Cost Benefit Analysis

Complete Tables 1a and 1b for all regulatory actions. You do not need to complete Table 1c if the regulatory action is required by state statute or federal statute or regulation and leaves no discretion in its implementation.

Table 1a should provide analysis for the regulatory approach you are taking. Table 1b should provide analysis for the approach of leaving the current regulations intact (i.e., no further change is implemented). Table 1c should provide analysis for at least one alternative approach. You should not limit yourself to one alternative, however, and can add additional charts as needed.

Report both direct and indirect costs and benefits that can be monetized in Boxes 1 and 2. Report direct and indirect costs and benefits that cannot be monetized in Box 4. See the ORM Regulatory Economic Analysis Manual for additional guidance.

Impact on Local Partners

Use this chart to describe impacts on local partners. See Part 8 of the ORM Cost Impact Analysis Guidance for additional guidance.

Table 2: Impact on Local Partners

(1) Direct & Indirect Costs & Benefits (Monetized)	<p>The regulations governing school activity funds as outlined in 8VAC20-240 contain several provisions that directly impact local school boards and their administrative responsibilities. These rules are significant because they define the scope of management and oversight required for funds generated from various school activities.</p> <p>Local school boards are directly responsible for the implementation and oversight of these regulations. Costs may include administrative expenses, financial oversight, bonding of employees, training, and audit expenses. Benefits include enhanced accountability, improved management of resources, and compliance with federal and state laws, ultimately supporting the educational environment.</p> <p>This regulation provides a structured framework for managing school activity funds, ensuring that they are handled responsibly and transparently. The impact on local partners, especially in terms of administrative responsibility and financial oversight, is significant but necessary for maintaining the trust and efficiency required in educational finance management.</p>

It delineates responsibilities for record-keeping, auditing, and administrative control over these funds.</p> <p>Chapter 240 governs how schools manage funds derived from student activities that are entrusted to public care. These regulations support public transparency.</p>
