## **NEW BUSINESS**

### **1. Supervisory Responsibilities 18VAC85-140-120**

Ms. Akers asked for clarification of the supervisor responsibilities for unlicensed personnel. Mr. Heaberlin noted that the Board approved an initial grace period to December 31, 2015, for those who were practicing as a Polysomnographic Technologist to get licensed without being disciplined for unlicensed practice. Furthermore, he noted that if a practitioner holds a Registered Polysomnographic Technologist (RPSGT) credential and is working without a license it may be considered unlicensed practice and Board discipline would be a possibility upon licensure. Mr. Heaberlin suggested the people should apply for their license with the Board at the same time as they apply to take the RPSGT certification exam.

### **2. Role of the Advisory Board Member**

Ms. Akers inquired about the role of the advisory board member. She explained that she receives calls from the applicants wanting assistance with applications. She stated that she refers applicants to the Board for assistance. The advisory board further discussed its role in advising the full Board of Medicine and staff with professional and regulatory issues, assisting with licensure questions from the staff, completing probable cause reviews for disciplinary action and participating in informal conferences and formal hearings.

### **3. Discussion Regarding Complaints Filed Against Polysomnographic Technologist**

Mr. Heaberlin noted the Board had disciplined 10 polysomnographic technologists for unlicensed practice, and there have been no standard of care cases brought before the Board.

### **4. Promulgation of Regulations to Accept Volunteer Service for Fulfillment Of Continuing Education Requirements**

The members reviewed the statute and the draft regulation which allows for up to 2 hours of continuing education to be satisfied through delivery of services, without compensation, to low-income individuals receiving health services through a local health department or a free clinic organized in whole or primarily for the delivery of those services. One hour of continuing education may be credited for three hours of providing such volunteer services, as documented by the health department or free clinic. Mr. Clark motioned to approve regulation as written. The motion was second and carried unanimously.

### **5. Election of Officers**

Meeting Minutes Excerpt from October 19, 2016 Credentials Committee Meeting

**1. Employment Verifications for Applicants Practicing Telemedicine.**

Mr. Heaberlin reviewed the process required by the Board's applicants for licensure to provide employment verifications for all locations of service for the last five years. He explained that the Board approved accepting employment verifications from the medical directors of the companies that employ physicians that practice teleradiology and telepathology, chiefly due to the number of locations of service and the fact that those at the locations are not familiar with the physicians providing services. The Committee discussed whether it wanted to expand this practice to other areas of telemedicine or to those physicians who work locum tenens. The Committee decided to maintain the status quo.
