- PUBLIC COMMENT:** No one appeared for public comments.
- NEW BUSINESS:** The committee reviewed the changes Chapters 1, 2, 3, 4, and 8 of the curriculum. Some corrections and adjustments were made to the curriculum after a 2nd review. It was determined that instruction related to the PT/INR machine would not be taught. DSS was not in support of this being a part of the RMA role as it would require more skilled care to provide.

A copy of Subcutaneous Injections Sites will be added to the curriculum. Staff will check on the use of documents from the Cleveland Clinic that Ms. Tiller found on line.

FUTURE MEETING DATE: It was determined that the next meeting will be April 16, 2013 from 9 am to noon. Chapters 5, 6, and 7 will be reviewed by the committee at that time. It is the intent of the committee to complete all revisions at that time and present the revised curriculum to the BON at the May Board meeting for approval.

ADJOURNMENT: The meeting was adjourned at 4:50 p.m.
