CALL TO ORDER

Mr. Vincent called the Adhoc Committee meeting of the Virginia Board of Funeral Directors and Embalmers to order at 11:45 a.m.

DISCUSSION

The Board discussed looking into "Virtual Funeral Homes" and how it may affect Funeral Service Licensees.

After much discussion, the committee agreed that it was important to get the message out to Funeral Licensees' about the care they should take when dealing with out of state organizations.

Ms. Hahn suggested that the Adhoc Committee work on developing a Guidance Document to address that Funeral Service Licensees should ensure they are making arrangements with a

licensed out of state funeral service establishment and address the problems that may arise if they are dealing with an unlicensed organization and how the Virginia Funeral Service Licensee may be accountable if a situation should arise.

ADJOURNMENT:

With no further business before the Board, the meeting adjourned at 12:20 p.m.

BOARD BUSINESS

Virtual Funeral Homes

Ms. Hahn shared that the Virtual Funeral Homes Committee began their initial work yesterday and did not have anything to report at this time.

Next of Kin & Surface and Transportation

Ms. Hahn reiterated from her last meeting that this subject needs to be reviewed and addressed to broaden the regulations and that the committee plans to meet during the October meeting.

Randolph Lane Appeal

Ms. Hahn stated that the Circuit Court upheld the board's decision made during the formal hearing however; we have been notified that he is appealing the matter to the Court of Appeals.

Calendar

Ms. Hahn concluded her report by stating that the next board meeting was scheduled for October 22, 2013.

NEW BUSINESS

Legislative/Regulatory Reports – Elaine Yeatts

Status of Regulations

Ms. Yeatts reported on the status of the following Regulatory Actions:

18VAC65-20:

- Fee Increase – re-proposed remain at the Secretary’s Office.
- Identification of human remains – Emergency regulations are in effect from 10/1/12 to 9/30/13. Ms. Yeatts explained that the board needed to adopt a request to the Governor for an extension of 6 months.

Proposed Regulations on Identification of Human Remains (Attachment #1)

Upon a motion by Mr. Burger and properly seconded by Mr. Leonard, the board voted to request to extend the Emergency Regulations regarding Identification of Human Remains for a period of up to 6 months. The motion passed unanimously.

Funeral Service Licensee (FSL) vs. Funeral Service Provider (FSP)

Ms. Yeatts and Ms. Hahn followed up on Mr. Robinson’s public comment regarding Funeral Service Licensee (FSL) vs. Funeral Service Provider (FSP). They pointed out that Virginia Law defines a “Funeral Service Licensee” but does not define a “Funeral Service Provider”.

The Board requested that staff make changes to all printed references and materials from Funeral Service Provider (FSP) to Funeral Service Licensee (FSL). The Board also wanted the record to reflect that any materials already printed with FSP including licenses, renewals, funeral brochures and the like, would be acceptable to the board.

Change in Branch Establishment Regulations

Ms. Yeatts reminded the Board that the new law regarding the change in distance from 35 to 50 miles or less for a branch establishment went into effect on July 1, 2013.

Definition of Embalming

Ms. Hahn stated that she had received an email from Rick Sikon indicating that many funeral homes are not refrigerating bodies but sprinkling them with disinfection instead and saying that it fits the current definition of embalming. Ms. Hahn stated that a change in definition would have to be legislative. Mr. Nelsen appointed Chris Vincent and Bob Oman to research the issue and bring information to the next meeting.

Alternate Embalming/Training Sites – Lisa R. Hahn

Ms. Hahn shared that Mr. Leonard, Mr. Oman, Ms. Currier and she worked on developing a draft guidance document at the board's recommendation to establish standards to the proposed regulatory change in section B. of 18VAC65-40-220. Ms. Hahn further stated that this was just a working draft following the April 2013 board meeting and that no further action is necessary until the Governor approves the following proposed regulation:

18VAC65-40-220. Qualifications of training site.

A. The board shall approve only an establishment or two combined establishments to serve as the training site or sites which:

1. Have a full and unrestricted Virginia license;
2. Have complied in all respects with the provisions of the regulations of the Board of Funeral Directors and Embalmers; and
3. Have 50 or more funerals and 50 or more bodies for embalming over a 12-month period for each person to be trained. This total must be maintained throughout the period of training. If the establishment does not meet the required number of funerals or embalmings, the funeral service intern may seek approval for an additional training site.

B. The board may grant approval for a resident trainee to receive all or a portion of the embalming training at a facility of state or federal government or an accredited educational institution.

Probable Cause Review – Lisa R. Hahn, Executive Director

Ms. Hahn provided guidance in the process involved when reviewing cases for Probable Cause and the elements involved in making sound decisions. Key points Ms. Hahn discussed in her review included:

- Probable Cause Determination
- Who Conducts the Review
- Review of the Probable Cause Form & How to Complete it
- 5 Probable Cause Elements
- Making Recommendations

Ms. Hahn emphasized that in order for there to be a violation there must be a citation and how important it is to ensure that evidence exists in order to make the determination.

Election of Officers

Upon a motion by Mr. Leonard and properly seconded by Mr. Minter, the board nominated the election of Eric V. Wray, II as Board Secretary-Treasurer effective July 16, 2013. The motion carried unanimously.

Upon a motion by Mr. Oman and properly seconded by Mr. Wray, the board nominated the election of Christopher P. Vincent as Board Vice-President effective July 16, 2013. The motion carried unanimously.

Upon a motion by Mr. Leonard and properly seconded by Mr. Minter, the board nominated the election of Junius H. Williams, Jr. as Board President effective July 16, 2013. The motion carried unanimously.

Congratulations

Mr. Nelsen congratulated Mr. Williams on his new board position and handed over his board gavel and chair to him.

Mr. Leonard and Ms. Hahn thanked Mr. Nelsen for all his hard work as Board President.

ADJOURNMENT:

Mr. Williams closed the meeting by thanking the members for the great opportunity, how much he had learned and how ready he was to learn more.

With no further business before the Board, the meeting adjourned at 11:30 a.m.

ATTACHMENT #1

Proposed Regulations

BOARD OF FUNERAL DIRECTORS AND EMBALMERS

Identification of human remains

18VAC65-20-436. Standards for registered crematories or funeral establishments that operate a crematory.

A. Authorization to cremate.

1. In accordance with § 54.1-2818.1 of the Code of Virginia, a crematory shall require a cremation authorization form executed in person or electronically in a manner that provides a copy of an original signature of the next-of-kin or his representative, who may be any person designated to make arrangements for the decedent's burial or the disposition of his remains pursuant to § 54.1-2825 of the Code of Virginia; an agent named in an advance directive pursuant to § 54.1-2984; or a sheriff, upon court order, if no next-of-kin, designated person, or agent is available.

2. The cremation authorization form shall include an attestation of visual identification of the deceased from a viewing of the remains or a photograph signed by the person making the identification. Visual identification may be made by viewing unique identifiers or markings on the remains. The identification attestation shall either be given on the cremation authorization form or on an identification form attached to the cremation authorization form.

3. In the event visual identification is not feasible, a crematory may use other positive identification of the deceased in consultation with law enforcement, a medical examiner or medical personnel as a prerequisite for cremation pursuant to § 54.1-2818.1 of the Code of Virginia.

B. Standards for cremation. The following standards shall be required for every crematory:

1. Every crematory shall provide evidence at the time of an inspection of a permit to operate issued by the Department of Environmental Quality (DEQ).

2. A crematory shall not knowingly cremate a body with a pacemaker, defibrillator or other potentially hazardous implant in place.

3. A crematory shall not cremate the human remains of more than one person simultaneously in the same retort, unless the crematory has received specific written authorization to do so from the person signing the cremation authorization form.

4. A crematory shall not cremate nonhuman remains in a retort permitted by DEQ for cremation of human remains.

5. Whenever a crematory is unable to cremate the remains within 24 hours upon taking custody thereof, the crematory shall maintain the remains in refrigeration at approximately 40° Fahrenheit or less, unless the remains have been embalmed.

C. Handling of human remains.

1. Human remains shall be transported to a crematory in a cremation container and shall not be removed from the container unless the crematory has been provided with written instructions to the contrary by the person who signed the authorization form. A cremation container shall substantially meet all the following standards:

- a. Be composed of readily combustible materials suitable for cremation;
- b. Be able to be closed in order to provide complete covering for the human remains;
- c. Be resistant to leakage or spillage; and
- d. Be rigid enough for handling with ease.

2. No crematory shall require that human remains be placed in a casket before cremation nor shall it require that the cremains be placed in a cremation urn, cremation vault or receptacle designed to permanently encase the cremains after cremation. Cremated remains shall be placed in a plastic bag inside a rigid container provided by the crematory or by the next-of-kin for return to the funeral establishment or to the next-of-kin. If cremated remains are placed in a biodegradable container, a biodegradable bag shall be used. If placed in a container designed for scattering, the cremated remains may be placed directly into the container if the next-of-kin so authorized in writing.

3. The identification of the decedent shall be physically attached to the remains and appropriate identification placed on the exterior of the cremation container. The crematory operator shall verify the identification on the remains with the identification attached to the cremation container and with the identification attached to the cremation authorization. The crematory operator shall also verify the identification of the cremains and place evidence of such verification in the cremation record.

D. Recordkeeping. A crematory shall maintain the records of cremation for a period of three years from the date of the cremation that indicate the name of the decedent, the date and time of the receipt of the body, and the date and time of the cremation and shall include:

1. The cremation authorization form signed by the person authorized by law to dispose of the remains and the form on which the next-of-kin or the person authorized by § 54.1-2818.1 of the Code of Virginia to make the identification has made a visual identification of the deceased or evidence of positive identification if visual identification is not feasible;
2. The permission form from the medical examiner;
3. The DEQ permit number of the retort used for the cremation and the name of the retort operator; and
4. The form verifying the release of the cremains, including date and time of release, the name of the person and the entity to whom the cremains were released and the name of the decedent.

Patient Care Disciplinary Case Processing Times:

Quarterly Performance Measurement, Q4 2009 - Q4 2013

Dianne Reynolds-Cane, M.D.
Director

"To ensure safe and competent patient care by licensing health professionals, enforcing standards of practice, and providing information to health care practitioners and the public."
DHP Mission Statement

In order to uphold its mission relating to discipline, DHP continually assesses and reports on performance. Extensive trend information is provided on the DHP website, in biennial reports, and, most recently, on Virginia Performs through Key Performance Measures (KPMs). KPMs offer a concise, balanced, and data-based way to measure disciplinary case processing. These three measures, taken together, enable staff to identify and focus on areas of greatest importance in managing the disciplinary caseload; Clearance Rate, Age of Pending Caseload and Time to Disposition uphold the objectives of the DHP mission statement. The following pages show the KPMs by board, listed in order by caseload volume; volume is defined as the number of cases received during the previous 4 quarters. In addition, readers should be aware that vertical scales on the line charts change, both across boards and measures, in order to accommodate varying degrees of data fluctuation.

Clearance Rate - the number of closed cases as a percentage of the number of received cases. A 100% clearance rate means that the agency is closing the same number of cases as it receives each quarter. DHP's goal is to maintain a 100% clearance rate of allegations of misconduct through the end of FY 2012. The current quarter's clearance rate is 98%, with 979 patient care cases received and 959 closed.

Age of Pending Caseload - the percent of open patient care cases over 250 business days old. This measure tracks the backlog of patient care cases older than 250 business days to aid management in providing specific closure targets. The goal is to maintain the percentage of open patient care cases older than 250 business days at no more than 25% through the end of FY 2012. That goal continues to be achieved with the percent of cases pending over 250 business days maintaining an average of 16% for the past 4 quarters. For the last quarter shown, there were 2,090 patient care cases pending, with 332 pending over 250 business days.

Time to Disposition - the percent of patient care cases closed within 250 business days for cases received within the preceding eight quarters. This moving eight-quarter window approach captures the vast majority of cases closed in a given quarter and effectively removes any undue influence of the oldest cases on the measure. The goal is to resolve 90% of patient care cases within 250 business days through the end of FY 2012. That goal continues to be achieved with 92% percent of patient care cases being resolved within 250 business days this past quarter. During the last quarter, there were 941 patient care cases closed, with 866 closed within 250 business days.

Subject: Definition

Definition of Embalming – We need to amend the definition because our current definition could be interpreted to mean that someone is embalmed if they are sprinkled with disinfection externally on a body.

I just got off the phone with Rick Sikon and he says we have lots of funeral homes not refrigerating bodies but sprinkling them with disinfection instead and saying that it fits the current definition of embalming.

Current Definition:

§ 54.1-2800. Definitions.

"Embalming" means the preservation and disinfection of the human dead by external or internal application of chemicals.

Proposed Definition:

Embalming is the process of chemically treating the dead human body by arterial injection and cavity treatment or when necessary hypodermic tissue injection to reduce the presence and growth of microorganisms as to temporarily retard organic decomposition as per accepted standards by the American Board of Funeral Service Education.

Title: NFDA Certified Crematory Operator Program™

Objective

The objective of the NFDA CCO program is to provide employees of a funeral home that operates its own crematory, a funeral home that uses the services of a third party crematory or the employees of a stand-alone crematory establishment with current information and guidelines meeting basic state training requirements for cremator operators and for the ethical, safe, correct, and proper operation of a crematory establishment. Much of the content reflects the funeral service point of view regarding service to cremation families with the objective of ensuring that everyone involved in the continuum of care for a family that has chosen cremation for a loved one understands his or her obligation to offer extraordinary service at every step in the process, from first call to delivering the cremated remains into the hands of the family. In states that do not require operator certification, the program provides an overview of best practices and compliance requirements for the safe, correct, and proper operation of a cremator and of a crematory establishment.

03. Instructional Plan (1 page)

Instructional Goals

Nicodemus and Watkins share instructional tasks, based on specific areas of expertise. Mutual instructional goal is to help course attendees know and understand factual knowledge and skills required to ethically, correctly, and properly operate a crematory establishment and cremator equipment, based on the information presented in the *NFDA CCO Standard Manual*, which is the basis of the summative test assessment.

Instructional Materials

NFDA CCO Standards Manual

PowerPoint presentation linked to content sections of manual

Learning Experiences

Question and answer sessions

Break-out sessions using prompts to encourage understanding, interaction, and application of content. Small groups required to report out to class.

Meaningful case studies introduced by instructors to demonstrate application of knowledge.

Students encouraged to share insights, examples, etc.

Test Procedures

Required to pass NFDA Certified Crematory Operator test; minimum score that must be attained is 70%.

When the course ends, each participant who has attended the full number of required seminar hours is given a written take-home test, consisting of 50 questions. The completed test must be returned to NFDA no later than within 10 business days by either mail or fax, or the completed and signed test may be scanned and emailed to NFDA by the candidate. *Candidates must retain a copy of the submitted test.* They will be notified whether they have passed or failed; individual scores are not released.

Procedure to Verify Course Attendance

Students receive an attendance form at the beginning of the course to verify attendance times by written signature. All attendance forms are collected by an NFDA instructor; forms are maintained at NFDA to meet applicable operator certification and continuing education requirements. *The Academy of Professional Funeral Service Practice (APFSP) has approved this course for 7 CE hours; many state funeral licensing boards have approved up to 7 CE hours for licensed funeral directors and/or embalmers for course completion.*

----	-----	----------

Michael Watkins is a licensed funeral director and embalmer who has been involved in various capacities in funeral service for more than 25 years. Prior to joining NFDA in 2009, he served as executive vice president of Palm Mortuary, Las Vegas, as executive director of Maximum Living Consultants, and as vice president of operations for Carriage Services. Of Palm's 7,000 annual client families, 54% selected cremation. Mike helped provide oversight in all facets of the operation, including training and development of Palm's 265 employees. He worked closely with prep room and crematory operations management to ensure all processes were properly documented and that staff received the necessary training to remain in compliance and minimize liability. As part of his NFDA responsibilities Mike speaks to national and state funeral director associations on a wide variety of topics, including cremation. In recent years he has presented programs to help funeral professionals better serve the needs of families selecting cremation in IL, IN, KS, PA, MI, NY, ND, UT and WV.

Certified Crematory Operator Program™

- The NFDA Certified Crematory Operator (CCO) course is approved by the Academy of Professional Funeral Service Practice (APFSP) for 7 CE hours and by most state licensing boards for up to 7 CE hours.
- The basic state training requirements are met for cremator operators. It is the obligation of individual certification candidates to ensure they are in compliance with all state training requirements. If required by state laws and regulations, NFDA provides supplementary state-specific material. CCO course instructors: Michael Nicodemus, NFDA VP, Cremation Services, Michael Watkins, CFSP, NFDA Senior VP, Operations. *Crematory operator training is required in 23 states.*
- It is the obligation of the individual to obtain, reference, and follow the complete instructions published and provided by the manufacturer of the cremation equipment that is operated.
- NFDA verifies course attendance for CE purposes. CCO certification requires passing a 50-question take-home test (passing score is 70%). All tests are graded by NFDA; pass/fail results are reported to candidates.
- **For information about hosting an NFDA Certified Crematory Operator Program™, call 800-228-6332.**
