DISCUSSION

The Committee discussed accepting a certified copy of medical education from the Federation Credential Services in lieu of obtaining the information directly from the medical school. In this particular case, the Committee agreed to accept verification of education from the medical school through the Federal Bureau of Investigations (FBI).

Dr. Russ informed the Committee that it had come to his attention there were instances of cheating on the podiatric examinations during the past year. The Board staff assured the Committee they would look into the matter.
