Cost Benefit Analysis

Complete Tables 1a and 1b for all regulatory actions. You do not need to complete Table 1c if the regulatory action is required by state statute or federal statute or regulation and leaves no discretion in its implementation.

Table 1a should provide analysis for the regulatory approach you are taking. Table 1b should provide analysis for the approach of leaving the current regulations intact (i.e., no further change is implemented). Table 1c should provide analysis for at least one alternative approach. You should not limit yourself to one alternative, however, and can add additional charts as needed.

Report both direct and indirect costs and benefits that can be monetized in Boxes 1 and 2. Report direct and indirect costs and benefits that cannot be monetized in Box 4. See the ORM Regulatory Economic Analysis Manual for additional guidance.

(3) Net Monetized Benefit	N/A	
(4) Other Costs & Benefits (Non-Monetized)	(1) No longer any perceived conflict between Code of Federal Regulations (CFR) and DWR regulations (a benefit), where both align. (2) Clarifies that bowriding shall not be allowed by boat operator, instead of by a choice or action of a passenger.

(2) Present Monetized Values	Direct & Indirect Costs	Direct & Indirect Benefits
	(a) N/A	(b) N/A
(3) Other Costs & Benefits (Non-Monetized)	Partner federal, state, and local agencies and organizations will have the most up-to-date regulatory information from DWR that will align with CFR. DWR Conservation Police will have better ability to bring unlawful bowriding cases to court where the loophole currently exists that allows defendant (boat operator) to get out of a ticket because they didn't allow the person (passenger) to ride on the bow, the passenger just did it by choice. Now the boat operator is responsible for not allowing the activity.

Changes to Number of Regulatory Requirements

Table 5: Regulatory Reduction

For each individual action, please fill out the appropriate chart to reflect any change in regulatory requirements, costs, regulatory stringency, or the overall length of any guidance documents.

Change in Regulatory Requirements

VAC Section(s) Involved*	Authority of Change	Initial Count	Additions	Subtractions	Total Net Change in Requirements
(no net change to sections)	(M/A):				0

	(M/R):				0
	(D/R):				0
				Grand Total of Changes in Requirements:	(M/A):0 (D/A):0 (M/R):0 (D/R):0

Key:

Please use the following coding if change is mandatory or discretionary and whether it affects externally regulated parties or only the agency itself:
