The Board recessed from 11:41 a.m. until 11:52 a.m.

Recess

Mr. Armstrong spoke to the Board on the following:

NCARB Updates

One size does not fit all, there are multiple mobility schedules

Legislature must be careful not to remove something that is working; we are making progress

Drafting legislature – narrow the focus, statute exemption to items that are working

Candidates complete all required while still in school – not a short cut

Integrated Path to Licensure – IPAL, seeing our first graduates from North Carolina and Florida

Trying to move the time line from 14 to 12 years

Challenges in data management – selling our software program – state licensing program

Calling for volunteers over 300 volunteers sit on committees, taskforces, and work groups – noncitizen members are on the committees

Two think tanks – recently licensed and individuals not licensed

Ms. Price inquired about the Integrated Path to licensure. Mr. Armstrong stated the first wave of graduates has not graduated yet; within the next three years, we should see analysis.

Ms. Nosbisch will be representing the Board at the NCEES Member Board Administrator Committee meeting. She will also be attending the Board President's Assembly in February along with Mr. Zmuda.

NCEES Updates

Ms. Alexander represented the Board at the CIDQ Annual Convention in November. The meeting focused on the definition of interior design, which is a work in progress. CIDQ is launching a new website where the back end will be a database with transcripts, letters of reference, etc. which will be accessible to member boards. This will expedite applications.

CIDQ Updates

Mr. Cabell represented the Board at the CLARB Annual meeting. The theme was creating opportunities out of disruption/challenges in regulations. The legislature is often unaware of the full scope of practice of a landscape architect. The meeting was also about working towards an unfriictionous application process; make the experience and application process easier.

CLARB Updates

Mr. Kelly provided a presentation on "A Day in the Life of a Professional Engineer." The Board members thanked him for his presentation.

Day in the Life of a Professional

Engineer

The Board discussed the National Transportation Safety Board news release regarding the investigation of Merrimack Valley Gas Explosions. It was noted that the responsible people were not licensed Professional Engineers. The Board agreed by consensus to place the Industrial Exemption on the agenda of the Professional Engineers and Land Surveyors Section meeting on February 5, 2019, and then back to the full Board on March 12, 2019.

Other Business

Ms. Nosbisch stated HB 1649 Boundary agreement, local; locality allowed to attach their petitions to circuit court a GIS map was for informational purposes.

Ms. Webster requested the Land Surveyor State Specific and Land Surveyor B exams go out for RFP. Because this test is such a small population, she would place it with another group of exams. For 2019, the exam would still be in house. If this was acceptable to the Board, the vendor exam would begin January 2020. The use of a certified vendor with a psychometric technician allows the exam to be psychometrically sound. She requested the LS Section form a committee to gather a wish list for the RFP. The Board agreed by consensus to move forward with the RFP and all the Land Surveyor Board members will sit on the RFP Committee.

Mr. Zmuda stated the 35% and 15% pass rates are alarming. Ms. Webster stated that no applicants have challenged the questions. Ms. Nosbisch suggested the Land Surveyors have an LS Exam meeting on February 5, 2019 where they can go into closed session and review the exam questions.

Ms. Price volunteered to present the Day in the Life of an Architect at the March Board meeting.

Ms. Nosbisch informed board members that they will receive an email later this month from the Virginia Conflict of Interest and Ethics Advisory Council regarding their yearly statement of economic interests (SEI). Ms. Nosbisch stated that completion of the SEI form is a requirement for board members and that the online form must be completed by all board members between January 1, 2019 and January 14, 2019.

**Statement of
Economic Interest**

Conflict of Interest forms and travel vouchers were completed by all Board members present.
