#### CONFIDENTIAL CONSENT AGREEMENTS

Virginia Code § 54.1-2400(14) authorizes the health regulatory boards to resolve certain allegations of practitioner misconduct by means of a Confidential Consent Agreement ("CCA"). This agreement may be used by a board in lieu of public discipline, but only in cases involving minor misconduct and non-practice related infractions, where there is little or no injury to a patient or the public, and little likelihood of repetition by the practitioner.

A CCA shall not be used if the board determines there is probable cause to believe the practitioner has (i) demonstrated gross negligence or intentional misconduct in the care of patients or (ii) conducted his/her practice in such a manner as to be a danger to the health and welfare of patients or the public.

A CCA shall be considered neither a notice nor an order of a health regulatory board, both of which are public documents. The acceptance and content of a CCA shall not be disclosed by either the board or the practitioner who is the subject of the agreement.

A CCA may be offered and accepted at any time prior to the issuance of a notice of informal conference by the board. By law, the agreement document must include findings of fact and may include an admission or a finding of a violation. A CCA may be considered by the board in future disciplinary proceedings. A practitioner may only enter into two confidential consent agreements involving a standard of care violation within a 10-year period. The practitioner shall receive public discipline for any subsequent violation within the 10-year period following the entry of two CCAs unless the board finds that there are sufficient facts and circumstances to rebut the presumption that such further disciplinary action should be made public.

# Violations of regulation or statute that may qualify for resolution by a Confidential Consent Agreement include, but are not limited to:

- Inadvertent HIPAA/confidentiality violation
- Exceeding scope of referral (i.e. number of treatments)
- First violation regarding continued competency (see Guidance Document 112-22)
- First violation of advertising regulations

## **Procedures for Auditing Continued Competency Requirements**

The Board of Physical Therapy may audit a random sample of licensees to investigate compliance with the Board's continuing competency requirements and active practice requirements. The Board may also audit active licensees, who by terms of a Confidential Consent Agreement ("CCA") or a Pre-Hearing Consent Order ("PHCO"), are required to take continuing education ("CE") courses in addition to the continued competency requirements for renewal of a license.

- 1. Board staff reviews each audit report and either:
  - a. Sends an acknowledgement letter of fulfillment of the continuing competency requirements and active practice requirements, or
  - b. Opens a case for probable cause.
- 2. Once a case is opened for probable cause, Board staff may:
  - a. Issue a CCA if the licensee was truthful in responding to the renewal attestation and the licensee has not previously been found in violation of CE or active practice requirements. For those licensees who fail to meet the CE requirements, the CCA may require the licensee to submit proof of completion of the missing contract hours(s) within 90 days of the effective date of the CCA. Such contact hours cannot be used toward fulfillment of the next biennial CE requirement for renewal; or
  - b. Issue a PHCO if the licensee was not truthful in responding to the renewal attestation or the licensee has previously been found in violation of CE or active practice requirements. The following sanctions may apply:
    - (i) Monetary Penalty of \$100 per missing contact hour, up to a maximum of \$1,000;
    - (ii) Monetary Penalty of \$300 for a fraudulent renewal certification; and
    - (iii) For those licensees who fail to meet the CE requirements, submission of proof of completion of the missing contact hour(s) within 90 days of Order entry. These contact hours cannot be used toward the next biennial requirement for renewal.
  - 3. The case will be referred to an informal fact-finding conference if the licensee:

- a. Fails to respond to the audit or does not wish to sign the CCA or PHCO that is offered; or
- b. Has previously been disciplined pursuant to a Board Order for not meeting the CE requirements.
