### Purpose:

To comply with federal law for transmittal of adverse action reports to The Data Bank (per Title IV, Public Law 99-660, the Health Care Quality Improvement Act of 1986), as amended; and Section 1128E of the Social Security Act, as amended by Sec 221(a) of Public Law 104-191, the Health Insurance Portability Act of 1996 which require state agencies that license health care practitioners to report disciplinary actions and adverse actions against all health care practitioners within thirty (30) days.

### Background:

1. Title IV requires state boards of medicine and dentistry to report to the NPDB all adverse licensure actions on physicians and dentists, and professional competence or conduct, within 30 days. Actions to be reported include suspension, revocation, censure, reprimand, probation and surrender.

2. Section 1921 of the Social Security Act expanded information to be reported to the NPDB, and who must report it. Under Section 1921, state agencies that license health care practitioners must report adverse state licensure actions taken against ALL health care practitioners, not just physicians and dentists, as well as negative actions or findings by state licensing authorities. State licensure action taken as a result of informal and formal administrative proceedings are reportable to NPDB and include:

- Any adverse action, including revocation or suspension of a license, reprimand, censure or probation;
- Any dismissal or closure of the proceedings by reason of the practitioner surrendering the license or leaving the state of jurisdiction;
- Any other loss of the license, whether by operation of law, voluntary surrender (excluding those due to non-payment of licensure renewal fees, retirement or change to inactive status); or
- Any negative action or finding that is publicly available information.

3. Section 1128E of the Social Security Act requires state licensing agencies to report to the HIPDB any health care related criminal convictions and state licensure and certification actions.

4. Actions taken by the agency against health care practitioners may be reportable to both the NPDB and HIPDB.

5. Section 6403 of the Patient Protection and Affordable Care Act (ACA) which was signed into law on March 23, 2010, required that the duplication between the NPDB and the HIPDB be eliminated. On May 6, 2013, the NPDB, Section 1921 NPDB and the HIPDB merged and became known as The Data Bank.
