### **Cost Benefit Analysis**

Complete Tables 1a and 1b for all regulatory actions. You do not need to complete Table 1c if the regulatory action is required by state statute or federal statute or regulation and leaves no discretion in its implementation.

Table 1a should provide analysis for the regulatory approach you are taking. Table 1b should provide analysis for the approach of leaving the current regulations intact (i.e., no further change is implemented). Table 1c should provide analysis for at least one alternative approach. You should not limit yourself to one alternative, however, and can add additional charts as needed.

Report both direct and indirect costs and benefits that can be monetized in Boxes 1 and 2. Report direct and indirect costs and benefits that cannot be monetized in Box 4. See the ORM Regulatory Economic Analysis Manual for additional guidance.

**Table 1a: Costs and Benefits of the Proposed Changes (Primary Option)**

(1) Direct & Indirect Costs & Benefits (Monetized)	This regulatory action involves mainly line item deletions to LTCA regulations to advance regulatory reduction initiatives. There is also the addition of an inactive licensure category for both Nursing Home Administrators and Assisted Living Facility Administrators (NHAs and ALFAs). This category will expand the regulatory pathways available within the Board and allow someone who is not currently practicing to maintain their licensure for a reduced fee so they can return to the field quickly should they desire. There is a small direct benefit related to the new inactive licensure fee, however the extent of that benefit will be unknown since we are not sure how many licensees who would have otherwise let their license expire would become inactive.	
(2) Present Monetized Values	Direct & Indirect Costs	Direct & Indirect Benefits
	(a) N/A	(b) Unknown at this time
(3) Net Monetized Benefit	Positive benefit but amount unknown	
(4) Other Costs & Benefits (Non-Monetized)	N/A

**Table 1b: Costs and Benefits under the Status Quo (No change to the regulation)**

(1) Direct & Indirect Costs & Benefits (Monetized)	The status quo would involve more regulatory burden on the licensee and leave them without the possibility of getting an inactive license should they desire.	
(2) Present Monetized Values	Direct & Indirect Costs	Direct & Indirect Benefits
	(a) N/A	(b) N/A
(3) Net Monetized Benefit	N/A	
(4) Other Costs & Benefits (Non-Monetized)

**Table 1c: Costs and Benefits under Alternative Approach(es)**

(1) Direct & Indirect Costs & Benefits (Monetized)	There is no alternative approach to consider. The only vehicle to modify or eliminate existing regulations is through Board action.

	(a) N/A	(b) N/A
(3) Net Monetized Benefit	N/A	
(4) Other Costs & Benefits (Non-Monetized)	N/A

**Table 3: Impact on Families**

(1) Direct & Indirect Costs & Benefits (Monetized)	There is no direct impact on families, however an inactive license category may save money for a licensee in a family who wants to return to the field. The benefit is difficult to quantify, however.
