Summary

Please provide a brief summary of the new regulation, amendments to an existing regulation, or the regulation being repealed. There is no need to state each provision or amendment; instead give a summary of the regulatory action. If applicable, generally describe the existing regulation. Do not restate the regulation or the purpose and intent of the regulation in the summary. Rather, alert the reader to all substantive matters or changes contained in the proposed new regulation, amendments to an existing regulation, or the regulation being repealed. Please briefly and generally summarize any substantive changes made since the proposed action was published.

Regulations 18 VAC 65-30-10 et seq. govern the solicitation, sale and content of a preneed contract for funeral services. Regulations also provide requirements for record-keeping and reporting, disclosures to the consumer, and funding mechanisms. Rules on the transfer, cancellation or termination of a contract are set forth, and the required content and format of a contract is specifically stipulated. Amendments to clarify terminology and eliminate an unnecessary requirement for a contract number are recommended.

Changes Made Since the Proposed Stage

Please detail any changes, other than strictly editorial changes, made to the text of the proposed regulation since its publication. Please provide citations of the sections of the proposed regulation that have been altered since the proposed stage and a statement of the purpose of each change.

No changes to proposed regulations have been made in the adoption of final amendments.

Statement of Final Agency Action

In addition, where applicable, please describe the extent to which proposed changes exceed federal minimum requirements. Full citations of legal authority and, if available, web site addresses for locating the text of the cited authority, shall be provided. If the final text differs from that of the proposed, please state that the Office of the Attorney General has certified that the agency has the statutory authority to promulgate the final regulation and that it comports with applicable state and/or federal law

The Office of the Attorney General has certified that the agency has the statutory authority to promulgate the amended regulation and that it comports with applicable state and/or federal law.

Purpose

Please provide a statement explaining the need for the new or amended regulation. This statement must include the rationale or justification of the final regulatory action and detail the specific reasons it is essential to protect the health, safety or welfare of citizens. A statement of a general nature is not acceptable, particular rationales must be explicitly discussed. Please include a discussion of the goals of the proposal and the problems the proposal is intended to solve.

To ensure that members of the public are protected in making preneed arrangements for funeral services, the Board has been actively striving to educate licensees about deficiencies related to record-keeping, disclosures and required information on preneed contracts that inspections have uncovered. Periodically, the Enforcement Division of DHP prepares its “Dirty Dozen” list of most-commonly cited deficiencies; contained in that list are two common deficiencies related to preneed as follows:

- 65-30-70 Chronological listing not available or does not include required information such as how funded, 10% retained, etc.
- 65-30-80 Preneed contract does not include required information such as contract number,
- 65-30-180 license number of funeral service provider, license number of insurance agent.

That information is disseminated to the licensed establishments with citations of the law or regulation being violated and suggestions for correction. In addition, the Board has eliminated the requirement for a contract number that is often misunderstood and unnecessary.

Amendments to regulations will assist the funeral service provider in complying with laws and regulation and will eliminate one common reason an establishment is cited with a deficiency on its inspection report. Clarification of the term “appointee” will help to protect the public at a vulnerable time when preneed funeral arrangements are being made.

Substance

Please identify and explain the new substantive provisions, the substantive changes to existing sections, or both where appropriate. Please note that a more detailed discussion is required under the statement of the regulatory action’s detail.

Amendments to regulations are not substantive but are intended to be clarifying and less burdensome. The correct usage of the term “appointee” will alleviate confusion with the term “designee” which has a different meaning and intent as specified in the Code of Virginia. The elimination of a requirement for a number to be on the contract will eliminate questions about which number is intended.

Issues

Please provide a statement identifying the issues associated with the final regulatory action. The term “issues” means: 1) the advantages and disadvantages to the public of implementing the new provisions; 2) the advantages and disadvantages to the agency or the Commonwealth; and 3) other pertinent matters of interest to the regulated community, government officials, and the public. If there are no disadvantages to the public or the Commonwealth, please include a sentence to that effect.

The primary advantage to the public of the amendments is the clarification of the terms “designee” and “appointee.” The terms are not interchangeable, as the designee is the person designated to determine the final disposition of human remains. The appointee is the person who is appointed to carry out the wishes of the contract buyer in making preneed arrangements. Making a clear distinction in regulation may benefit both members of the public and the funeral directors seeking to comply with law and regulation. There are no disadvantages to the public.

There are no advantages or disadvantages to the agency, except deletion of an unnecessary requirement for a contract number may eliminate one of the frequently cited deficiencies on inspection reports and alleviate the need for further inspection or other action by the board.

Public Comment

Please summarize all public comment received during the public comment period and provide the agency response. If no public comment was received, please include a statement indicating that fact.

Proposed regulations were published in the Register on August 12, 2002, and the 60-day Comment Period concluded on October 11, 2002. A public hearing was held before the Board of Pharmacy at the Department of Health Professions in Richmond on September 10, 2002. No comment was presented at that time nor was any written or electronically submitted comment received.

Detail of Changes

Please detail any changes, other than strictly editorial changes, that are being proposed. Please detail new substantive provisions, all substantive changes to existing sections, or both where appropriate. This statement should provide a section-by-section description - or crosswalk - of changes implemented by the proposed regulatory action. Include citations to the specific sections of an existing regulation being amended and explain the consequences of the changes.

The changes to be implemented are:

18 VAC 65-30-10. Definitions.

Amendments are adopted to distinguish between the “appointee” who is the person selected to arrange a preneed plan and a “designee” as defined in the Code in § 54.1-2825 as the person designated to make arrangements for burial or disposition of the remains.

18 VAC 65-30-80. Content and format.

Regulations require a number on the preneed contract, but there has been confusion and uncertainty about what number is to be used. The Board considered specifying the numbering of contracts but concluded that it was unnecessary since records must be maintained chronologically; therefore the date on the contract is all that is necessary for record-keeping and inspections.

Family Impact Statement

Please provide an analysis of the regulatory action that assesses the impact on the institution of the family and family stability including the extent to which the regulatory action will: 1) strengthen or erode the authority and rights of parents in the education, nurturing, and supervision of their children; 2) encourage or discourage economic self-sufficiency, self-pride, and the assumption of responsibility for oneself, one’s spouse, and one’s children and/or elderly parents; 3) strengthen or erode the marital commitment; and 4) increase or decrease disposable family income.

In its preliminary analysis of the proposed regulatory action, the agency has determined that there is no potential impact on the institution of the family and family stability. Likewise, there will be no increase or decrease in disposable family income.
