This was an unannounced audit as the provider was not aware that Board staff would be in attendance. A handout of the report was distributed to the Board members and Staff present.

Education Audit
Premier Electric

The course audited was titled National Electrical Code Training – Grounding and Bonding and was instructed by S. Joseph Goble. The course was held at the location and on the date the education provider submitted to the Board for Contactors.

Staff arrived at the facility at 8:05 a.m. The classroom was visible upon entering the building. Staff entered the classroom as the instructor was giving the attendees general information about the course as adjustments were completed to the visual presentation equipment. After adjustments were completed, the instructor conducted the class using the PowerPoint slides the education provider had submitted for course approval. Upon completion of the course, attendees were given an evaluation sheet and course completion certificate.

Reporting:

A course attendance roster was submitted inside the required timeframe to submit the roster within seven business days.

Recommendation:

Finance Report – Regulatory Review (Temporary Fee Increase)

Jeff Waite, Financial Services Director, presented to the Board for Contractors, a breakdown of its current financial status. Mr. Waite explained the reserve balance, revenues, costs and expenses, and upcoming changes to the requirements for calculating fees and any surplus fees that may be collected during a biennium. Mr. Waite explained that the current temporary fee increase would expire in August and that the Board, to be compliant with current requirements, would need to review and adopt updated temporary fees. The Board reviewed the temporary fee proposals presented by Mr. Waite and selected fees that would keep the Board compliant with those requirements. The addition of new temporary fees would require that the Board submit regulations for amendments in accordance with the procedure for an exempt regulatory action.

Examination Report

Shannon Webster, Director of Examinations updated the Board on the exam review for the Marine Facility Contractor specialty test, held on March 19th. There were eight participants including Mr. Redifer and other DPOR staff. The preliminary results are that the examination is psychometrically sound, and that only minor changes may be required.

**Examination
Report**

The Board was presented information about open book versus "closed book" examinations. Mr. Olson informed the Board that the Board for Waste Management Facility Operators (WMFO) was exploring the possibility of changing to a "closed book" examination. Board staff and examination staff will be researching information and collecting data to present to the WMFO Board at its next meeting.

After discussion Chairman Dyer felt the Board would need to see the results of the closed book examinations from other Boards before making any changes to the current Board for Contractors open book examinations.

In keeping with previous Board actions in the establishment of a new individual license or certification, the necessity for a special regulatory committee to establish the new regulations and requirements was discussed. After discussion it was determined that the committee should consist of a member of Associated General Contractors, Home Builders Association of Virginia, two members of the Virginia Fire Sprinkler Association, one citizen member, and three members of the Board for Contractors. Mr. Groh, Mr. Redifer, and Mr. Dyer were selected to serve on the committee as representatives of the Board for Contractors:

Legislative Update – SB 1219

Eric Olson, Executive Director, and Mary Broz-Vaughan, Acting Director, informed the Board of legislation that was passed that would allow individuals to take the Designated Employee examination without approval, a policy that is already in place. The bill also requires the Board to review its current regulations requiring that a licensed contractor replace a departed Designated Employee within 90 days. No action is required by the Board at this time and the Board for Contractors Committee will review the 90 day requirement at a future meeting.
