## MEMORANDUM

**TO:** BRIAN MCCORMICK  
Regulatory Supervisor  
Department of Medical Assistance Services

**FROM:** ABRAR AZAMUDDIN   
Assistant Attorney General

**DATE:** October 29, 2014

**SUBJECT:** Fast-Track Submission – Client Medical Management Update  
[REVISED: 12 VAC 30-130-800, 12 VAC 30-130-810 and 12 VAC 30-130-820]

This memorandum responds to your request that this Office review the proposed revisions to the Client Medical Management Program regulations. The proposed changes reduce the client restriction period from 36 months to 24 months and introduces an educational component to the program. Based on my review, it is this Office's view that DMAS has the authority, subject to compliance with the provisions of Article 2 of the Virginia Administrative Process Act (VAPA), and has not exceeded that authority.

The authority for this action is 42 CFR § 431.54(e), which permits state Medicaid agencies to have programs that restrict Medicaid individuals who have been found to be over-utilizing either physician or pharmacy services, or both. Additionally, Virginia Code § 32.1-325 grants authority to the Board of Medical Assistance Services to administer and amend the Plan for Medical Assistance. The Director of DMAS is authorized to administer and amend the Plan for Medical Assistance according to the Board's requirements. Va. Code § 32.1-324. Chapter 2 of the *2014 Acts of the Assembly*, Item 301 RR directed DMAS to make programmatic changes to this program to ensure appropriate utilization, prevent abuse, promote improved and cost efficient medical management of essential health care, and assist and educate beneficiaries in appropriately using medical and pharmacy services. Accordingly, it is my view that this action was properly promulgated under the fast-track rulemaking process pursuant to Va. Code § 2.2-4012.1 because the regulatory action is expected to be noncontroversial.

Please call me at 804.786.6004 if you have any questions. Thank you.
