Dr. Sabatino failed to include information of the suspension on his application when he applied to be licensed as a School Psychologist-Limited in Virginia.

Ms. Brown reported that representatives of the Boards of Counseling, Psychology and Social Work have formed an ad-hoc committee to discuss "distance therapy". Their first meeting will be on May 2, 2008, at 10:00 a.m.

COMMITTEE REPORTS:

Regulatory Committee: Michael Stutts, Ph.D.

Dr. Stutts reported that proposed regulations for Certified Sex Offender Treatment Providers were discussed by the Regulatory Committee on February 29, 2008. The Committee approved the CSOTP amendments to allow previous supervised experience obtained for another mental health license to count towards supervised experience for the Sex Offender Treatment Provider certification, if the experience involved treating sex offenders. The Committee also approved proposed continuing education requirements for the CSOTP's.

The Board reviewed several comments in support of Dr. Michel Kohn's Petition for Rulemaking in which he proposed that the Board's regulations be amended to require at least twelve months of continuous physical presence for students in a degree-granting institution. A motion was made by Dr. Stutts and properly seconded to formally decline to initiate rulemaking but to refer his request to the Regulatory Committee for continued consideration. The motion carried.

Dr. Stutts reported that the Regulatory Committee discussed the issues relating to pre-doctoral practica experience versus post-doctoral supervision required for licensure and noted that members and staff were assigned research topics to report on at the Regulatory Meeting on May 21, 2008.

Credentials Committee: Jeffrey Clark, Ph.D.

Dr. Clark reported that an Informal Conference was held on March 25, 2008, at the request of applicant Brent Peterson. Dr. Clark moved that the Board accept the Informal Conference Committee's recommendation that Brent Peterson's application for licensure as an applied psychologist be denied. Dr. Hacker seconded the motion, which carried unanimously.
