### Brief summary

*Please provide a brief summary of the proposed new regulation, proposed amendments to the existing regulation, or the regulation proposed to be repealed. Alert the reader to all substantive matters or changes. If applicable, generally describe the existing regulation.*

In Section 727, there is reference to compliance with subsections G, H, and J of section 725, but there are no such subsections in section 725. The language was found in an early draft of these regulations, but when section 725 was re-written and re-numbered before the Board's adoption in 2012, section 727 was never changed. The original content of subsections G, H, and J has been identified, all of which is in the current section 725, and included in the amended version of section 727.

Since these are amendments that correct the technical errors made when these regulations were adopted in 2012, the exemption in § 2.2-4006 A 3 is applicable.
