### Cost Benefit Analysis

Complete Tables 1a and 1b for all regulatory actions. You do not need to complete Table 1c if the regulatory action is required by state statute or federal statute or regulation and leaves no discretion in its implementation.

Table 1a should provide analysis for the regulatory approach you are taking. Table 1b should provide analysis for the approach of leaving the current regulations intact (i.e., no further change is implemented). Table 1c should provide analysis for at least one alternative approach. You should not limit yourself to one alternative, however, and can add additional charts as needed.

Report both direct and indirect costs and benefits that can be monetized in Boxes 1 and 2. Report direct and indirect costs and benefits that cannot be monetized in Box 4. See the ORM Regulatory Economic Analysis Manual for additional guidance.

**Table 1a: Costs and Benefits of the Proposed Changes (Primary Option)**

(1) Direct & Indirect Costs & Benefits (Monetized)	There are no monetizable direct or indirect costs or benefits as a result of the proposed regulatory changes.	
(2) Present Monetized Values	Direct & Indirect Costs	Direct & Indirect Benefits
	(a)	(b)
(3) Net Monetized Benefit		
(4) Other Costs & Benefits (Non-Monetized)	Non-monetized direct benefits of the changes include added clarity for regulated entities through the removal of the Documents Incorporated by Reference (DIBR), elimination of redundant and unnecessary text, and other updating and streamlining edits. Including the DIBR in the terms of the land use permit instead of the regulation will ensure that regulated entities are provided with only the documents that are relevant to their projects and that the most updated version of the documents are being used. This provides an indirect benefit to VDOT as it will help ensure projects in the state highway right-of-way follow the correct standards and specifications.

**Table 1b: Costs and Benefits under the Status Quo (No change to the regulation)**

(1) Direct & Indirect Costs & Benefits (Monetized)	There are no monetizable direct or indirect costs or benefits as a result of the keeping the regulation as-is.	
(2) Present Monetized Values	Direct & Indirect Costs	Direct & Indirect Benefits
	(a)	(b)
(3) Net Monetized Benefit		
(4) Other Costs & Benefits (Non-Monetized)	The non-monetizable direct cost of the status quo regulation is that it does not provide clarity for regulated entities regarding the areas where amendments are proposed.
