MEMORANDUM

TO: Jo Anne P. Maxwell  
Director, Governance and Legislative Affairs Division

FROM: Chandra D. Lantz  
Senior Assistant Attorney General and Section Chief

DATE: December 28, 2023

SUBJECT: Periodic Review of Access Management Regulations, 24 VAC 30-73

In my capacity as legal counsel for the Virginia Department of Transportation (VDOT) and the Commonwealth Transportation Board, it is my legal opinion that the Access Management Regulations does not appear, on its face, to conflict with the Constitution of the United States or the Constitution of the Commonwealth of Virginia, nor does it appear to conflict with federal or state law currently in effect.

Virginia Code § 33.2-210 provides that the Commonwealth Transportation Board has the power and duty to make regulations that are not in conflict with the laws of the Commonwealth for the protection of and covering traffic on and for the use of systems of state highways and shall have the authority to add to, amend, or repeal such regulations. Further, Virginia Code § 33.2-245 states that the Commissioner of Highways shall develop and implement comprehensive highway access management standards for managing access to and preserving and improving the efficient operation of the systems of state highways. The comprehensive highway access management standards shall include standards and guidelines for the location, number, spacing, and design of entrances, median openings, turn lanes, street intersections, traffic signals, and interchanges.

Further, Virginia Code § 2.2-4002(B)(4) states that this regulatory action is exempt from the Administrative Process Act. This memorandum addresses legal matters only and is not intended as a comment for or against the merits of the proposed regulations.
