Legal basis

Please identify the state and/or federal legal authority for the regulation, including (1) the most relevant law and/or regulation, and (2) promulgating entity, i.e., agency, board, or person.

Section 2.2-4007.02 of the *Code of Virginia* gives authority to each agency pursuant to the provisions of this chapter (*Code of Virginia, Title 2.2*), which includes the Common Interest Community Board (Board), to promote public involvement in the development, amendment, or repeal of any agency's regulations by soliciting the input of interested parties. This is done through the adoption of Public Participation Guidelines and the use of these guidelines in the development of the Board's regulations.

Alternatives

Please describe all viable alternatives for achieving the purpose of the existing regulation that have been considered as part of the periodic review process. Include an explanation of why such alternatives were rejected and why this regulation is the least burdensome alternative available for achieving the purpose of the regulation.

No viable alternatives for achieving the purpose of the existing regulation could be determined. The statute enables the Board to fulfill the requirement established in Title 2.2 of the *Code of Virginia*. Further, the regulation is necessary to ensure that the Board's statutory requirements are executed in the

least burdensome and most efficient and cost effective manner possible while protecting the health, safety, and welfare of the citizens of Virginia.

Public comment

Please summarize all comments received during the public comment period following the publication of the Notice of Periodic Review, and provide the agency response. Please indicate if an informal advisory group was formed for purposes of assisting in the periodic review.

Small business impact

In order to minimize the economic impact of regulations on small business, please include, pursuant to § 2.2-4007.1 E and F, a discussion of the agency’s consideration of: (1) the continued need for the regulation; (2) the nature of complaints or comments received concerning the regulation from the public; (3) the complexity of the regulation; (4) the extent to which the regulation overlaps, duplicates, or conflicts with federal or state law or regulation; and (5) the length of time since the regulation has been evaluated or the degree to which technology, economic conditions, or other factors have changed in the area affected by the regulation. Also, include a discussion of the agency’s determination whether the regulation should be amended or repealed, consistent with the stated objectives of applicable law, to minimize the economic impact of regulations on small businesses.

Code of Virginia § 2.2-4007.02 mandates the Board to solicit the input of interested parties in the formation and development of its regulations. Therefore, the continued need for the regulation is established in statute. The regulation is necessary to protect public health, safety and welfare by establishing Public Participation Guidelines which promote public involvement in the development, amendment, or repeal of an agency's regulation. By soliciting the input of interested parties, the Board is better equipped to effectively regulate common interest communities. Since no complaints or comments were received during the public comment period, there does not appear to be a reason to amend or repeal the regulation. The regulation is clearly written and easily understandable. The regulation does not overlap, duplicate, or contravene federal or state law or regulation. This is the first periodic review of the regulation since becoming effective in 2008. At its December 1, 2011 meeting, the Board discussed the regulation and, for the reasons stated in this section, determined that the regulation should not be amended or repealed, but should be retained in its current form.

Family impact

Please provide an analysis of the regulation's impact on the institution of the family and family stability.

No impact on the institution of the family and family stability has been identified.
