

<p>Minutes and email addresses</p>	<p>The minutes from the April meeting were reviewed and accepted without changes. Andi Wright stated that emails regarding notification of the May meeting and attachments, scheduled to be held in Charlottesville were not received by all members. Phone conversations with Dr. Aboutanos, Len Weirieter and Maggie Griffen’s administrative staff confirmed that they did not receive the information. Paul Sharp has not responded although several email attempts have been made. Andi asked that each member review and revise email information on the list being circulated. She is working with Carilion IT staff to determine if firewalls are causing the problem. Morris Reece recommended sending an appointment for the next meeting so that confirmation can be obtained.</p>	<p>Andi Wright</p>
<p>Shared Google Folder</p> <p>Mission and Vision Statements</p> <p>Values Defined</p> <p>Draft of Proposal for state trauma committee restructure</p>	<p>Maggie Griffen worked on creating the Google shared folder. The group discussed having a shared folder established by the OEMS that could contain individual folders for each workgroup. Cam and Gary will work with their staff to explore further.</p> <p>The Mission and Vision statements were read.</p> <p>The list of definitions of our values was reviewed and accepted. There were two remaining values that still needed definitions – Equitable and Respectful Communication. They were defined by the group.</p> <p>Equitable: All citizens and visitors should have equal access to quality care in the Commonwealth of Virginia.</p> <p>Respectful Communication: Opinions, feelings and attitudes will be expressed honestly and in a way that respects the rights of others.</p> <p>Andi Wright provided a draft. The group reviewed and revised the document. Questions about the existing reporting structure were answered by Gary Brown, who provided a brief organizational chart depicting this on a flip chart. The group discussed strengthening the language to reflect ACS recommendations as well as the mission, vision and values of the Trauma System. (attached). The group agreed that further development of the document is needed.</p>	<p>Dr. Griffen/Andi Wright/Cam</p>
