5. Behavioral Health Transformation

Deputy Tammy Whitlock provided the Board with an oral presentation of the Behavioral Health Transformation.

6. Unwinding Update

Deputy Sarah Hatton provided the Board with an update on Unwinding.

States were required to maintain enrollment of Medicaid members (enrolled as of March 18, 2020) to receive the additional 6.2% increase until the end of the month in which the federal Public Health Emergency (PHE) ends.

Since March of 2020, DMAS and DSS have closely collaborated to implement flexibilities and protect needed coverage during the PHE to allow access to services. In a parallel effort, the DMAS and DSS began planning in mid-2020 for the eventual unwinding. This close partnership has continued throughout the PHE to ensure all efforts were made to utilize available resources throughout the return to normal transition.

Unwinding Taskforce: Secretary Littel convened a monthly unwinding taskforce beginning in January 2022 to include DMAS and DSS leaders and the Office of the Attorney General. In July 2022, the taskforce was expanded to include Senate and House finance staff and the Department of Planning and Budget per a General Assembly mandate.

In December 2022, the Consolidated Appropriations Act (CAA) was signed into effect decoupling the PHE from the continuous coverage requirement effective March 31, 2023: Stepped down the enhanced FMAP beginning April 1st, phasing out the enhanced match December 31, 2023.

CMS requires that states have an approved mitigation plan – or approval not to submit a mitigation plan by March 31, 2023. States that did not receive this approval face the loss of enhanced FMAP, restrictions on taking actions to close enrollments, and delayed redetermination timelines.

Virginia was one of 44 states required to submit a mitigation plan. DMAS received CMS approval on March 29, 2023.

Per federal guidance, April 30th, 2023, was the first month states were permitted to close eligibility.

Renewals that are unable to be completed through the automated process are mailed two months prior to the month in which the renewal is due.

Prior to the COVID-19 Public Health Emergency, on average:
64,000 cases were due each month
32,000 or 50% were completed through the automated process
32,000 cases were manually processed across 120 local agencies
