## Summary

Please provide a brief summary of all regulatory changes, including the rationale behind such changes. Alert the reader to all substantive matters or changes. If applicable, generally describe the existing regulation.

Chapter 527 of the 2006 Acts of Assembly added § 15.2-2222.1 to the Code of Virginia. The chapter established procedures by which localities submit proposals that will affect the state-controlled transportation network to the Virginia Department of Transportation (VDOT) for review and comment. The chapter also directed VDOT to promulgate regulations to carry out the provisions of the statute. The intent of the statute is to improve the manner in which land use and transportation planning decisions are coordinated and executed throughout the Commonwealth by establishing standardized methodologies (definitions, analytical methods, etc.) and procedures for analyzing transportation impacts.

The final regulation, Traffic Impact Analysis Regulations (24 VAC 30-155), which was exempt from the requirements of the Administrative Process Act (APA) through July 1, 2007, set forth procedures and requirements governing VDOT's review of and submission of comments regarding comprehensive plans and amendments to comprehensive plans, rezoning proposals, and subdivision plats, site plans and plans of development and the accompanying traffic impact statements. The regulation also identified when such comprehensive plans and amendments to comprehensive plans, rezoning proposals, and subdivision plats, site plans and plans of development must be submitted, and the documents and information which must be submitted to VDOT to facilitate the required review and VDOT's provision of

comments. The regulation further establishes the scope and nature of the review and a schedule of fees to be paid upon submission of a proposal to VDOT for review.

The 2007 General Assembly enacted Chapter 792, which made additional changes to § 15.2-2222.1. These included a provision concerning how localities may proceed if VDOT provides no comments, a provision allowing phased implementation of the regulation, and an extension of the APA exemption until July 1, 2008. The final regulation was published in Volume 23, Issue 18 of *The Virginia Register* on May 14, 2007. VDOT has made changes to the regulation based on public comments.

## Statement of final agency action

Please provide a statement of the final action taken by the agency including (1) the date the action was taken, (2) the name of the agency taking the action, and (3) the title of the regulation.

On June 30, 2008, VDOT approved the revised Traffic Impact Analysis Regulations (24 VAC 30-155).

## **Family impact**

Assess the impact of this regulatory action on the institution of the family and family stability.

Improving the coordination between land-use and transportation planning will have a positive impact on the institution of the family and family stability. The amendments will improve the clarity and effectiveness of the regulation in assisting policymakers and the public to make informed land-use and transportation decisions that promote enhanced quality of life for all Virginians.
