### Scenario I—Center Based Services

If you are a physical therapist who is providing a group treatment session in a center-based environment, you will bill T1026 without a modifier. If you are a physical therapist providing an individual treatment session in a center-based environment, you will bill then bill T1026 with the U1 modifier because individual services are paid at a higher rate than group services.

### Scenario II—Treatment Team

If you are a provider of developmental services (Reimbursement Category 2) participating in an IFSP team meeting with the family and child present, you would bill T1024 without the U1 modifier. If you are a physical therapist (Reimbursement Category 1) participating in a treatment team meeting with the family and child present, you would bill T1024 with the U1 modifier.
