Summary

Please provide a brief summary of the new regulation, amendments to an existing regulation, or the regulation being repealed. There is no need to state each provision or amendment or restate the purpose and intent of the regulation.

Two variances are proposed to be granted to the Atlantic Research Corporation for rocket motor test operations. One variance is for the facility in Orange County, Virginia, from the opacity standard for new sources specified in 9 VAC 5-50-80. The other variance is for the facility in Gainesville (Prince William County), Virginia, from the opacity standard for existing sources specified in 9 VAC 5-40-80. The variances are proposed to be granted in consideration of the two facilities' effective limitation of the emissions of particulate matter from rocket motor test operations to 714 pounds per hour in lieu of the opacity limitations.

The variances are to be effective on December 1, 2002.

The variances are exempt from certain provisions of the state administrative procedures for the adoption of regulations. These exemptions are specified in §§ 2.2-4007 M, 2.2-4013, 2.2-4014 D, and 2.2-4015 C of the Code of Virginia.

Please provide an analysis of the impact of the regulatory action on the institution of the family and family stability including to what extent the regulatory action will: 1) strengthen or erode the authority and rights of parents in the education, nurturing, and supervision of their children; 2) encourage or discourage economic self-sufficiency, self-pride, and the assumption of responsibility for oneself, one's spouse, and one's children and/or elderly parents; 3) strengthen or erode the marital commitment; 4) increase or decrease disposable family income.

It is not anticipated that these variances will have a direct impact on families.
