funding Verification to EU and ASD CO.
13. ASD CO submits final RFP/IFB to FHWA for review and copies EU. ASD CO submits Detailed Estimate Summary ("Preliminary Cost Summary" form) and the Federal Criteria Sheet to FPMD with copy to EU to request authorization for advertisement and submits to FHWA.
14. FHWA reviews authorization requests and approves in FMIS.
15. FPMD Federal reviews daily FMIS approvals and will notify ASD CO of approval for advertisement. FMIS data automatically downloads into the Project Pool and will notify ASD CO of approval for advertisement via e-mail. (Federal-Aid Project

Agreement with effective date of authorization). Failure to obtain the appropriate approvals will cause the IFB/RFP to lose federal funding automatically.

16. If Addendum is issued, ASD CO submits to FHWA for approval. If cost is anticipated to increase, a revised detailed summary must be submitted to FPMD.
17. ASD CO receives and reviews bids/proposals. Verify debarment/suspension status of prime and all subcontractors on the [System for Award Management](#) site. Print findings and include in procurement file.
18. For IFBs with a DBE goal, ASD CO forwards bid package of apparent lowest responsive, responsible bidder to CRD. Proceed to Step 20.
19. For all RFP and 2-step IFBs, ASD CO sends all SWaM attachments, signature page and cost if applicable to the SA for evaluation and scoring. SA provides scoring for SWaM evaluation to the ASD CO.
20. For all RFP and 2-step IFBs with a firm DBE goal, ASD CO sends proposals to CRD for evaluation after SA review.
21. CRD reviews bids/proposals and provides results of DBE evaluation to ASD CO.
22. ASD CO notifies bidder/offeror if bid/proposal does not meet DBE goal. CRD schedules Good Faith Effort (GFE) panel hearing as required. CRD communicates panel decision to ASD CO. If GFE is met then ASD CO will proceed. If not met, then bid/proposal is determined nonresponsive/rejected and CO evaluates the next bidder/offeror.
23. For RFP and 2-step IFBs, ASD CO meets with evaluation team and conducts oral presentations (RFP) and/or negotiation sessions as needed.
24. ASD CO verifies funding with EU and the EU approves lowest responsive, responsible bidder or selected offeror.
25. Verify debarment/suspension status of prime and all subcontractors on the [System for Award Management](#) site. Print findings and include in procurement file.
26. If project has to be approved by CTB, wait to go to step #26 until after CTB approval.
27. ASD CO submits award request (revised detailed estimate summary (see 8 d.) (change form name from "preliminary" to "detailed" based on award amount) to FPMD. ASD CO submits contractor name and award price to FHWA for concurrence.
28. If award amount is higher, FPMD will request IID Finance to obtain CFO approval. IID Finance will coordinate with PM on transfers and IID Program will process the transfer request per OPO/PD-24 submittal.
29. FPMD requests and receives FHWA approval for award (Federal-Aid Project Agreement) and notifies ASD CO and EU.

30. ASD CO submits Title VI evaluation documentation (if applicable) documentation to CRD for approval.
31. ASD CO posts the Notice of Intent to Award in eVA.
32. EU prepares resolution for Commonwealth Transportation Board (CTB) approval, if required.
33. If CTB does not approve, ASD makes adjustments required and EU resubmits for CTB approval.
34. If CTB approves, ASD posts Notice of Award in eVA and notifies EU and FPMD Finance.
35. IID Finance and Fiscal opens UPC to charges.

Do I use the Administrative Services Division (ASD) or the Construction Division (CD) for my contract?

To help you decide whether to a contract should be procured with ASD or CD, this document provides a description of CD and ASD contracts and a decision tree to walk you through the clearly defined decision points.

DESCRIPTION

CD Contracts

Contracts by CD are generally for transportation-related projects funded by Federal or State money. All CD contracts are governed by the Virginia Public Procurement Act (VPPA), follow the current *VDOT Road and Bridge Specifications*, and follow the Concurrent Engineering Process or Special Advertisement and Award Process (*SAAP Manual*). These contracts are generally awarded based on unit prices. Solicitations for CD contracts are in the form of Invitation for Bid (IFBs) and are only sent to VDOT pre-qualified contractors. CD advertises their IFBs twice each month according to a fixed schedule via the Contractor Advertisement Bulletin Board (CABB).

ASD Contracts

ASD contracts are generally for goods and services. ASD contracts are also governed by VPPA but follow the *Agency Procurement, Surplus Property Manual (APSPM)*, and the *Vendor's Manual*. Solicitations are in the form of IFBs or Requests for Proposal (RFPs) and are open to public bid. ASD solicitations can be advertised at any time via eVA.

DECISION TREE

For the most part, there is a clear distinction between the types of contracts issued by the Construction Division (CD) and the contracts issued by the Administrative Services Division (ASD) as delineated in the following flow diagram (Figure A).

If you still have a question about which Division you should use, the District Administrator will make a determination based on input from a review panel including the District Maintenance Engineer, District Construction Engineer and their Administrative Services Division Regional Procurement Manager to evaluate the risks and advantages of each contracting method. The District Administrator will make the final determination.

3. Does the contract require VDOT Construction Engineering, Inspection services and will be administered by Construction Staff (technical oversight, record keeping (project diaries), material sources, or certified on-site testing)	Yes →	Construction Division
	No. Go to #4	
4. Is the contract expected to be delivered by the contractor as a "Turnkey" project ready for immediate use by motorists with minimal VDOT oversight (VDOT monitors for contract compliance but does not manage / supervise the work)?	Yes →	Construction Division

5. Is the contract scope designated as on-call/incidental maintenance and repair?	Yes →	Administrative Services Division

Instructions For ASD 08

This form must be used when hourly equipment is specified in the solicitation or specific equipment is specified within the solicitation.

If confirmation on the number of employees for evaluation of solicitation is needed for evaluation, then include it as part of the solicitation.

For confirmation of licenses utilize the special terms and condition for licenses requirements.

For reference checks use special terms and condition.

Contract Officer is to complete #4 under the category "description" with all required equipment as listed in the solicitation.

- Example – If line one of the IFB requires four Single Axle Dump Trucks, then the CO would list Single Axle Dump Truck four times.
- If line two of the IFB is for one backhoe then list Backhoe in the next line in the column. The vendor then would complete the remaining information.
- If a piece of equipment does not have a capacity such as a trailer mount arrow board the CO can place N/A in the capacity.

For rental equipment the bidder will only be required to submit a letter from applicable entity from which they intend to rent/lease equipment stating the type of equipment and it's availability for the duration of the contract period. This letter shall be received prior to Notice of Intent. The successful vendor will no longer be required to submit a signed rental/lease agreement. If the equipment is not available when requested then it becomes a performance issue.

For purchased equipment the bidder shall provide proof of purchase with confirmed delivery date prior to the notice of intent.

The ASD-08 is not required for performance based contracts.

The ASD-08 is not required for solicitations for goods.

All communications between the Contract Officer and the bidder for clarification/information must be done in writing.

5. Rented, leased equipment: Prior to Notice of Intent to Award VDOT shall require the bidder/offeror to provide a letter from the applicable entity on company letterhead stating the type of equipment with detailed equipment description and availability for the duration of the contract period, for any equipment intended for use to perform services of this IFB/RFP. This letter must be provided to the Contract Officer within 2 business days of request or the bidder/offeror will be deemed non-responsive.

Sub-Contracted equipment: Prior to Notice of Intent to Award VDOT shall require the bidder/offeror to complete the sub-contracting form identifying the company they intend to use for sub-contracting and listing of the equipment. This form must be provided to the Contract Officer within 2 business days of request or the bidder/offeror will be deemed non-responsive.

Future equipment purchase: Prior to Notice of Intent to Award, VDOT shall require the bidder/offeror to provide proof of purchase with detailed equipment description and confirmed delivery date for any equipment intended for use to perform services of this IFB/RFP. This proof of purchase must be provided to the Contract Officer within 2 business days of request or the bidder/offeror will be deemed non-responsive. All purchased equipment must be available by date of award.

6. Is any of the equipment listed above currently committed on any other contract (VDOT / non VDOT) contracts? ___Yes___ No
If yes, identify which equipment (year, make, model, ID/VIN), where the equipment is committed, contract number(s), name the party to the contract and location.

Administrative Services Division

Guidance in Procurement Planning for complex, non-routine contracts

- 1) Identify district/division that will serve as project lead.
- 2) What is the appropriate procurement method? (competitive negotiation, competitive sealed bidding, or competitive sealed bidding – 2-step) If competitive negotiation or competitive sealed bidding - 2-step, justification needs to be discussed, prepared and submitted for approval.
- 3) Will contract period, including renewals, be more than the standard 5 years? Justification is required for contracts which exceed 5 years.
- 4) Identify all internal and external stakeholders. Who will need to have input into this project? (i.e. FHWA, VITA, Civil Rights, other divisions within VDOT, etc.)
- 5) Does the project impact critical infrastructure and/or information network? If so, what are the security requirements?
- 6) Will the contract generate revenue for VDOT?
- 7) Do you anticipate subcontractors as a result of this procurement? If so, will VDOT require an enhanced Audit clause in Special Terms and Conditions to extend audit rights to all subcontractors as well as contractor? Confer with VDOT Assurance & Compliance Office for guidance.
- 8) Does VDOT have the expertise in house to handle the procurement or project management for this project? What specialty resources may be needed to develop the solicitation and/or evaluate responses to this procurement? (i.e., financial analysts, IT, engineering, etc.)
- 9) Will the project require CTB approval prior to award?
- 10) Will the award be made to a single contractor or multiple contractors?
- 11) How will the Pricing Schedule be structured so the total cost for each bid/proposal can be determined? Will a pricing model that incorporates past usage be used? How will the total cost be calculated? Will the contract be awarded on a line item basis, grand total or lots?
- 12) Who will comprise the evaluation committee, and why were they selected? Are technical committees needed also?
- 13) Will price adjustments be allowed during the course of the contract? How often? Will the Consumer Price Index (CPI) or Producer Price Index (PPI) be used to evaluate price increase

Administrative Services Division

Guidance in Procurement Planning for complex, non-routine contracts

requests? What does the contractor need to provide VDOT for a price increase request to be considered?

- 14) What specific requirements must each bidder/offeror provide in their proposal? In the RFP, organize these requirements into groups (Tab 1, Tab 2, etc.) according to the evaluation criteria (Experience, Methodology, etc.) and request bidder/offeror to provide this information in separate tabs in their proposal.
- 15) After the award of the contract, how will the VDOT contract administrator implement the contract, monitor/measure contractor performance? How will the contract administrator confirm prices charged are according to contract? Are there any disincentive charges?
- 16) After award, what kind of reports must the contractor provide the VDOT contract administrator? What information must be included in the reports and what format should reports be in (Word, Excel, etc.)? What frequency should reports be provided to VDOT (monthly, quarterly, annually)?

NOTE: This list is not all inclusive. It should be used as a starting point to gather information and engage stakeholders to procure complex, non-routine contracts.

Purchasing card must be obtained through participation in the statewide contract administered by the Department of Accounts (DOA), in conjunction with DGS/DPS.

ASD is responsible for statewide SPCC Program Administration for VDOT through coordination with local SPCC Program Administrators in each District.

The proper eVA PO Type code must be used on all purchase orders and transactions. The eVA PO type must be changed in the purchase details. For SPCC purchases, check the SPCC User Guide for the proper eVA codes.

1. If the transaction is exempt from PO use code **X02** (i.e., APSPM 14.9 exempt items, Enterprise car rental-in accordance with their contract, government to government, conference registration, etc.).
2. If the transaction is not applicable to any of the above it should be marked **R01**.

Value	Long Name
R01	Routine Bill Vendor (Anything without a PO that is not applicable to other codes)
X02	Excluded Per APSPM

- 5.5 Small Purchases between \$5,000 and \$100,000** require an approved requisition in Cardinal and scope of work, if applicable. Each requisition will be routed in Cardinal to the local ASD Procurement Office and assigned to a Contract Officer for procurement.

Prior to contract award, Contract Officer must check state and federal, if applicable, debarment and suspension lists. See Manual Section 4.4 for websites.

See detailed processes in Attachment 5D Small Purchases \$5,000 to \$100,000 eVA Quick Quote and Attachment 5E Unsealed Bids \$5,000 to \$100,000.

BID/PROPOSAL RECEIPT AND PUBLIC OPENING PROCESS: (per APSPM 3.1e)

- Bids and proposals should be received at one central location.
- Bids and proposals are received and stamped on the outside of each bid/proposal. Occasionally, the original envelope/box with date and time stamp contains additional envelopes. Take care when removing (cutting) the date & time stamp from exterior of package and attach securely to the exterior of the additional envelope containing the bid/proposal.
- If a bid is received and opened by VDOT staff due to incorrect/insufficient labeling, attach and initial documentation to the bid explaining the reason that the bid was opened before the public opening.
- Record the name of bidder/offeror and receipt date for each bid/proposal on the ASD-14 Record of IFBs/RFPs Received.
- Receive bids and proposals until the due date and time specified in the IFB/RFP. When the receipt deadline has arrived, no further bids/proposals will be accepted.
- Prior to the public opening, verify that all bids/proposals received are from vendors who attended the mandatory pre-bid/pre-proposal conference, if applicable. The procuring Contract Officer (CO) must ensure that mandatory conference attendance lists are given to the person conducting the public opening to ensure those bids/proposals are not read at the public opening.

CONDUCTING THE PUBLIC OPENING

Invitation for Bid (IFB) - IFB files are securely filed and locked in a file cabinet and filed by Contract Officer's (CO) last name.

1. Take IFB file, bids, letter opener or utility knife*, and a pen to each bid opening.
2. Introduce yourself to attendees.
3. Distribute the ASD-04 Public Opening Log to be completed by each attendee and collected at the end of the bid opening meeting to be retained in the procurement file.
4. State the Opening Time and read IFB number and commodity description.
5. Give a brief overview of the bid opening. For example, "We received ___ number of bids for this solicitation. This IFB is being awarded by line. Therefore, I will read the Unit Price of each line." Or "...This IFB is being awarded by Grand Total. Therefore, I will read the Grand Total only."

Attachment 6M

6. Open each bid & read the bidder's name, the unit price (if awarded by line) and/or grand total ONLY. When a bidder requests unit prices be read, ask the person's name and make a note beside requestor's name/company name on the attendee sign-in sheet.
7. If IFB calls for a make & model or other information, such as start and end dates, the information should be read. **NOTE: Bidders should not be able to see anything you read.**
8. **IMPORTANT: No questions on other bid contents should be answered.**
9. The person conducting the meeting keeps control of the meeting at all times. After all bids are opened and pricing is read, state "This bid opening is now over. We need this room for another meeting. Please leave your visitors tag at the customer service desk. Thank you." Clear the room. There should be no loitering.
10. Keep each bid together with the envelope in which it was received with date & time stamp. Staple each bid to envelope (with date & time stamp). Make sure the envelopes are folded to enable placement in a letter-sized manila envelope.
11. Write the Cardinal Vendor ID number beside the name of each bidder on the ASD-14 Record of IFBs/RFPs Received. **NOTE: Bids and proposals should never be written on. Notations should be written on post-it notes.**
12. Sign off at the bottom of the ASD-14 Record of IFBs/RFPs Received.
13. Tabulate bids in Cardinal.
14. In Cardinal, run and print the Bid Tab report and/or the Event's Analyze Export file.
15. Proof and verify the bid tabulation/analysis report(s) and place on the top of the inside of the file.
16. Deliver the bid tabulation and all supporting documentation to CO.

Two-Step IFB – Two-Step IFB files are securely filed and locked in a file cabinet and filed by CO's last name.

1. Bidders are instructed on first page of the IFB "Sealed Technical Proposals, Price Envelopes and Bid Bonds in separately sealed envelopes as described herein..." When bids are received, prior to the opening, if a vendor failed to follow instructions and did not write the IFB number on the outside of the package, open the package to retrieve

Attachment 6M

IFB number and vendor name. Write the reason the IFB was opened on a Post It note and securely attach with tape to front of the package. Reseal the package.

2. If bidder failed to submit bid/proposal in two separate envelopes, and package is properly labeled [with vendor name and IFB number], do NOT open the package.

IMPORTANT: The date and time is stamped on the exterior of the package when received by mailroom staff. It is VERY important to take care when removing (cutting) the date & time stamp AND the bidder's name and address label from exterior of package and affixed securely to the exterior of the original technical proposal. If a technical proposal is not labeled "Original", securely affix the date and time stamp and bidder's name label to the front of one of the technical proposals.

3. Make a file labeled Two Step Bid Number ____ Bid Pricing, and keep all bid pricing and bid bonds, if required, in the file in a securely locked file cabinet until the Bid Pricing Opening to be scheduled by Contract Officer at a later date. ***NOTE: Bid Pricing Envelopes should NEVER be opened prior to the Bid Pricing Opening scheduled by CO at a future date.***
4. Pull and take all two step IFB file and packages to the bid opening a few minutes before the bid opening.
5. Ask attendees (if any) to sign the ASD-04 Public Bid Opening Log.
6. Technical proposals are opened as close to the Opening time as possible (10:30 am or 2:00 pm).
7. If attendees are present, begin the bid opening by stating "Good morning/afternoon. It is __ am/pm and Two Step IFB number (read commodity description) has begun. Bidder's name only will be read. Proposals will be given to contract officer. Bid pricing openings are scheduled at a later date by the CO."
8. Open one package at a time and take care not to damage the date & time stamp on exterior of package.
9. Remove technical proposal and read the bidder's name and announce that the Bid Pricing envelope [and Bid Bond, if required] is included.
NOTE: Bidders should not be able to see anything you read.
10. Open second package; repeat steps 8 – 9.
11. The person conducting the public opening keeps control of the meeting at all times. After all bids are read, state "This bid opening is now over. We need this room for

Attachment 6M

another meeting. Please leave your visitors tag at the customer service desk. Thank you.” Clear the room. There should be no loitering.

12. Place the ASD-04 Public Bid Opening Log and all technical proposals in the Two Step IFB file (unless they do not fit in the file).
13. Because this is a two-step bid opening, tabulation is done at a later date.
14. Return the Two Step IFB file and technical proposals to CO immediately after the bid opening.
15. CO notifies bidders via email whether or not their proposal is acceptable. Proposals deemed unacceptable are returned to bidder along with unopened bid pricing envelope.

Two Step IFB Pricing Opening

1. Pull the two step bid pricing IFB file a few minutes before the public opening.
2. Distribute the ASD-04 Public Opening Log to be completed by each attendee and collected at the end of the bid opening meeting to be retained in the procurement file.
3. If attendees are present, begin the bid pricing opening by stating “Good morning/afternoon. It is (state time) and IFB (state #) bid pricing is being opened. I will read the names of the bidders deemed acceptable and the prices.”
4. Open one package at a time and take care not to damage the date & time stamp [if package is stamped with a date & time stamp] on exterior of package.
5. Read the name of the bidder and bid price(s). ***NOTE: Attendees should not be allowed to see what you are reading.***
6. **IMPORTANT: No questions on other bid contents should be answered.**
7. The person conducting the meeting keeps control of the meeting at all times. When all bid pricing packages are opened and vendor names and pricing are read, state “This bid opening is now over. We need this room for another meeting. Please leave your Visitors tag at the customer service desk. Thank you.” Clear the room. There should be no loitering.
8. Tabulate bids in Cardinal.
9. Return the Two Step IFB Bid Pricing file containing the Bid Tab report and ASD-04 Public Opening Log to the CO.

Attachment 6M

Request for Proposal (RFP) - RFP files are securely filed and locked in a file cabinet (or an office with a lock) and filed by CO's last name.

Note: Public Openings are not conducted for RFPs.

1. Keep all proposals together and secure date & time stamp to original proposal.
2. Return the ASD-04 Public Opening Log and all proposals to CO.

*Base Index Price: _____

Note: The base index price shall be used as a component to calculate monthly price adjustments

*The base index price for the term of the contract shall be _____ base index price (short ton) published on VDOT’s site: [Adjustment for Asphalt and Fuel Indices](#)

IV. PRICE ADJUSTMENTS

For the duration of the contract price adjustments will be applied each month. The adjustment may increase or decrease the bid price for each quote ton of asphalt mix. All price adjustments shall be based solely on the price changes calculated by the formula described herein. These adjustments will be determined by VDOT, using the Price Adjustment Indices for Asphalt published at the beginning of each month on the VDOT web site at: [Adjustment for Asphalt and Fuel Indices](#).

VDOT will adjust the price on the first business day of each month. In the event that there are open standing purchase orders or those with undelivered quantities, VDOT will:

1. Amend to reflect the newly adjusted price and continue usage
- OR
2. Cancel the remaining purchase order quantities and reissue new.

eVA fees will apply in all cases.

To establish the adjusted priced per FOB ton of asphalt, the asphalt price adjustment will be applied to the % liquid asphalt content in the mix and per region (attachment A) as shown below:

$$\text{Equation: Adjusted Price Per Ton} = \text{Quoted based price} + [(\text{Average \% in mix} \times (\text{current Index \$} - \text{Base Index \$}))]$$

Example: Monthly Price Adjustment

FOB Asphalt quoted price per ton for SM 9.5 (5.7% Asphalt in Mix) in Lynchburg District = \$60/Ton on May 1, 2008. Per the Price Adjustment indices for Asphalt for May 2008 the Base Index was \$456.00 per short (imperial) ton.

June 2008 Base Index is \$597.50 per short ton

$$\text{Adjustment Price} = \$60 + [(5.7\% \times (\$597.50 - \$456.00))]$$

$$\text{Adjusted Price} = \$60.00 + \$8.06$$

Adjusted Price Per Ton for the second month is \$68.06.

SECTION 10

CONTRACT ADMINISTRATION

- 10.1 Contract Administrator Designation and Training**– A Contract Administrator (CA) shall be designated before a contract is awarded. Designated CA must have completed the Contract Administration Training provided through ASD within the preceding 2 years.

Registration for Contract Administration Training is through [VDOT University](#).

Contract Administration Training is required every two (2) years. A list of employees who have completed training can be found at this link: [Contract Administration Report](#).

- 10.2 Responsibilities of the Contract Administrator** – The primary responsibility of the CA is to direct the contractor and ensure contract requirements are met. CA will be issued a Contract Administration Designation Letter Form ASD-35 (Attachment 10A) outlining the details of their responsibilities. The CA and Supervisor must sign this letter and return it to the Contract Officer acknowledging understanding of the CA duties. Should a CA delegate any portion of their responsibility, they are responsible for ensuring that person has the information needed to perform those functions. If a Contract Monitor (CM) is designated, the CA is responsible for ensuring that the CM meets the requirements described in Attachment 10A, which includes attending the post award meeting, receiving the required training and completing the Delegation of Responsibilities from Contract Administrator to Contract Monitor form. If a CM is unable to attend the post award meeting, the CA must meet separately with the CM in order to review the CM’s duties and to ensure understanding of the contract requirements. The responsibility of contract administration remains with the individual identified in the designation letter.

(a) Planning - It is recommended that a start up meeting be held between VDOT personnel and the contractor at the beginning of a contract to review expectations.

(b) Task Orders - For contracts which require issuance of task orders, no authorization to work exists without a task order signed by the CA. The CA is the individual responsible for preparing and authorizing task orders based on the scope of work and requirements set forth in the contract. Generally, the CA creates a numbered task order and a scope of work. Some contracts are awarded to multiple vendors, in which case the CA must first determine the appropriate vendor to perform the task. The CA contacts the vendor and provides them with a scope of work. The vendor reviews the scope and returns it with detailed pricing indicating the cost elements necessary to complete the task. The price must match the original contract unit

price costs and show a breakdown of all proposed charges including staff, materials, and expenses. The CA reviews the information and determines if all charges are acceptable and within their estimate. The CA should discuss and resolve items that appear excessive, unnecessary, or unclear.

A task order is then prepared by the CA, which must include, but is not limited to:

- A reference to the original contract number
- A dollar cap for performing the task
- All expenses as defined in the contract
- A completion date
- A reference to *State Travel Guidelines* for expense caps
- Identification of individuals and job classifications assigned to tasks
- All contract bill rates
- Deliverables to be provided
- Payment procedures
- Invoicing location and contact person

Task orders with a dollar value over \$100,000 must be reviewed by the Contract Officer prior to issuance. This is not for approval of the work but a checkpoint for high dollar task orders.

All task orders must correspond to an approved purchase order in Cardinal referencing the task order number. Both the Cardinal purchase order and task order should be sent to the contractor as authorization.

(c) Task Order Changes - Only the CA is authorized to make changes to a task order. If necessary, the user will forward a request for a task order change to the CA indicating the reason for the change. Any change must be made within the scope of the original contract. Only the Contract Officer is authorized to make changes to the original contract. If there is doubt regarding changes, contact the Contract Officer for assistance. If a change is made to increase the value of a task order with an original dollar value over \$100,000, the change must be reviewed and initialed by the Contract Officer prior to issuance. Changes that increase the value of a task order to over \$100,000 must be reviewed and initialed by the Contract Officer prior to issuance. Any performance issues regarding the contract or associated purchase orders and task orders must be handled in coordination with the ASD Contract Officer for proper notification and resolution.

(d) Work Orders - A work order is a written authorization describing the detailed work to be performed under an established contract and must be associated with a Cardinal purchase order. Work orders are only required if specified in the contract.

When possible, a single purchase order covering extended period of times should be created from the contract.

Work orders are typically used with requirement contracts (i.e. Equipment with Operator, Roadside services, Time & Material contracts), and should not be used for consultant contracts. Generally, a work order is used to convey to the contractor, the scope of work to be performed, completion date or estimated timeline, specific type of equipment to perform identified services in accordance with the scope of the contract, etc.

The Contract Administrator (CA) is the individual responsible for preparing and authorizing the work order based on the work and requirements set forth in the contract and the specific need of the local work unit.

A work order requires a timesheet to document the number of hours used if the unit of measure is an hourly rate. Otherwise, some form of documentation will be required to verify that services were completed per the requirements of the work order in order to approve payment to the contractor. In either instance signatures of those verifying the services must be documented.

(e) Work Order Changes - The Contract Administrator is the only authorized person to make changes to a work order. Any change must be made within the scope of the original contract. In addition, when individual purchase orders are issued, the purchase order must be modified to reflect the work order changes.

10.3 Contract Modification – Only the Contract Officer is authorized to make modifications to a contract. The CA may make recommendations for modifications to the Contract Officer. Any request for change affecting price, quality, quantity, delivery or cancellation requires a thorough written explanation.

Contractor Release from Contract Form ASD-05 (See Attachment 10B) may be required. This form should only be used for contracts awarded to multiple contractors.

Refer to Attachment 10C for the detailed Contract Modification process.

10.4 Contract Renewal - Requests to renew a contract shall be submitted by the CA to the Contract Officer at least 90 days prior to expiration of the contract or earlier if contract terms provide for extended notice periods. This request should be sent via email and must include:

- (a) an approved Procurement Approval Request Form ASD-15 if applicable
- (b) Contractor Performance/Renewal Recommendation Form ASD-36 (Attachment 10D)

Contract expenditures and contractor performance should be evaluated by CA at the end of the contract period prior to renewal. All price increases requested by the contractor, if provided for in the original contract, should be negotiated by the Contract Officer and not exceed the index amount referenced in the original contract.

For requirements contracts, it is a best practice that estimated quantities are reviewed to determine if contract should be renewed or re-advertised. If actual quantities exceed estimates by a significant percentage, then the contract should be re-advertised.

It is the responsibility of the Contract Officer to contact the contractor regarding renewals.

See detailed Contract Renewal Process in Attachment 10E.

- 10.5 Vendor Performance Complaint** – Contract Monitors may be assigned by the CA to review work completed and/or inspect goods received and provide confirmation of satisfactory completion and/or receipt to the CA. The CA is responsible to review vendor complaints submitted by Contract Monitors and end users prior to submitting to the Contract Officer. The CA may file a formal vendor complaint by submitting Vendor Complaint Form Annex 10H (Attachment 10F) to the Contract Officer. It is the Contract Officer’s responsibility to review the complaint and forward to the contractor for response. All Vendor Complaint Forms shall be included in the procurement file.
- 10.6 Termination for Default** – Regional Procurement Manager and ASD Administrator must approve any default action. ASD will maintain a list of all vendors placed in default or declared non-responsible. The list can be found at: [Procedures and Manuals](#).

**Attachment 10A
DESIGNATION OF CONTRACT ADMINISTRATORS AND CONTRACT MONITORS**

The purpose of contract administration and monitoring is to ensure that the Contractor’s and VDOT’s performance is in accordance with the terms and conditions of the contract for the goods or services being furnished, received, invoiced and paid as specified in the contract. I. Post Award Meeting Instructions:

After the award of any contract and before the start of the contract, the Contract Officer (CO) will meet via phone or in person with the Contract Administrator (CA) and the Contract Monitor(s) (CM) to review contract requirements as well as contract administration and contract monitoring duties. Superintendents, Inspectors, Supervisors and others that will have contractor oversight responsibilities should also attend the meeting. If any CM cannot attend the meeting, the CA must meet separately with the CM in order to review the CM’s duties and to ensure understanding of the contract requirements. The CO must provide a copy of the contract to the CA. The CA must provide a hard copy of the contract to each attendee from an Area Headquarters so that the contract can be kept as a reference at the job site. An optional Contractor Performance Checklist for Contract Monitors is included in this package and may also be used as a reference at the job site.

SECTION 15

CAPITAL OUTLAY

- 15.1 General** - ASD's Capital Outlay Section is responsible for the procurement of professional and construction services for capital outlay and maintenance reserve, when professional engineering and design services are required in accordance with the *Construction and Professional Services Manual (CPSM)*.

Responsibility	Contact
Capital Outlay Director	
Capital Outlay Assistant Director	Tim Crooks
Capital Outlay Contract Administrator	

- 15.2 Professional Architect/Engineer (A/E) Design and Construction Administration Services** - To initiate procurement for professional services, obtain District Administrator approval on the Request for Approval to Use Consultants Form ASD-33 (See Attachment 15A) and submit to the ASD Division Administrator for review and approval. Form ASD-33 is required to initiate work for projects approved in the Six Year Plan. For emergencies, contact the Capital Outlay Director to initiate work and follow up with documentation.

ASD Capital Outlay Section will work with end users to develop a scope of services and negotiate fee proposal with an Architecture and Engineering firm in accordance with *CPSM* guidelines

See detailed process for Capital Outlay Procurement for Professional Services in Attachment 15B.

- 15.3 Construction Services** – Upon completion and acceptance of design by VDOT and DGS Bureau of Capital Outlay Management (BCOM), ASD will advertise and award construction contract in accordance with *CPSM* guidelines.

Projects with a fixed price contract for construction occasionally require changes orders. When those change orders are less than 25% and \$50,000, VDOT has the authority to approve those change orders in ASD.

Any cumulative change orders on a project that exceed 25% or \$50,000 (whichever is greater) require approval by the Governor's designee (Director of DGS) **before** work can proceed. This can cause delays to the project schedule. In order to minimize potential delays in the construction project waiting for DGS approval of the change order exceeding these limits, district staff must notify the Contract Officer and the assigned Capital Outlay Project Manager as soon as you are aware of this possibility.

In no case (except emergencies), shall the Contractor be instructed to perform the change order work without receiving required approval.

See detailed process for Capital Outlay Procurement for Construction in Attachment 15C.

15.4 Facility Repair and Maintenance Projects – Routine repair and maintenance of facilities which do not require professional A/E and design services will be procured by the local ASD Procurement Office in accordance with *APSPM* requirements for nonprofessional services. Please refer to Section 4 of this manual for more information.

15.5 Contract Administration – The contract for professional services requires that the A/E provide the basic construction contract administration services required by the *CPSM*.

The VDOT representative for the project shall also provide the additional contract administration support described herein. For Maintenance Reserve projects the VDOT representative is the Facilities Manager. For Capital Outlay construction projects the VDOT representative is the Project Manager. The Capital Outlay Director may otherwise assign the VDOT representative to any construction project at his or her discretion.

The contract administration processes and procedures described in this section do not apply to projects for the routine repair and maintenance of facilities which do not require professional A/E and design services. Such projects shall be administrated by the Facilities Manager pursuant to the provisions of Section 10 of this manual.

(a) Project Oversight: The VDOT representative shall be responsible for overseeing the construction project on behalf of the agency. Safe and timely completion of the construction project is provided, in part, through the on-going and effective communications of the VDOT representative with the A/E, Facilities Manager and/or Project Manager, and the construction Contractor.

The VDOT representative shall be responsible for ensuring that the A/E performs all required tasks as described in the professional services contract. The VDOT representative shall communicate with the A/E any observed non-conformances in the construction Contractor's work. The VDOT representative shall also partner with the A/E to review and recommend for approval any proposed resolutions for work performed by the construction Contractor that does not conform to the contract specification(s) and that requires a change order.

(b) Project Meetings: The VDOT representative, or their duly authorized proxy, shall participate in all pre-construction meetings, progress meetings, pay meetings, and other project meetings. The purpose of these meetings includes, but is not limited

to, clarifying and discussing the contract specifications, reviewing the status of the work, and approving progress payments. The VDOT representative shall ensure that project meetings include a discussion of any construction Contractor's work that failed to meet the contract specifications and the resolutions put in place to remedy the non-conformance(s).

- (c) Non-Conformance Reporting:** If non-conformances in the work of the construction Contractor are recorded in the A/E's official notes, then the VDOT representative shall report the non-conformances to the Contract Officer responsible for the construction contract. The Contract Officer shall maintain a copy of the reported non-conformances in the Procurement File.
- i. Minor Performance Issues may be reported by submittal of the A/E's official notes or by other means as agreed to by the VDOT representative and the Contract Officer. If submittal is via the A/E's official notes, the VDOT representative shall specifically identify the non-conformances.
 - ii. Critical Performance Issues shall be reported by submittal of the Facilities Construction Procurement Complaint Form. The VDOT representative shall be responsible for ensuring the Facilities Construction Procurement Complaint Form is completed and submitted to the Contract Officer.

15.6 Performance Issues

- (a) Minor Performance Issues:** Construction Contractor performance issues that may not ultimately result in the failure of the project are defined as Minor Performance Issues. Minor Performance Issues may generally be corrected on the spot or during the Project Meetings and do not require any change to the specifications. The A/E is responsible for directing the construction Contractor to correct the issues. These issues must be reported to the Contract Officer pursuant to the process described in Section 15.5.c. The VDOT representative may opt to submit a Facilities Construction Procurement Complaint Form to the Contract Officer for Minor Performance Issues. Examples of Minor Performance Issues include, but may not be limited to:
- Poor workmanship of the construction Contractor or any sub-contractor
 - Poor coordination between the construction Contractor and any sub-contractor
 - Project delays of less than 10% of the approved Project Schedule
 - Non-conformance in the work of the construction Contractor that does not pose a threat to the safety of persons and/or property or to the successful completion of the project as a whole
- (b) Critical Performance Issues:** Construction Contractor performance issues that may ultimately result in the failure of the project are defined as Critical Performance Issues. A Facilities Construction Procurement Complaint Form must be submitted to

the Contract Officer for all Critical Performance Issues. For maintenance reserve projects Critical Performance Issues must also be reported to the Project Manager. Examples of Critical Performance Issues include, but may not be limited to:

- Commencing construction activities prior to issuance of a proper Building Permit
- Project delays in excess of 10% of the approved Project Schedule
- Use of abusive or obscene language or a threatening manner
- Safety concerns that may result in a threat to persons or property
- Unwillingness or inability of the construction Contractor to fulfill the contract, as may be evidenced by failure to correct any Minor Performance Issue
- Failure of the construction Contractor to meet its Small Business participation goals
- Any other issue that the VDOT representative, in consultation with the A/E, deems to be critical

15.7 Procurement Complaints

(a) Submittal: The VDOT representative shall submit the complaint in accordance with the instructions on the Facilities Construction Procurement Complaint Form (ASD-40, Attachment 15-D). The submittal shall include any supporting documentation that is relevant to the complaint and the form shall be submitted in a timely manner relative to the occurrence of the performance issue.

(b) Notice to Cure: Upon receipt of the Facilities Construction Procurement Complaint Form, the Contract Officer and the VDOT representative should review the complaint and gather any additional supporting documentation after which the Contract Officer shall draft a Notice to Cure letter. The intent of the Notice to Cure letter is to:

- Describe the performance issue;
- Describe the action that must be taken to correct the performance issue to include the timeframe by which the issue must be corrected; and to
- Clearly state the other remedies, described in Section 15.8, which may be taken by the agency if the issue is not corrected.

The draft Notice to Cure letter shall be submitted by the Contract Officer to the VDOT representative for review and approval. The letter may also be submitted to the Office of the Attorney General for review which may take up to 30 calendar days.

After all reviews have been completed the Contract Officer will submit the letter to the construction Contractor for action. The Contract Officer will also submit the

letter to the Bonding Agency, the Facilities Manager, the Project Manager and the A/E.

(c) Documentation: The Contract Officer shall maintain the Facilities Construction Procurement Complaint Form and the Notice to Cure letter in the Procurement File. The Contract Officer shall also complete and maintain the Facilities Construction Notice to Cure Record, [which can be found at this link](#), after issuing the Notice to Cure letter.

15.8 Other Performance Issue Remedies – If the Contractor fails to perform the work in the timeframe required in the Notice to Cure letter, VDOT may take one of the following actions. The Contract Officer shall consult with the Office of the Attorney General prior to instituting the action.

(a) Correction of the Work: Pursuant to Section 16.a, entitled Inspection, of the General Conditions of the Construction Contract, (DGS Form CO-7),

“If the Contractor fails to proceed at once with replacement of rejected material and/or the correction of defective workmanship, the Owner may, by contract or otherwise, replace such material and/or correct such workmanship and charge the cost to the Contractor.”

If the construction Contractor fails to pay for the cost of the correction of the work, pursuant to Section 36.d, entitled Payments to Contractor, of the General Conditions of the Construction Contract, (DGS Form CO-7), VDOT may use the payment retainage:

“as a fund to deduct amounts due to or claimed by the Owner, including, but not limited to, payment to the Owner of all moneys due for deductive change orders, credits, uncorrected Defective Work, interest, damages, and the like.”

(b) Enjoinment: VDOT may opt to submit an Initial Enjoinment Request to the Division of Engineering (DEB) Director. An enjoinment may be issued when the construction Contractor fails to fulfill its obligations and the issue can be corrected. The purpose of enjoinment is, in part, to require the construction Contractor to focus on completing the current contractual obligations. If the construction Contractor is enjoined, they will be prohibited from bidding on Commonwealth construction contracts for a period not to exceed one year.

DEB will take approximately 20 days to make the determination whether the construction Contractor should be enjoined. The decision may be appealed, which may take an additional 70 days or longer if the construction Contractor opts to institute Judicial Review.

The Contract Officer shall maintain the Initial Enjoinment Request and the DEB response in the Procurement File.

(c) Performance Bond: If there is a performance bond on the contract and the construction Contractor fails to correct the issue, VDOT may opt to notify the Bonding Agency of the construction Contractor's default.

The Bonding Agency must then contact the Contractor within 14 days to set up a meeting to discuss the methods of completing the construction contract.

Within 30 days after that meeting, the Bonding Agency must provide written notice to VDOT of the actions that will be taken. During this time the Bonding Agency will investigate the claims and otherwise analyze the project. The Bonding Agency may opt to:

- i. Undertake and complete the contract, or
- ii. Waive their right to complete the contract by either:
 - a. Paying to VDOT the amount due under the Performance Bond, plus any damages or
 - b. Deny liability for completing the work or paying the bond.

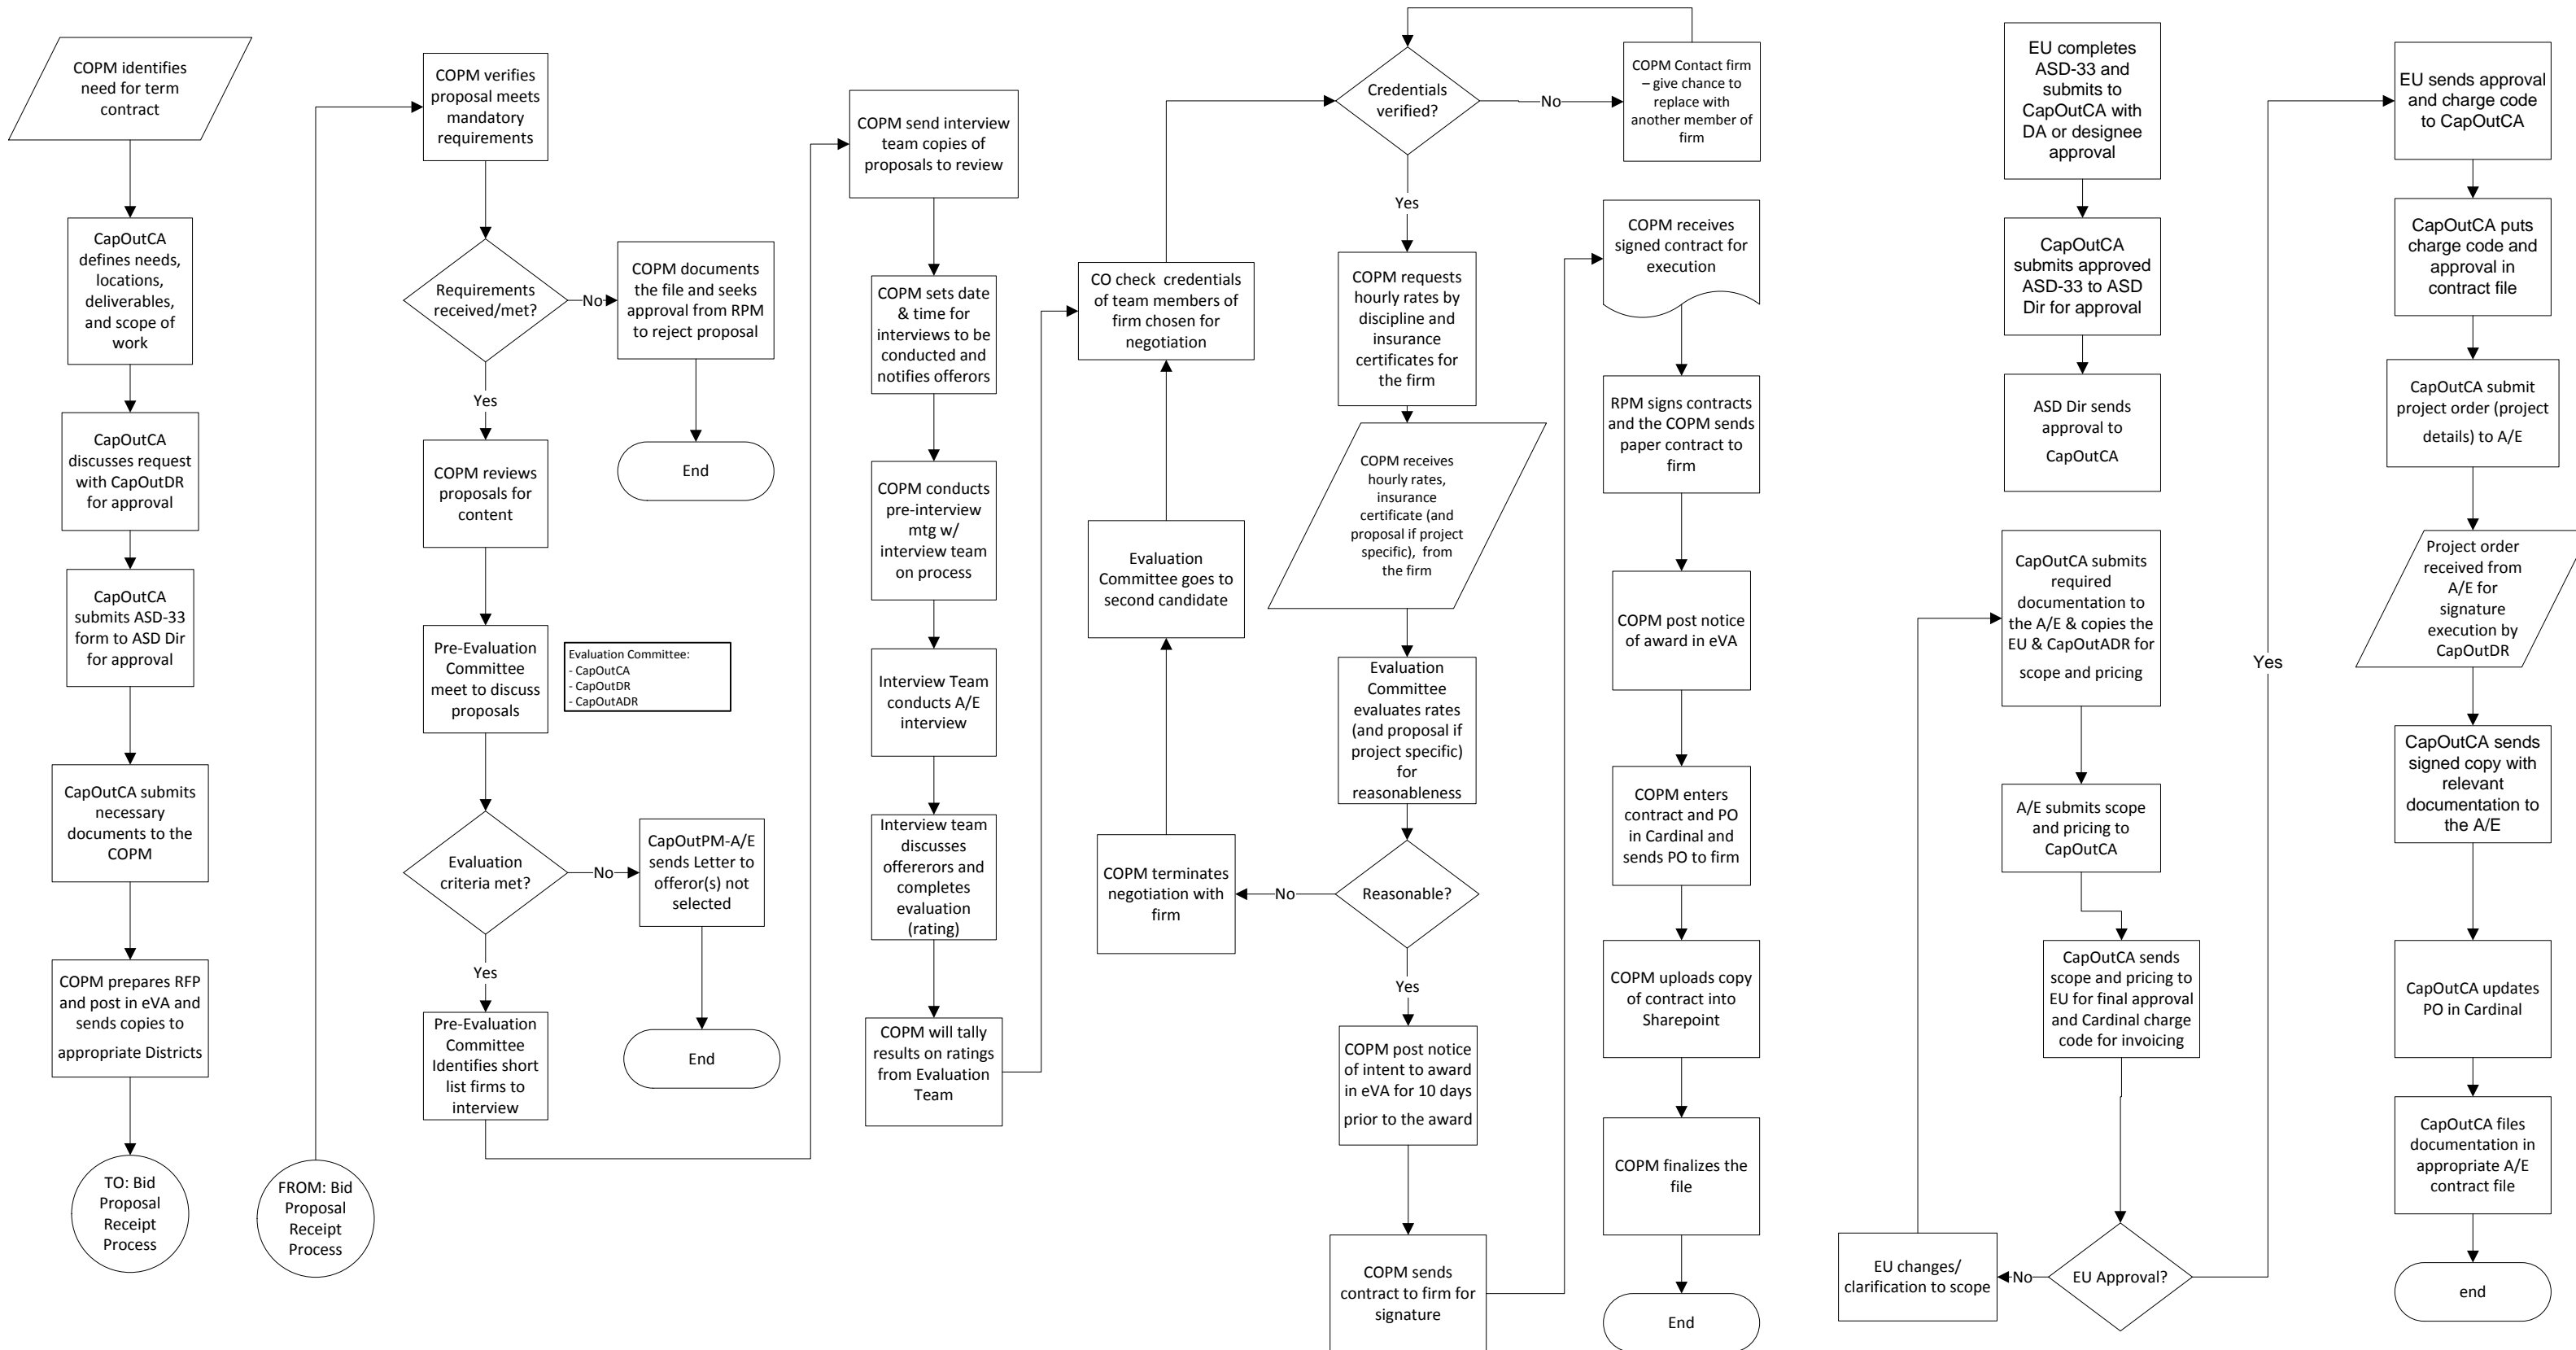

If the Bonding Agency fails to complete the work or denies liability, then VDOT's recourse includes terminating the contract and seeking damages.

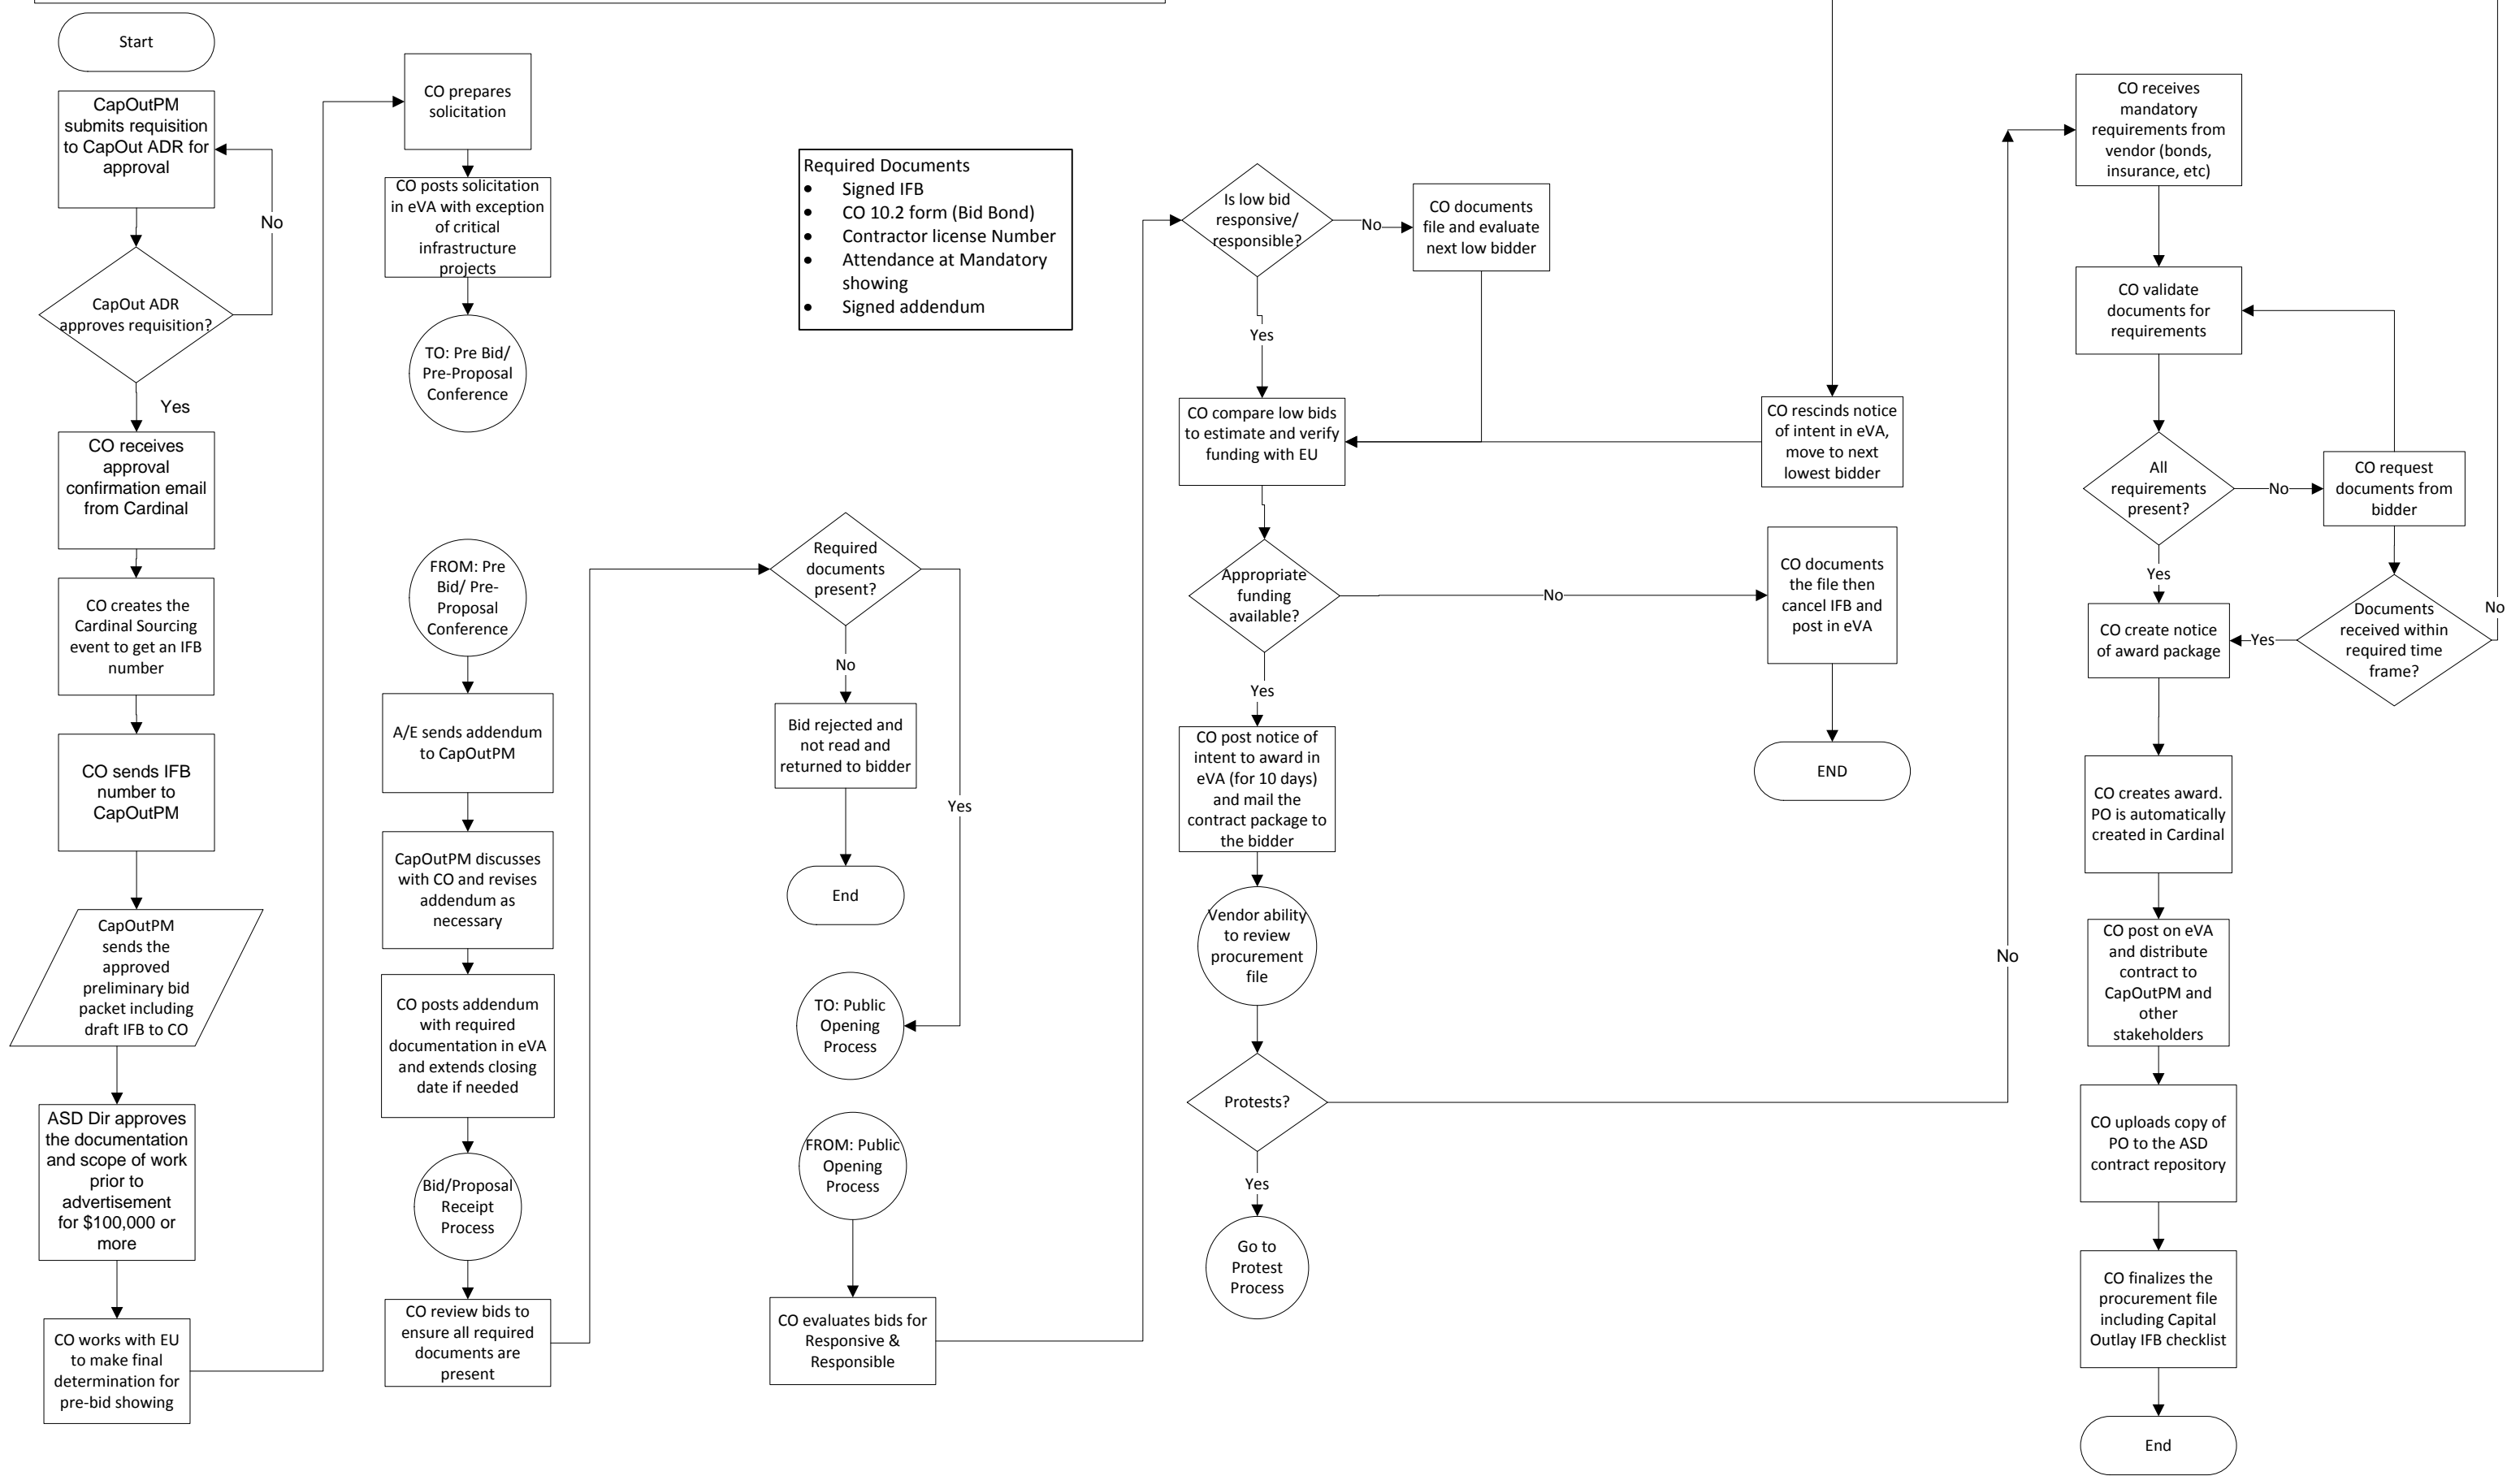

(d) Termination: If there is no performance bond and/or at VDOT's sole discretion, the contract may be terminated for cause or terminated for convenience, as may be applicable. If VDOT opts to terminate for cause, then the construction Contractor may be required to pay damages and/or re-procurement costs.

15.9 Debarment – VDOT may opt to submit an Initial Debarment Request to the Division of Engineering (DEB) Director. A debarment may be issued for both performance and non-performance related causes. In the event that VDOT notifies the Bonding Agency of the construction Contractor's default or if the contract is terminated for cause, the Contract Officer shall submit an Initial Debarment Request to the Division of Engineering (DEB) Director. If the construction Contractor is debarred, they will be prohibited from contracting with the Commonwealth for a period of 90 days up to three years.

DEB will take approximately 20 days to make the determination whether the construction Contractor should be debarred. The decision may be appealed which may take an additional 70 days or longer if the construction Contractor opts to institute Judicial Review.

The Contract Officer shall maintain the Initial Debarment Request and the DEB response in the Procurement File.

SECTION 16

ASD PROCUREMENT REVIEW AND TRAINING

16.1 General - ASD's Procurement Review and Training Section (PRT) will provide training and conduct reviews to ensure compliance with existing procurement laws and guidelines. Training and compliance reviews help ensure VDOT personnel:

- (a) have the information needed to complete procurement transactions in accordance with established regulations and procedures.
- (b) demonstrate understanding of and adherence to established regulations and procedures.
- (c) manage contracts effectively.

16.2 Training – PRT provides procurement related policy training statewide to VDOT employees. All available procurement training can be found in [VDOT University](#).

16.3 Compliance Reviews – Each District will be reviewed annually. Each Division in Central Office will be reviewed once every two years. In some cases reviews may be more frequent.

The PRT Analyst will notify the District or Division when a review is being scheduled for procurements processed by the district or division personnel and request that a single point of contact (SPOC) be identified to provide information. In the Districts, the Procurement Manager will be notified of the pending review while in the Central Office, the Division Administrator will be notified.

PRT personnel will meet with SPOC to review the process and answer any questions. Selected vouchers and associated procurement documents will be reviewed by PRT personnel. After review, a draft report will be prepared. PRT personnel will meet with district or division personnel to discuss preliminary findings in the draft report. Subsequent information may be provided by districts or divisions to clarify uncertainties.

After comments have been received and incorporated into the draft report, the report is reviewed by the Regional Procurement Manager as well as the ASD Director. Once approved, a final report of findings and recommendations will be provided to the District Administrator or Division Administrator, ASD Director, and the Assurance and Compliance Office. The District or Division Administrator must respond to the report and outline the steps that will be taken to resolve non-compliance issues.

16.4 Freedom of Information Act (FOIA) Requests – FOIA requests are processed in accordance with Virginia's Freedom of Information Act (§ [2.2-3700](#) et seq. of the *Code*

of Virginia). The PRT team coordinates information gathering and distribution in response to ASD FOIA requests. The PRT team will provide guidance to ensure that responses to requests for information are timely and appropriate.
