13 VAC 5-51-10. Incorporation by reference. (Repealed.)

A. The following document is adopted and incorporated by reference to be an enforceable part of this chapter:

The BOCA National Fire Prevention Code/1996, Tenth Edition, hereinafter referred to as "BNFPC," published by Building Officials and Code Administrators International, Inc., 4051 West Flossmoor Road, Country Club Hills, IL 60478-5795.

B. The following changes shall be made to the BNFPC for its use as an incorporated document in this chapter.

13 VAC 5-51-20. BNFPC Section F-101.0 General. (Repealed.)

A. Change subsection F-101.1 to read:

F-101.1. Title: These regulations shall be known as the Virginia Statewide Fire Prevention Code, hereinafter referred to as "this code." This code contains provisions of the BNFPC as published by BOCA International, Inc., and provisions developed by the Virginia Fire Services-Board and the Virginia Board of Housing and Community Development which change provisions of the BNFPC. Where conflicts occur between unchanged and changed provisions of the BNFPC, the changed provisions shall govern.

Note: The Virginia Statewide Fire Prevention Code as on file with the Virginia Code Commission sets out the changed sections of the BNFPC using Virginia Administrative Code (VAC) section numbering and correlates those changes to conform to the BNFPC section numbering. Replacement pages for the BNFPC containing the changed sections marked in the margin with a double line may be obtained from DHCD.

B. Change subsection F-101.2 to read:

F-101.2. Scope: These regulations provide for statewide standards to be complied with to safeguard life and property from the hazards of fire or explosion arising from the improper maintenance of life safety and fire prevention and protection materials, devices, systems and structures, and the unsafe storage, handling, and use of substances, materials and devices, wherever located. This code also prescribes regulations for the handling, storage and use of explosives and blasting agents.

The SFPC shall apply to all buildings and structures as defined in the Uniform Statewide Building Code Law, Chapter 6 (§ 36 97 et seq.) of Title 36 of the Code of Virginia. The SFPC shall supersede any fire prevention regulations previously adopted by a local government or other political subdivision. When any provision of this code is found to be in conflict with the USBC, OSHA, or statute, that provision of the SFPC shall become invalid. Wherever the words "building code" appear they shall mean the applicable USBC.

C. Change subsection F-101.3 to read:

F-101.3. Relationship to USBC: The USBC shall not supersede provisions of this code to be complied with in existing structures, provided such provisions of this code shall not impose requirements that are more restrictive than those of the USBC under which the structures were constructed. Subsequent alteration, enlargement, repair, or conversion of the occupancy classification of such structures shall be subject to the USBC.

Inspections of structures other than state owned structures under construction and the review and approval of construction documents for these structures for enforcement of the USBC shall be the sole responsibility of the appropriate local building inspectors. Upon completion of such structures, responsibility for fire safety protection shall pass to the code official in those localities which enforce this code or to the State Fire Marshal in those localities which do not enforce this code.

D. Add subsection F-101.3.1 to read:

F 101.3.1. Inspections for USBC requirements: The code official shall require that buildings subject to the requirements of the USBC subsections 3402.3, 3402.4, 3402.5, 3402.6, 3402.7, 3402.10, 3402.12, 3402.13 and 3402.14 comply with the provisions of those subsections.

F-102.3. Application to structures: Structures which were constructed prior to regulation under the USBC shall comply with the maintenance requirements of this code to the extent that equipment, systems, devices, and safeguards relating to the construction of the structure and the equipment therein, which were provided when constructed, or required or regulated under a code in effect at the time of construction of the structure, shall be maintained. Such structures, if subject to the state fire and public building regulations in effect prior to March 31, 1986 (Virginia Public Building Safety Regulations, VR 394-01-05), shall also be maintained in accordance with those regulations.

Structures which were constructed under any edition of the USBC shall comply with the maintenance requirements of this code to the extent that the equipment, systems, devices, and safeguards required or regulated under the code which governed the construction of the structure shall be maintained.

C. Add subsection F-102.3.1 to read:

F 102.3.1. State structures: This code shall be applicable to all state owned buildings and structures. Every agency, commission or institution of this Commonwealth shall permit, at all reasonable hours, the code official reasonable access to existing structures or a structure under construction or renovation, for the purposes of performing an informational and advisory fire safety inspection. The code official may submit, subsequent to performing such inspection, any findings and recommendations including a list of corrective actions necessary to ensure that such structure is reasonably safe from the hazards of fire to the appropriate official of such agency, commission, or institution and the State Fire Marshal. Such agency, commission or institution shall notify, within 60 days of receipt of such findings and recommendations, the State Fire Marshal and the code official of the corrective measures taken to eliminate the hazards reported by the code official. The State Fire Marshal shall have the same power in the enforcement of this section as is provided for in Section F 105.0.

The State Fire Marshal may enter into an agreement as is provided for in § 36-139.4 of the Code of Virginia with any code official to enforce this section and to take immediate

- A. F-101.1. Title: These regulations shall be known as the Virginia Statewide Fire Prevention Code (SFPC), hereinafter referred to as "this code" or "SFPC." The term "chapter" means a chapter in the SFPC. The SFPC was cooperatively developed by the Virginia Fire Services Board and the Virginia Board of Housing and Community Development.
- B. F-101.2. Scope: The SFPC prescribes regulations to be complied with for the protection of life and property from the hazards of fire or explosion and for the handling, storage and use of explosives or blasting agents, and provides for the administration and enforcement of such regulations. The SFPC requires manufacturers of explosives to register and report information concerning their manufacturing facilities and methods of operation within this Commonwealth in accordance with the SFPC. The SFPC also establishes regulations for obtaining permits for the manufacturing, storage, handling, use, or sales of explosives. Inspections under the SFPC are a governmental responsibility.
- C. F-101.3. Purpose: The purposes of the SFPC are to provide for statewide standards for optional local enforcement to safeguard life and property from the hazards of fire or explosion arising from the improper maintenance of life safety and fire prevention and protection materials, devices, systems and structures, and the unsafe storage, handling, and use of substances, materials and devices, including explosives and blasting agents, wherever located.

- D. F-101.4. Validity: To the extent that any provisions of the SFPC or the referenced codes or standards are not within the scope of this chapter, those provisions are considered to be invalid. When any provision of the SFPC is found to be in conflict with the USBC, OSHA, or statute, that provision of the SFPC shall become invalid.
- E. F-101.5. Local regulations: Any local governing body may adopt fire prevention regulations that are more restrictive or more extensive in scope than the SFPC provided such regulations are not more restrictive than the USBC and do not affect the manner of construction or materials to be used in the erection, alteration, repair, or use of a building or structure.
- F. F-101.6. Exemption: Farm structures not used for residential purposes are exempt from the SFPC.

Exception: Inspections or reinspections of farm buildings, structures, property, or premises under search warrants issued pursuant to § 27-98.2 of the Code of Virginia are not exempt from the SFPC. When they are based upon a demonstration that, for the protection of life and property from the hazards of fire or explosion, the alleged unsafe storage, handling and use of substances, materials and devices, including explosives and blasting agents, are probably occurring on such premises.

13 VAC 5-51-21. Section F-102.0. Applicability.

- A. F-102.1. General: The provisions of the SFPC shall apply to all matters affecting or relating to structures, processes and premises as set forth in Section F-101.0. The SFPC shall supersede any fire prevention regulations previously adopted by a local government or other political subdivision.
- B. F-102.2. Application to pre-1973 structures: Structures constructed prior to the USBC (1973) shall comply with the maintenance requirements of the SFPC to the extent that equipment, systems, devices, and safeguards which were required, provided and approved when constructed shall be maintained. Such structures, if subject to the state fire and public building regulations (Virginia Public Building Safety Regulations, VR 394-01-05) in effect prior to March 31, 1986, shall also be maintained in accordance with those regulations.
- C. F-102.3. Application to post-1973 structures: Structures constructed under any edition of the USBC shall comply with the maintenance requirements of the SFPC to the extent that equipment, systems, devices, and safeguards which were required, provided and approved when constructed shall be maintained.
- D. F-102.4. Subsequent alteration: Subsequent alteration, enlargement, repair, or conversion of the occupancy classification of structures shall be subject to the current USBC.
 - E. F-102.5. State structures: The SFPC shall be applicable to all state-owned structures.
- F. F-102.6. Relationship to USBC: Construction inspections of structures, other than state-owned structures, and the review and approval of their construction documents for enforcement of the USBC shall be the sole responsibility of the local building department.
- G. F-102.7. Existing structures: Upon the completion of structures, responsibility for fire safety protection shall pass to the local fire code official or to the State Fire Marshal, who shall also have the authority, in cooperation with any local governing body, to enforce this code. The State Fire Marshal shall also have authority to enforce this code in those jurisdictions in which the local governments do not enforce this code.

H. F-102.8. Inspections for USBC requirements: The fire code official shall require that existing structures subject to the requirements of the USBC subsections 3402.3, 3402.4, 3402.5, 3402.6, 3402.6, 3402.6, 3402.7, 3402.10, 3402.12, 3402.13, 3402.14 and 3402.15 comply with the provisions of those subsections.

- C. F-103.2. Amendments: All requirements of the referenced codes and standards that relate to fees, permits, certification of fitness, unsafe notices, unsafe conditions, maintenance, disputes, condemnation, inspections, existing structures, certification of compliance, approval of construction documents and all other procedural, administrative and enforcement matters are deleted and replaced by the provisions of Chapter 1 of the SFPC. The purpose of this provision is to eliminate overlap, conflict and duplication by providing a single standard for administration and enforcement of the SFPC.
- D. F-103.2.1. Other amendments: The SFPC contains provisions adopted by the Virginia Board of Housing and Community Development (BHCD), some of which delete, change or amend provisions of the BNFPC and referenced standards. Note: The BNFPC and its referenced standards contain some areas of regulation outside of the scope of the SFPC, as established by the BHCD and under state law. Where conflicts have been readily noted, changes have been made to the BNFPC and its referenced standards to bring it within the scope of authority; however, in some areas, judgment will have to be made as to whether the provisions of the BNFPC and its referenced standards are fully applicable.

- A. F-104.1. Local enforcement: Any local governing body shall be permitted to enforce the SFPC following official action by such body. The fire code official is permitted to submit, subsequent to performing such inspection, his findings and recommendations, including a list of corrective actions necessary to ensure that such structure is reasonably safe from the hazards of fire, to the appropriate official of such agency, commission, or institution and the State Fire Marshal. Such agency, commission or institution shall notify, within 60 days of receipt of such findings and recommendations, the State Fire Marshal and the fire code official of the corrective measures taken to eliminate the hazards reported by the fire code official. The State Fire Marshal shall have the same power in the enforcement of this section as is provided for in § 27-98 of the Code of Virginia. The State Fire Marshal may enter into an agreement as is provided for in § 36-139.4 of the Code of Virginia with any local enforcement agency that enforces the SFPC to enforce this section and to take immediate enforcement action upon verification of a complaint of an imminent hazard such as a chained or blocked exit door, improper storage of flammable liquids, use of decorative materials, and overcrowding.
