Cost Benefit Analysis

Complete Tables 1a and 1b for all regulatory actions. You do not need to complete Table 1c if the regulatory action is required by state statute or federal statute or regulation and leaves no discretion in its implementation.

Table 1a should provide analysis for the regulatory approach you are taking. Table 1b should provide analysis for the approach of leaving the current regulations intact (i.e., no further change is implemented). Table 1c should provide analysis for at least one alternative approach. You should not limit yourself to one alternative, however, and can add additional charts as needed.

Report both direct and indirect costs and benefits that can be monetized in Boxes 1 and 2. Report direct and indirect costs and benefits that cannot be monetized in Box 4. See the ORM Regulatory Economic Analysis Manual for additional guidance.

Table 1a: Costs and Benefits of the Proposed Changes (Primary Option)

(1) Direct & Indirect Costs & Benefits (Monetized)	<p>This change amends the deadline to obtain a certification of a surgical technologist through the grandfathering provision from December 31, 2022 to December 31, 2023, pursuant to changes made during the 2023 General Assembly Session. There are no direct or indirect costs or direct benefits associated with this action.</p> <p>There is an indirect benefit in that the action potentially expands the market for surgical technologists because more practitioners will become certified under the grandfather provision extension. The Board will not have data regarding this change until after the grandfather deadline passes on December 31, 2023.</p>
