Emergency Regulation Agency Background Document

Agency Name:	Virginia Waste Management Board
VAC Chapter Number:	9 VAC 20-90-10 et seq.
Regulation Title:	Solid Waste Management Facility Permit Application Fees
Action Title:	Amendment 1
Date:	April 22, 2002

Section 9-6.14:4.1(C)(5) of the Administrative Process Act allows for the adoption of emergency regulations. Please refer to the APA, Executive Order Twenty-Four (98), and the *Virginia Register Form, Style and Procedure Manual* for more information and other materials required to be submitted in the emergency regulation submission package.

Emergency Preamble

Please provide a statement that the emergency regulation is necessary and provide detail of the nature of the emergency. Section 9-6.14:4.1(C)(5) of the Administrative Process Act states that an "emergency situation" means: (i) a situation involving an imminent threat to public health or safety; or (ii) a situation in which Virginia statutory law, the Virginia appropriation act, or federal law requires that a regulation shall be effective in 280 days or less from its enactment, or in which federal regulation requires a regulation to take effect no later than 280 days from its effective date. The statement should also identify that the regulation is not otherwise exempt under the provisions of § 9-6.14:4.1(C)(4).

Please include a brief summary of the emergency action. There is no need to state each provision or amendment.

The 2002 Acts of Assembly chapter 14 requires the Waste Management Board to promulgate regulations establishing a fee schedule consistent with the amendments to §10.1-1402.1 within 280 days of the enactment of the statute. The provisions of §10.1-1402.1 of the Code require the Board to promulgate regulations establishing a fee schedule sufficient to cover no more than twenty percent of the direct cost of the hazardous and solid waste management programs based on the allocations made to these programs in the 2002 Appropriation Act. The individual permit fees may not increase more than 300 percent.

Basis

Please identify the state and/or federal source of legal authority to promulgate the emergency regulation. The discussion of this emergency statutory authority should: 1) describe its scope; and 2) include a brief statement relating the content of the statutory authority to the specific regulation. Full citations of legal authority and web site addresses, if available for locating the text of the cited authority, should be provided.

Please provide a statement that the Office of the Attorney General has certified that the agency has the statutory authority to promulgate the emergency regulation and that it comports with applicable state and/or federal law.

Section 10.1-1402(11) of the Code of Virginia provides the Waste Management Board the authority to promulgate regulations to carry out its powers and duties.

Section 10.1-1402(16) of the Code of Virginia provides the Waste Management Board the authority to collect permit application fees for nonhazardous facilities sufficient only to defray the costs of issuing permits.

Section 10.1-1402.1 of the Virginia Waste Management Act Authorizes the Virginia Waste Management Board to promulgate regulations which establish a permit fee assessment and collection system.

The Office of the Attorney General has certified that the Waste Management Board has the statutory authority to promulgate this emergency regulation and that it comports with applicable state and/or federal law

Substance

Please detail any changes, other than strictly editorial changes, that would be implemented. Please outline new substantive provisions, all substantive changes to existing sections, or both where appropriate. Please provide a cross-walk which includes citations to the specific sections of an existing regulation being amended and explain the consequences of the proposed changes. The statement should set forth the specific reasons the agency has determined that the proposed regulatory action would be essential to protect the health, safety or welfare of Virginians. The statement should also delineate any potential issues that may need to be addressed as a permanent final regulation is developed.

Under this emergency regulation, each permit fee listed in the fee tables in Appendix 3.1 of the Solid Waste Management Facilities Permit Application Fees regulations, will be multiplied by three in order to establish the new permit fee. The regulatory action will assure that adequate funds are available to allow the continuation of permitting activities ensuring the protection of human health and the environment. The final regulation will address the appropriate role of the regulation in funding the solid waste program.

Alternatives

Please describe the specific alternatives that were considered and the rationale used by the agency to select the least burdensome or intrusive method to meet the essential purpose of the action.

Because a number of alternatives were considered during the development of the act, the emergency regulation will address only the increase of the permit fees.

Family Impact Statement

Please provide a preliminary analysis of the potential impact of the emergency action on the institution of the family and family stability including to what extent the action will: 1) strengthen or erode the authority and rights of parents in the education, nurturing, and supervision of their children; 2) encourage or discourage economic self-sufficiency, self-pride, and the assumption of responsibility for oneself, one's spouse, and one's children and/or elderly parents; 3) strengthen or erode the marital commitment; and 4) increase or decrease disposable family income.

There is no direct impact on the institution of the family and family stability. However, it is anticipated that owners or operators of affected facilities may attempt to recoup the increased cost by increasing connection and user fees, or the costs of goods and/or services. Should this occur, disposable family income may be decreased for those families affected by the increase.
