Virtual Funeral Homes – Chris Vincent

Mr. Vincent reported that the committee met prior to the board meeting and will plan on meeting again sometime in March to continue working on Virtual Funeral Homes. He stated that the committee agreed that the board should be proactive in developing definitions and regulations to keep ahead of the age of the internet.

Cremation Certificate Meeting Update – Chris Vincent

Mr. Vincent briefed the board on a meeting he attended with Lisa Hahn, Lynne Helmick, Dr. Gormley, Chief Medical Examiner, and Rick Sikon, Director of the Virginia State Anatomical Program regarding the following cremation certificate policies:

1. Cadavers need appropriate cremation authorization.
 - a. If the cadaver is a Virginia Donor, they will have cremation authorization from the State Anatomic Program.
 - b. If the person died in Virginia and has donated their body to an out-of-state anatomic material vendor, they need Virginia cremation authorization.
 - c. If the cadaver comes from out of state the cremation procedures for the state in which they died must be followed.
 - i. Importation of cadavers must be authorized by the Commissioner and that authorization includes attestation that appropriate cremation procedures for the state of origin are followed.
 - ii. Some out-of-state vendors retrieve cadavers after use for cremation in their own state.
 - iii. Those vendors that request cremation by the user in Virginia must provide appropriate documentation that cremation has been properly authorized in the state of origin.
2. Detached body parts may be cremated without further authorization.
 - a. Surgical specimens do not require authorization for cremation.
 - b. Detached body parts used for education or scientific study do not require additional authorization for cremation..
 - i. If the parts are from Virginia donors, cremation of the cadaver has already been authorized.
 - ii. If the parts are from out-of-state vendors and the Commissioner has authorized importation, no additional authorization is required since the vendor has attested that proper cremation procedures are followed for the state or origin.

Ms. Hahn added that the meeting was very productive and suggested that Rick Sikon attend a future board meeting to explain the certificate policy with the board.

Certified Copy of Death Certificate for Cremation Certificate – Blair Nelsen

Mr. Nelsen reported that Dr. Gormley recognizes the difficulty funeral directors face trying to comply with death certificates being signed within 72 hours. Dr. Gormley indicated that they do not need to have a filed or certified copy for the cremation certificate. The medical examiner will need only an unofficial copy of the death certificate provided for the cremation certification. The pertinent data elements are the name, date of death, and cause of death. This information is used by the District Offices for supervisory review of the cremation certificates.

The cremation documentation is a different issue from filing the death certificate with the health department.

Letter to Dr. Reynolds-Cane from Senator Alexander – Lisa R. Hahn

Ms. Hahn shared letters between Senator Kenneth Alexander and Dr. Reynolds-Cane.

Senator Kenneth Alexander requested that the Board of Funeral Directors and Embalmers complete a comprehensive study on creating a “limited funeral director only” license that would allow a licensee to provide funeral directing services without engaging in embalming. Dr. Reynolds-Cane response was that she would submit the request for the study to be conducted by the Board of Health Professions.

Randolph Lane Update – Erin Barrett, Assistant Attorney General, Board Counsel

Ms. Barrett reported that Mr. Lane appealed his case to the Middlesex Circuit Court in December. Mr. Lane was under a time clock to file his opening brief and that it appeared that he may have missed his deadline for filing. Ms. Barrett concluded that the appeal may go away on procedural issues.

Meeting Cancellation

Ms. Hahn thanked everyone for attending the meeting and stated that the Legislative/Regulatory meeting scheduled for 2:30 had been cancelled due to a scheduling conflict.

ADJOURNMENT:

With no further business before the Board, the meeting adjourned at 11:08 a.m.

Patient Care Disciplinary Case Processing Times:

Quarterly Performance Measurement, Q2 2010 - Q2 2014

Dianne Reynolds-Cane, M.D.
Director

"To ensure safe and competent patient care by licensing health professionals, enforcing standards of practice, and providing information to health care practitioners and the public."
DHP Mission Statement

In order to uphold its mission relating to discipline, DHP continually assesses and reports on performance. Extensive trend information is provided on the DHP website, in biennial reports, and, most recently, on Virginia Performs through Key Performance Measures (KPMs). KPMs offer a concise, balanced, and data-based way to measure disciplinary case processing. These three measures, taken together, enable staff to identify and focus on areas of greatest importance in managing the disciplinary caseload: Clearance Rate, Age of Pending Caseload and Time to Disposition uphold the objectives of the DHP mission statement. The following pages show the KPMs by board, listed in order by caseload volume; volume is defined as the number of cases received during the previous 4 quarters. In addition, readers should be aware that vertical scales on the line charts change, both across boards and measures, in order to accommodate varying degrees of data fluctuation.

Clearance Rate - the number of closed cases as a percentage of the number of received cases. A 100% clearance rate means that the agency is closing the same number of cases as it receives each quarter. DHP's goal is to maintain a 100% clearance rate of allegations of misconduct through the end of FY 2016. The current quarter's clearance rate is 100%, with 863 patient care cases received and 863 closed.

Age of Pending Caseload - the percent of open patient care cases over 250 business days old. This measure tracks the backlog of patient care cases older than 250 business days to aid management in providing specific closure targets. The goal is to maintain the percentage of open patient care cases older than 250 business days at no more than 20% through the end of FY 2016. That goal continues to be achieved with the percent of cases pending over 250 business days maintaining an average of 16% for the past 4 quarters. For the last quarter shown, there were 2,062 patient care cases pending, with 320 pending over 250 business days.

Time to Disposition - the percent of patient care cases closed within 250 business days for cases received within the preceding eight quarters. This moving eight-quarter window approach captures the vast majority of cases closed in a given quarter and effectively removes any undue influence of the oldest cases on the measure. The goal is to resolve 90% of patient care cases within 250 business days through the end of FY 2016. That goal continues to be achieved with 92% percent of patient care cases being resolved within 250 business days this past quarter. During the last quarter, there were 855 patient care cases closed, with 785 closed within 250 business days.

CHAPTER 8.1.

DISPOSITION OF DEAD HUMAN BODIES.

§ 32.1-309.1. Identification of decedent, next of kin; disposition of claimed dead body.

A. *As used in this chapter, "next of kin" has the same meaning assigned to it in § 54.1-2800. In the absence of a next of kin, a person designated to make arrangements for the decedent's burial or the disposition of his remains pursuant to § 54.1-2825, an agent named in an advance directive pursuant to § 54.1-2984, or any guardian appointed pursuant to Chapter 20 (§ 64.2-2000 et seq.) of Title 64.2 who may exercise the powers conferred in the order of appointment or by § 64.2-2019, or upon the failure or refusal of such next of kin, designated person, agent, or guardian to accept responsibility for the disposition of the decedent, then any other person 18 years of age or older who is able to provide positive identification of the deceased and is willing to pay for the costs associated with the disposition of the decedent's remains shall be authorized to make arrangements for such disposition of the decedent's remains. If a funeral service establishment or funeral service licensee makes arrangements with a person other than a next of kin, designated person, agent, or guardian in accordance with this section, then the funeral service licensee or funeral service establishment shall be immune from civil liability unless such act, decision, or omission resulted from bad faith or malicious intent.*

B. *Upon the death of any person, irrespective of the cause and manner of death, and irrespective of whether a medical examiner's investigation is required pursuant to § 32.1-283 or 32.1-285.1, the person or institution having initial custody of the dead body shall make good faith efforts to determine the identity of the decedent, if unknown, and to identify and notify the next of kin of the decedent regarding the decedent's death. If, upon notification of the death of the decedent, the next of kin of the decedent is*

willing and able to claim the body, the body may be claimed by the next of kin for disposition, and the claimant shall bear the expenses of such disposition. If the next of kin of the decedent fails or refuses to claim the body within 10 days of receiving notice of the death of the decedent, the body shall be disposed of in accordance with § 32.1-309.2.

C. If the person or institution having initial custody of the dead body is unable to determine the identity of the decedent or to identify and notify the next of kin of the decedent regarding the decedent's death, the person or institution shall contact the primary law-enforcement agency for the locality, which shall make good faith efforts to determine the identity of the decedent and to identify and notify the next of kin of the decedent.

If the identity of the decedent is known to the primary law-enforcement agency or the primary law-enforcement agency is able to identify the decedent, the primary law-enforcement agency is able to identify and notify the next of kin of the decedent, and the next of kin of the decedent is willing and able to claim the body, the body may be claimed by the next of kin for disposition, and the claimant shall bear the expenses of such disposition.

If the identity of the decedent is known or the primary law-enforcement agency is able to determine the identity of the decedent but the primary law-enforcement agency is unable, despite good faith efforts, to identify and notify the decedent's next of kin within 10 days of the date of contact by the person or institution having initial custody of the dead body, or the primary law-enforcement agency is able to identify and notify the decedent's next of kin but the next of kin fails or refuses to claim the body within 10 days, the primary law-enforcement agency shall notify the person or institution having initial custody of the dead body, and the body shall be disposed of in accordance with § 32.1-309.2.

D. In cases in which a dead body is claimed by the decedent's next of kin but the next of kin is unable to pay the reasonable costs of disposition of the body and the costs are paid by the county or city in which the decedent resided or in which the death occurred in accordance with this section, and the decedent has an estate out of which burial expenses may be paid, in whole or in part, such assets shall be seized for such purpose.

E. No dead body that is the subject of an investigation pursuant to § 32.1-283 or autopsy pursuant to § 32.1-285 shall be transferred for purposes of disposition until such investigation or autopsy has been completed.

F. Any sheriff or primary law-enforcement officer, county, city, health care provider, funeral service establishment, funeral service licensee, or other person or institution that acts in accordance with the requirements of this chapter shall be immune from civil liability for any act, decision, or omission resulting from acceptance and disposition of the dead body in accordance with this section, unless such act, decision, or omission resulted from bad faith or malicious intent.

G. Nothing in this section shall prevent a law-enforcement agency other than the primary law-enforcement agency from performing the duties established by this section if so requested by the primary law-enforcement agency and agreed to by the other law-enforcement agency.

§ 32.1-309.2. Disposition of unclaimed dead body; how expenses paid.

Upon entry of a final order for disposition of the dead body, the person or institution having initial custody of the body shall transfer custody of the body to a funeral service establishment, which shall take possession of the dead body for disposition in accordance with the provisions of such order. Except as provided in subsection B or C, the reasonable expenses of disposition of the body shall be borne (a) by the county or city in which the decedent resided at the time of death if the decedent was a resident of Virginia or (b) by the county or city where death occurred if the decedent was not a resident of Virginia or the location of the decedent's residence cannot reasonably be determined. However, no such expenses shall be paid by such county or city until allowed by an appropriate court in such county or city.

B. In the case of a person who has been received into the state corrections system and died prior to his release, whose body is unclaimed, the Department of Corrections shall accept the body for proper disposition and shall bear the reasonable expenses for cremation or other disposition of the body. In the case of a person who has been received into the state corrections system and died prior to his release and whose claimant is financially unable to pay reasonable expenses of disposition, the expenses shall be borne by the county or city where the claimant resides.

C. In the case of a person who has been committed to the custody of the Department of Behavioral Health and Developmental Services and died prior to his release, whose body is unclaimed, the Department of Behavioral Health and Developmental Services shall bear the reasonable expenses for

cremation or other disposition of the body. In the case of a person who has been committed to the custody of the Department of Behavioral Health and Developmental Services and died prior to his release and whose claimant is financially unable to pay reasonable expenses of disposition, the expenses shall be borne by the county or city where the claimant resides.

D. Any person or institution having initial custody of a dead body may enter into an agreement with a local funeral service establishment whereby the funeral service establishment shall take possession of the dead body for the purpose of storing the dead body during such time as the person or institution having initial custody of the body or the primary local law-enforcement agency is engaged in identifying the decedent, attempting to identify and contact the next of kin of the decedent, and making arrangements for the final disposition of the body in accordance with this section, provided that at all times during which the funeral service establishment is providing storage of the body, the person or institution having initial custody of the dead body shall continue to have legal custody of the body until such time as custody is transferred in accordance with this chapter.

E. In cases in which a decedent whose remains are disposed of in accordance with this section has an estate out of which burial expenses may be paid, in whole or in part, such assets shall be seized for such purpose.

F. No dead body that is the subject of an investigation pursuant to § 32.1-283 or autopsy pursuant to § 32.1-285 shall be transferred for purposes of disposition until such investigation or autopsy has been completed.

G. Any sheriff or primary law-enforcement officer, county, city, health care provider, funeral service establishment, or funeral service licensee; the Department of Corrections; or any other person or institution that acts in accordance with the requirements of this chapter shall be immune from civil liability for any act, decision, or omission resulting from acceptance and disposition of the dead body in accordance with this section, unless such act, decision, or omission resulted from bad faith or malicious intent.

H. Nothing in this section shall prevent a law-enforcement agency other than the primary law-enforcement agency from performing the duties established by this section if so requested by the primary law-enforcement agency and agreed to by the other law-enforcement agency.

§ 32.1-309.3. Cremations and burials at sea.
