**Cost Benefit Analysis**

Complete Tables 1a and 1b for all regulatory actions. You do not need to complete Table 1c if the regulatory action is required by state statute or federal statute or regulation and leaves no discretion in its implementation.

Table 1a should provide analysis for the regulatory approach you are taking. Table 1b should provide analysis for the approach of leaving the current regulations intact (i.e., no further change is implemented). Table 1c should provide analysis for at least one alternative approach. You should not limit yourself to one alternative, however, and can add additional charts as needed.

Report both direct and indirect costs and benefits that can be monetized in Boxes 1 and 2. Report direct and indirect costs and benefits that cannot be monetized in Box 4. See the ORM Regulatory Economic Analysis Manual for additional guidance.

**Table 1a: Costs and Benefits of the Proposed Changes (Primary Option)**

(1) Direct & Indirect Costs & Benefits (Monetized)	There is only one substantive change to this guidance document, which is on the second bullet point, adding the language “or a permit holder ceasing sedation services at a specified location.” This language was added to the regulations of the Board in the recent fast track action and is now being added to the guidance document. Aside from that change, a few references to regulation are being updated. There are no direct or indirect costs or benefits associated with this action.	
(2) Present Monetized Values	Direct & Indirect Costs	Direct & Indirect Benefits
