**Cost Benefit Analysis**

Complete Tables 1a and 1b for all regulatory actions. You do not need to complete Table 1c if the regulatory action is required by state statute or federal statute or regulation and leaves no discretion in its implementation.

Table 1a should provide analysis for the regulatory approach you are taking. Table 1b should provide analysis for the approach of leaving the current regulations intact (i.e., no further change is implemented). Table 1c should provide analysis for at least one alternative approach. You should not limit yourself to one alternative, however, and can add additional charts as needed.

Report both direct and indirect costs and benefits that can be monetized in Boxes 1 and 2. Report direct and indirect costs and benefits that cannot be monetized in Box 4. See the ORM Regulatory Economic Analysis Manual for additional guidance.

**Table 1a: Costs and Benefits of the Proposed Changes (Primary Option)**

(1) Direct & Indirect Costs & Benefits (Monetized)	<p>On July 25, 2024, the Board of Education voted to remove the documents that are the subject of this forum from its list of guidance documents that the agency certifies as currently operative and makes available for public inspection on the Virginia Town Hall. This will ensure that the Board's guidance is accurate and up-to-date and will also avoid confusion about how statutes and regulations are interpreted and implemented. The determination is that the "Career and Technical Work-Based Learning Guide" and the "Virginia Community School Framework" do not meet the definition of a guidance document under § 2.2-4101.</p> <p>There are no know direct or indirect costs or benefits. This action is removing the designation of “guidance documents” from these documents.</p>
