**I. CALL TO ORDER**

*James B. Alcorn  
SBE Chair*

**II. OLD BUSINESS**

**A. Certification of November 7, 2017 General Election**      *SBE Board Members*

**III. ADJOURNMENT**

★ VIRGINIA ★  
DEPARTMENT *of* ELECTIONS

---

**Memorandum**

To: Chairman Alcorn, Vice Chair Wheeler, and Secretary McAllister

From: Edgardo Cortes, Commissioner

Date: November 24, 2017

Re: Incorrectly assigned voters

---

**Background:**

The State Board of Elections (SBE) has requested assistance from the Department of Elections (ELECT or Department) in its efforts to understand the full scope of improperly assigned voters in the 28<sup>th</sup> and 88<sup>th</sup> House of Delegates districts and the potential impact on the conduct of the November 7, 2017 General Election. At the request of SBE, ELECT conducted an analysis of voters assigned to the 28<sup>th</sup> and 88<sup>th</sup> House of Delegates districts in an attempt to identify how many voters may be incorrectly assigned to districts by local general registrars.

As a reminder, the Department has no formal role or responsibility in the redistricting process or assignment of voters to districts. In addition to lacking statutory authority, ELECT has inadequate resources to ensure the accuracy of this process, including exceptionally limited GIS capabilities that were not obtained until 2016. Although the Department has no statutory role in this process, and no resources to devote to this task, the Department provides as much assistance as possible, upon request, to the local general registrars and elected officials. In general, this assistance is provided to general registrars in the form of technical assistance with VERIS.

The statewide voter registration list has not been geocoded to facilitate the use of GIS resources to accomplish the tasks requested. In order to conduct its review and provide analysis to SBE, Department staff utilized the address information contained in VERIS and submitted it through the address validation tools used by ELECT to obtain information necessary to determine address points from the Virginia Geographic Information Network (VGIN). ELECT staff utilized those address points and legislative district maps obtained from the Division of Legislative Services (DLS) to identify voters that appear to be incorrectly assigned to House of Delegates districts where they do not reside. After identifying the universe of potentially impacted voters, the Department utilized information about persons voting in the election submitted by localities to determine how many of the affected voters cast a ballot in the November 7, 2017 General Election.

Based upon the analysis conducted by ELECT staff in this limited time frame, the Department believes that at least 384 voters are improperly assigned and at least 147 voters voted in the incorrect House of Delegates election in the 2017 General Election. A summary is provided below and district-specific analyses have been provided as attachments.

★ VIRGINIA ★  
DEPARTMENT *of* ELECTIONS

---

**SUMMARY OF ESTIMATED IMPACT OF INCORRECT DISTRICT ASSIGNMENTS**

**Overall Impact:**

- Registered voters incorrectly voting in the 28<sup>th</sup> House of Delegates district: 125
- Registered voters incorrectly voting in the 88<sup>th</sup> House of Delegates district: 22
- Total number of incorrectly assigned registered voters: 384

**Details:**

**Voters associated to the 88<sup>th</sup> that should be in the 28<sup>th</sup>** (Refer to 88<sup>th</sup> HOD Analysis)

- Total number of street segments affected – 2
- Total number of voters affected – 110
- Total voter credit associated to an affected voter – 22

**Voters associated to the 28<sup>th</sup> that should be in the 88<sup>th</sup>** (Refer to 28<sup>nd</sup> HOD Analysis)

- Total number of street segments affected – 7
- Total number of voters affected – 207
- Total voter credit associated to an affected voter – 100

**Voters associated to the 28<sup>th</sup> that should be in the 2<sup>nd</sup>** (Refer to 2<sup>nd</sup> HOD Analysis)

- Total number of street segments affected – 3
- Total number of voters affected – 67
- Total voter credit associated to an affected voter – 25
