Summary

Please provide a brief summary of the proposed new regulation, proposed amendments to an existing regulation, or the regulation proposed to be repealed. There is no need to state each provision or amendment or restate the purpose and intent of the regulation; instead give a summary of the regulatory action and alert the reader to all substantive matters or changes. If applicable, generally describe the existing regulation.

The Auctioneers Board has identified several changes that need to be made to its regulations to ensure that they accurately reflect the intent of the Board and to ensure that any unnecessary requirements are removed.

Basis

Please identify the state and/or federal source of legal authority to promulgate the regulation. The discussion of this statutory authority should: 1) describe its scope and the extent to which it is mandatory or discretionary; and 2) include a brief statement relating the content of the statutory authority to the specific regulation. In addition, where applicable, please describe the extent to which proposed changes exceed federal minimum requirements. Full citations of legal authority and, if available, web site addresses for locating the text of the cited authority must be provided. Please state that the Office of the Attorney General has certified that the agency has the statutory authority to promulgate the proposed regulation and that it comports with applicable state and/or federal law.

§ 54.1-602 of the Code of Virginia requires the Auctioneers Board to develop and administer a regulatory system to regulate individuals and businesses in Virginia that practice auctioneering. While the Board is mandated to establish regulations, the content of the regulations is up to the discretion of the Board.

Purpose

This statement must include the rationale or justification of the proposed regulatory action and detail the specific reasons it is essential to protect the health, safety or welfare of citizens. A statement of a general nature is not acceptable, particular rationales must be explicitly discussed. Please include a discussion of the goals of the proposal and the problems the proposal is intended to solve.

In order to protect the public, the Board is clarifying its regulations that disciplinary action in another jurisdiction relating to auctioneering may prevent licensure in Virginia and that Board approved auction schools will have to include the Board's regulations in their curriculum, periodically certify that they continue to comply with the Board's requirements and clarify that the Board may withdraw approval for a school failing to comply with the Board's requirements. The remainder of the changes are to ensure that the Board's intent is clearly reflected in the regulations and to remove unnecessary or outdated items from the regulations.

Issues

Please provide a statement identifying the issues associated with the proposed regulatory action. The term "issues" means: 1) the primary advantages and disadvantages to the public, such as individual private citizens or businesses, of implementing the new or amended provisions; 2) the primary advantages and disadvantages to the agency or the Commonwealth; and 3) other pertinent matters of interest to the regulated community, government officials, and the public. If there are no disadvantages to the public or the Commonwealth, please include a sentence to that effect.

Fiscal Impact Analysis

The Board of Auctioneers regulates individuals who work as Auctioneers as prescribed in Title 54.1, Chapter 6 of the Code of Virginia. The Board consists of five members, and generally meets quarterly in Richmond. The Department of Professional and Occupational Regulation supports the Board by performing a variety of tasks including: assisting applicants seeking a license, assisting licensees with the renewal process, and helping consumers file and resolve complaints against a licensee who has violated regulations. All costs incurred in support of board activities and regulatory operations are paid by the department and funded through fees paid by applicants and licensees. The following analysis explains the types of costs incurred by the department in support of the Board's operations, and provides estimates of revenues expected to be generated on behalf of the Board.

Auctioneers Board

Analysis of Expenses by Category

Background

All Boards within the Department of Professional and Occupational Regulation must operate within the Code provisions of the Callahan Act (54.1-113), and the general provisions of 54.1-201. Each regulatory program's revenues must be adequate to support both its direct costs and a proportional share of indirect costs. The department allocates costs to its regulatory programs based on consistent, equitable, and cost-effective methodologies. The following explanations provide a description of the types of costs included in each category of expenditure.

The financial data and projections provided are current as of 01/12/1999 when the most recent financial analysis was presented to the board. The department tracks the board's revenues and expenditures on a monthly basis. Current revenues and expenditures are consistent with the board's projected financial position. The Department will review the board's financial position in accordance with the Callahan Act after the close of the current biennium.

Callahan Calculation

Actual and projected Callahan percentages for each biennium are provided below. The combined total of revenues and accumulated cash collected on behalf of the board is expected to be adequate to support all operating expenses for the next two biennia.

At the close of the 1996-98 biennium, the Callahan percentage for the Board was 191.2%. This high percentage resulted from the Board's accumulated cash balances. The fee decrease approved by the board became effective November 1, 1999, which will begin to reduce this percentage. With this fee reduction, revenues collected are expected to be less than expenditures incurred in support of Board operations. The Board will rely on its accumulated cash balance to cover its operating expenses until that cash balance is gradually reduced to an appropriate level and the Callahan percentage reaches 10%. At that point, fees will need to be adjusted to ensure adequate revenue is collected in accordance with the provisions of the Callahan Act.

1996-98	191.2%
1998-00	163.9%
2000-02	140.5%
2002-04	113.4%

Where applicable, include citations to the specific sections of an existing regulation being amended and explain the consequences of the proposed changes.

- Periodically certify that they continue to comply with the Board’s requirements; and
- Clarify that the Board may withdraw approval for a school failing to comply with the Board’s requirements.

Alternatives

Please describe the specific alternatives to the proposal considered and the rationale used by the agency to select the least burdensome or intrusive alternative that meets the essential purpose of the action.

Failure to adopt these changes will allow unnecessary requirements to remain in the regulations and would allow unclear language to remain in the regulations; neither of which is desirable so there is

no alternative other than to modify the regulations as proposed. In addition, the Board approved schools need to periodically verify continued compliance with the Board’s requirements in order to ensure that students are receiving the necessary education. Otherwise, several years could go by with a school not complying with the Board’s requirements and harming applicants who are not receiving the education that the school informed the Board they would be providing.

The Board will certainly consider any and all comments received during the comment period and as to any proposed alternatives. In addition, anyone may petition the Board to consider a proposed regulatory change at any time in accordance with the Board’s Public Participation Guidelines.

Public Comment

Please summarize all public comment received during the NOIRA comment period and provide the agency response.

No comments were received.

Clarity of the Regulation

Please provide a statement indicating that the agency, through examination of the regulation and relevant public comments, has determined that the regulation is clearly written and easily understandable by the individuals and entities affected.

Based on the fact that no comments have been received regarding this issue, and based on the Board’s review, the regulation is clearly written and easily understandable by the affected individuals.

Periodic Review

Please supply a schedule setting forth when the agency will initiate a review and re-evaluation to determine if the regulation should be continued, amended, or terminated. The specific and measurable regulatory goals should be outlined with this schedule. The review shall take place no later than three years after the proposed regulation is expected to be effective.

The regulations will be reviewed during the Board's normal course of regulatory review that in no case shall exceed three years from the effective date of these regulations. Fees are evaluated at the end of every biennium and if fee adjustments are necessary, then the regulatory review process is initiated which could include this review. Otherwise, within 24 to 36 months of the effective date of these regulations, this matter will be placed on the Board's agenda for consideration.

The Board's regulations will be evaluated based on comments received in writing and at public hearings scheduled to receive comments on the Board's regulations. Any other items noted by the Board that need to be addressed during the course of the Board conducting its business will be noted and retained on file by staff for consideration by the Board during regulatory review.

Family Impact Statement

Please provide an analysis of the proposed regulatory action that assesses the potential impact on the institution of the family and family stability including the extent to which the regulatory action will: 1) strengthen or erode the authority and rights of parents in the education, nurturing, and supervision of their children; 2) encourage or discourage economic self-sufficiency, self-pride, and the assumption of responsibility for oneself, one's spouse, and one's children and/or elderly parents; 3) strengthen or erode the marital commitment; and 4) increase or decrease disposable family income.

The contemplated changes are expected to have no impact on families.
