MINUTES

BOARD OF DENTISTRY
EXAMINATION COMMITTEE
August 10, 2018

TIME AND PLACE: The Examination Committee convened on August 10, 2018, at 1:06 p.m., at the Department of Health Professions, Perimeter Center, 2nd Floor Conference Center, 9960 Mayland Drive, Henrico, VA 23233.

PRESIDING: James D. Watkins, D.D.S.

MEMBERS PRESENT: Jamilah Dawson, D.D.S.
Patricia B. Bonwell, R.D.H., PhD
Tonya A. Parris-Wilkins, D.D.S.

MEMBER ABSENT: Nathaniel C. Bryant, D.D.S.
Carol R. Russek, J.D.

STAFF PRESENT: Sandra K. Reen, Executive Director
Kelley W. Palmatier, Deputy Executive Director
Sheila Beard, Executive Assistant

BOARD COUNSEL PRESENT: James E. Rutkowski, Assistant Attorney General

ESTABLISHMENT OF A QUORUM: With three members of the Committee present, a quorum was established.

PUBLIC COMMENT: There were no public comments.

APPROVAL OF MINUTES: Dr. Watkins asked if the Committee members had reviewed the February 2, 2018 minutes and asked if there were any corrections needed. Dr. Bonwell moved to accept the minutes presented. The motion was seconded and passed.

DISCUSSION: Letter from JCNDE - The letter included in the agenda package from JCNDE was accepted for informational purposes.

MINUTES

BOARD OF DENTISTRY
EXAMINATION COMMITTEE
August 10, 2018

TIME AND PLACE: The Examination Committee convened on August 10, 2018, at 1:06 p.m.,
at the Department of Health Professions, Perimeter Center, 2nd Floor
Conference Center, 9960 Mayland Drive, Henrico, VA 23233.

PRESIDING: James D. Watkins, D.D.S.

MEMBERS PRESENT: Jamiah Dawson, D.D.S.
Patricia B. Bonwell, R.D.H., PhD
Tonya A. Parris-Wilkins, D.D.S.

MEMBER ABSENT: Nathaniel C. Bryant, D.D.S.
Carol R. Russek, J.D.

STAFF PRESENT: Sandra K. Reen, Executive Director
Kelley W. Palmatier, Deputy Executive Director
Sheila Beard, Executive Assistant

BOARD COUNSEL PRESENT: James E. Rutkowski, Assistant Attorney General

ESTABLISHMENT OF A QUORUM: With three members of the Committee present, a quorum was established.

PUBLIC COMMENT: There were no public comments.

APPROVAL OF MINUTES: Dr. Watkins asked if the Committee members had reviewed the February 2,
2018 minutes and asked if there were any corrections needed. Dr. Bonwell moved to accept the minutes presented. The motion was seconded and passed.

DISCUSSION: Letter from JCNDE - The letter included in the agenda package from JCNDE
was accepted for informational purposes.
Acceptance of Clinical Examinations

**ADHA** - Dr. Bonwell acknowledged the letter included in the agenda package and shared the information presented at the recent SRTA meeting. Extensive conversation went forth surrounding ADHA’s support to eliminate clinical exams.

**ADEA** - Ms. Reen informed the Committee that this matter continues to come before the Board and should be addressed by the Committee. Ms. Reen stated when licensing by credentials the Board must be aware what will be good for Virginia. The information for ADHA and ADEA will be added to the September Board Meeting package.

**Acceptance of Regional Exams** - Ms. Reen informed the Committee that it must review the examinations of all the regional testing agencies and recommend to the Board which examinations are acceptable. Ms. Reen stated there are inconsistencies between regional exams and how results are reported, which seem to change year to year. Currently, the prosthodontics section of the WREB exam is optional and is a required section of all other regional exams. There is a concern that many applicants are applying with no intention to practice in Virginia.

Dr. Watkins asked if it would be beneficial for a Board representative to be part of each exam agency in order to keep up with the changes that take place.

Ms. Reen informed the Committee that Guidance Document 60-25, as currently written, cannot be enforced. Ms. Reen suggested that consideration should be given to possibly accepting ADEX exams only and that the Board put a new policy in place. The Board can make changes to this Guidance Document in September. Mr. Rutkowski reminded the Committee that guidance documents are not enforceable as law and recommended a regulatory change. Ms. Reen stated the Board can choose to adopt a fast-track regulatory action at the September Board meeting.

Dr. Dawson made a motion to change Guidance Document 60-25 to read “All examinations taken after January 1, 2019 must include, at a minimum, sections on Endodontics; Prosthodontics; operative dentistry consisting of a Posterior Class II and Anterior Class III restorations; and Periodontal” for dental licensure applicants by examination or credentials. This motion was seconded by Dr. Bonwell and passed.

Dr. Bonwell made a motion to adopt a regulatory action to change the policy for exam acceptance under the section of licensure by examinations and credentials.

The next Exam Committee meeting is being considered for September 13, 2018.

**ADJOURNMENT:** With all business concluded, the meeting adjourned at 2:54pm

* As of Jan. 2014, CITA now administers ADEX

** As of June 2015, SRTA no longer administers ADEX

(1) AL - The Board will accept WREB as long as it includes or has been supplemented by a live-patient prosthodontic case and a mannequin prosthodontic exam for a fixed prosthesis.

(2) CO - The Board accepts all U.S. clinical examinations that provide adequate assurance of competency and safety to practice for licensure candidates, which currently include the exams developed by ADEX and administered by CDCA and CITA; and the exams developed and administered by Delaware, CRDTS, SRTA, and WREB. All parts of a clinical examination are required to be successfully completed and no part of an examination is considered optional for purposes of Colorado licensure. Periodontal testing for dentists is required, as are other exam components that may be made optional by testing agencies or other state boards. The Board also accepts successful completion of a PGY-1, portfolio, or OSCE requirement in lieu of a clinical examination for dentists. Dentists submitting successful completion of a PGY-1 or portfolio model for consideration are required to be first licensed in the state/jurisdiction where the PGY-1 or portfolio was completed, or in another jurisdiction where a state board has reviewed and accepted it towards licensure before applying for licensure in Colorado.

(3) NH - The Board will not accept the 2016 WREB exam.

(3) RI - SRTA not accepted after August, 2016

(4) SD - Currently no change, however the Board is undergoing updates to administrative rules and this fall will be accepting additional exams if those rules pass.

Dental Exam Description

Dental General Information

The dental licensure examination administered by the Southern Regional Testing Agency, Inc. (SRTA), evaluates clinical performance skills. The examination provides reliable clinical skills assessment for use by state boards in making licensing decisions. The examination in dental consists of three required sections and one optional section:

Two simulated clinical examinations performed on manikins

- Endodontic Clinical Examination Section
- Fixed Prosthodontic Clinical Examination Section

Two clinical examinations performed on patients

- Restorative Clinical Examination Section, Anterior and Posterior
- Periodontal Scaling Clinical Examination Section (optional, based on the requirements in the state where the candidate seeks licensure)

Note: For licensure in Wyoming, slot prep is not acceptable.

Each section is judged by specific criteria and scored on a "Pass/Fail" basis. Successful completion of a section is contingent on a passing score of 75 or more of the specified criteria in any and all procedures within that section. Successful completion of the examination requires passing all three (or four if taking Periodontal) sections. The clinical examination is given in an open format. Candidates may perform the clinical procedures as they wish, providing the guidelines for each procedure as outlined in the Dental Candidate Manual are followed.

The technical procedures, as well as the specific materials used in the restorative Dentistry examinations shall be the candidate's own choice. Satisfactory patient treatment is the criterion for acceptance or rejection of any method, procedure or material used. The Southern Regional Testing Agency examines candidates with varying education backgrounds. Because universities teach different preparations, SRTA does not look for one type of standard preparation.

The examiners at all sites are experienced practitioners with diverse backgrounds. The examiners are trained and standardized prior to each examination and are evaluated to assure grading to established criteria. The examiners are separated from the candidates and will remain in the "Evaluation Area" of the clinic. The candidates must observe all signs and follow instructions so as to not breach anonymity. Anonymity is preserved between the scoring examiners and the candidates, but not among the examiners themselves. Examiners may consult with one another whenever necessary. There are times when fairness requires consultation between examiners.

Each candidate must furnish all patients, necessary materials and instruments including high and slow speed handpieces. Patients must be at least 14 years of age. A parent or guardian must be available in the waiting area during treatment and provide written consent for minors under the age of 18.

On day one of the examination, candidates taking the complete examination are required to register prior to orientation and are expected to attend the orientation session/presentation when specific instructions for the exam will be given. An opportunity for questions and answers will be provided after the presentation is completed. Only candidates registered for the examination are permitted to attend the orientation session. Please direct your assistant and/or patients either to the clinical or waiting area. Candidates failing to attend the orientation session will not be given separate instructions.

Our Mission
SRTA will continue to provide valid, reliable, legally defensible examinations and results while striving to implement new testing methodologies in a candidate friendly environment for the next generation of dental professionals.
Final acceptance of candidates for the examination is contingent upon being a graduate of an American or Canadian Dental College accredited by the American Dental Association Commission on Dental Accreditation.

Candidates who have not formally graduated from their university are required to secure certification from their Dean stating:

1. The candidate is eligible and qualifies for the D.D.S. or D.M.D. degree requirements.
2. The candidate will complete the D.D.S. or D.M.D. degree requirements within eighteen months of the examination date.
3. This certification must be in the form of a letter from the Dean submitted with the application or provided to SRTA by the Dean prior to the receipt of the candidate’s application.

Candidates who graduated from a school outside of the United States and Canada may apply and be considered for the “alternate only” status, pending receipt of the appropriate state authorization. The candidate must furnish a letter from the State Board of Dentistry that accepts the results of this examination. This letter should indicate that the candidate is eligible for licensure in that state upon successful completion of the examination. In addition, a copy of the candidate’s diploma with an English translation must be provided.

Application Process

The online application was developed for the candidate’s convenience. To apply online, go to http://www.srta.org/, and click the “Apply Online” link to connect to a secure website that requires the candidate’s contact and school information. Gathering all required items prior to starting the online application will save significant time. Applicants will need:

- A recent digital headshot of close proximity to the candidate is required for the online application. Candidates should be clearly distinguishable, as the photo will be printed on the candidate admission card. Photos must be in one of the following formats: JPG, GIF, or PNG.
- A digital copy of current and valid CPR certification is required. Valid certification is defined as a “hands-on” training program that provides an assessment of cognitive skills and skills acquired via classroom training. A minimum of Basic CPR skills is required. Classes provided solely by Internet instruction are not acceptable.
- A copy of the candidate’s diploma from a CDCA-accredited dental hygiene program must be provided in order for the profile to be valid. This document can be uploaded into the profile, faxed, or emailed to the SRTA office. Candidates who have not formally graduated from their dental hygiene program are required to secure certification from their Dean or Program Director stating:
  - The candidate is eligible and in the last semester of the graduation requirements.
  - The candidate will complete the graduation requirements within twelve months of the examination date.
  - The candidate has successfully completed local anesthesia requirements, (only if the candidate plans to personally administer local anesthesia). This should include whether the candidate has been trained in infiltration techniques only or in both block and infiltration.

SRTA accepts VISA and MasterCard only. No International credit/debit cards will be accepted. Debit cards may be used if allowable by the issuing bank and if they bear the VISA or MasterCard logo. The total payment will include the site-specific fee as well as the examination fee. All payments are drawn immediately and must be paid in full. Failure to pay the application fee and facility fee at the time of application will forfeit the applicant’s ability to sit for the examination. The Veterans Administration has approved the cost of the SRTA Dental Hygiene Examination for reimbursement. Contact the regional Veterans Affairs/Veterana Education Office to obtain the proper forms.

After the candidate has completed the application profile, the following steps will occur:

- The application profile is complete and accepted by “verification.” SRTA personnel will verify the profile only after all required profile information has been entered, uploaded, and received. Profiles without a photo or without CPR cards will not be validated. Please allow between 3 – 5 days for verification. Only after a candidate’s profile has been verified can he/she apply for an examination. With the exception of password changes, all profile changes will automatically mark the candidate temporarily invalid and must be verified again.
- Application for the examination: Once all profile information has been uploaded, candidates may apply for examinations. Simply click on the “Apply” tab at the top of the screen to begin the application process. Detailed instructions will be presented based on the available examinations.
- Candidates must visit the “Documents” portion of the secure site to download and complete all required documents. Instructions for each document are on the website. Some documents must be completed and returned to the SRTA office to the examination.
Dental Candidate Manual

Upon successful registration, candidates must download and read the current Dental Candidate Manual. This is the definitive guide to the SRTA examination and contains a complete description of the examination, examination schedule, and instructions. The information at srtaw.org and in all other SRTA publications is intended to only give a broad picture of the SRTA examination and does not fully prepare a candidate to take the examination. Failure to read the candidate's manual may result in examination failure.
2019 Dental Exam Candidate’s Manual

A hardcopy is available by request, by contacting the SRTA office.

Acidental Checkmate Stent Device

Acidental has created a small device to allow candidates to produce more uniformly made stents for the Fixed Prosthodontic section. Please take a look at the video for a demonstration on how the device is used.

Click here for the Accidental Checkmate video

2019 WREB EXAM PROCEDURES

Exam Procedures
The 2019 WREB Dental exam consists of the following required sections: Operative, Endodontics, and Comprehensive Treatment Planning (CTP). The Periodontal section remains part of the exam and is included in the full exam fee, but the Candidate may opt out during registration if the state to which they are applying for initial licensure does not require this procedure. The Periodontal section is not a required section of the WREB exam, but there is no additional fee to take it. An optional Prosthodontic section is also offered, if the state to which a Candidate is applying for initial licensure requires it. The Prosthodontic Section is not a required section of the WREB exam, but there is no additional fee to take it.

WREB candidates come from a large geographical area and a diverse educational background; WREB does not look for any one standard for procedures. Grading Examiners score according to the criteria found in the Candidate Guide. Reading and understanding the scoring criteria will assist you in successfully completing the procedures.

Endodontics
This is a required section and will be completed on simulated teeth. Teeth mounted in sextants and preoperative radiographs will be provided to Candidates by WREB upon arrival in the simulation lab.

Candidates are required to place and maintain the manikin in correct patient treatment position and remain articulated in correct vertical dimension. Universal precautions and a rubber dam are required for all Endodontic treatment. Candidates are allotted three (3) hours to complete their treatment and postoperative radiographs. The sextants and radiographs are then submitted for calibrated examiner scoring to published criteria. Candidates are allotted a thirty (30) minute set up period prior to the start of the exam.

Required Endodontic procedures:
- Anterior– Graded on Access and Condensation
- Posterior– Graded on Access only

Operative
The Operative Section is a WREB required section that is performed on a live patient. The Candidate may complete up to two procedures to demonstrate competence on the Operative Section.

A Class II must be completed to pass the WREB exam:
- Direct Posterior Class II Composite Restoration (MO, DO or MOD)
- Direct Posterior Class II Amalgam Restoration (MO, DO or MOD)
- Indirect Posterior Class II Cast Gold (Inlay/onlay up to and including a ¾ Crown)

A second procedure, if required, may be any of the following:
- Direct Posterior Class II Composite Restoration (MO, DO or MOD)
- Direct Posterior Class II Amalgam Restoration (MO, DO or MOD)
- Indirect Posterior Class II Cast Gold (Inlay/onlay up to and including a ¾ Crown)
- A Direct Anterior Class III Composite Restoration (ML, DL, MF, DF)

If the Candidate is successful, (3.00 or higher), on the first procedure, the section is passed, with no need to complete another procedure. If the first procedure scores below a 3.00, the Candidate may proceed with a second procedure, which will be averaged with the first procedure. For states requiring two Operative procedures, Candidates will have the option to complete a second procedure, even if the first procedure scored above a 3.00. The average of the two procedures must be 3.00 or higher to pass the section. If a second procedure is completed and the average scores below 3.00, the attempt is completed and reported as failing. In this instance, the Candidate must pay to retake the full Operative Exam at a different site. No onsite retakes are available for Operative.

Periodontal
The Periodontal Section consists of Initial Phase Treatment, S/RP, on a live patient, subject to acceptance criteria. Candidates will have the choice to opt out of the Periodontal Section during registration if the state to which they are applying for initial licensure does not require this procedure. It remains part of the WREB exam and candidate results are reported to state dental boards unless the candidate removes it at the time of application.
Comprehensive Treatment Planning (CTP) Exam

The Comprehensive Treatment Planning (CTP) examination is a computer-based written examination administered by Prometric Testing Centers. The exam consists of three (3) patient cases of varying complexity, one of which is a pediatric patient. For each case, Candidates assess patient history, photographs, radiographs, and clinical information.

The Candidate will create and submit a treatment plan, and then answer questions or perform tasks related to each case. Candidates are allowed three (3) hours to complete the CTP exam. A 15-minute tutorial is provided prior to the beginning of the examination.

Once enrolled in an exam, the Candidate will receive information regarding scheduling the CTP exam. This exam will be taken at a Prometric Testing Center in the fall. Candidates will be given a timeframe of approximately 45-60 days to take the exam. Windows are pre-assigned based on the site where the Candidate will take the Clinical Exam.

Orientation Day:
- School Tour
- Candidate Orientation, Q & A
- Candidate packet distribution

Clinic Day 1:
- 1st full clinic day

Clinic Day 2:
- 2nd full clinic day

Clinic Day 3:
- 3rd clinic day, open clinic ends at 11 am
- Retakes for Endodontics and Prosthodontics (exact times will be provided on individual Candidate schedule)

Prosthodontics

This is an optional section. Candidates can choose to opt into the Prosthodontics Section during registration if the state to which they are applying for initial licensure requires this procedure. The Prosthodontics section is not part of the WREB Dental Examination unless the Candidate adds it at the time of application.

The Prosthodontics Section consists of simulated preparation of two abutments to support a posterior three-unit fixed partial denture prosthesis and preparation of an anterior tooth for a full-coverage ceramic crown. The Prosthodontic preparations are completed in a single day during a time slot assigned for this purpose. Candidates are allotted three and one-half (3.5) hours to complete their prosthodontic preparations and are given thirty (30) minutes prior to start of the exam to set up their unit, mount their arches and prepare to begin.

Onsite Retakes

Candidates with a failing result in Endodontics, Prosthodontics, or Periodontal Treatment may have an opportunity to retake the failed section onsite at the same exam. This eligibility will depend on each Candidate’s scheduled sections and individual time constraints. Candidates that have certain critical errors, are dismissed from the exam, or require remediation will not be eligible for an onsite retake. There is no additional fee for an onsite retake. If, for any reason, the section is not retaken onsite, the Candidate must pay to retake the section at a different exam site. Onsite retakes for Endodontics and Prosthodontics are scheduled on Clinic Day 3 only. Onsite retakes for Periodontal treatment may be attempted any time during open clinic time on Clinic Days 2 or 3.
Exam Procedures

The 2020 WREB Dental exam consists of the following required sections: Operative, Endodontics, and Comprehensive Treatment Planning (CTP). The Periodontal section remains part of the exam and is included in the full exam fee but is not a required part of the exam. The Candidate may opt out during registration if the state to which they are applying for initial licensure does not require this procedure. The Periodontal section is not a required section of the WREB exam, but there is no additional fee to take it. An optional Prosthodontic section is also offered, if the state to which a Candidate is applying for initial licensure requires it. The Prosthodontic Section is not a required section of the WREB exam, but there is no additional fee to take it.

WREB Candidates come from a large geographical area and a diverse educational background; WREB does not look for any one standard for procedures. Grading Examiners score according to the criteria found in the Candidate Guide. Reading and understanding the scoring criteria will assist you in successfully completing the procedures.

Orientation Day:
- School Tour
- Candidate Orientation, Q & A
- Candidate packet distribution
- Prosthodontics exam

Clinic Day 1:
- 1st full clinic day
- Endodontics exam
- Prosthodontics exam at some sites

Clinic Day 2:
- 2nd full clinic day
- Endodontics exam
- Prosthodontics exam at some sites

Clinic Day 3:
- 3rd clinic day, open clinic ends at 11 am
- Retakes for Endodontics and Prosthodontics
  (exact times will be provided on individual Candidate schedule)

*Some sites will not offer the Prosthodontics exam on Orientation Day. It will be held on Clinic Days 1 and 2. Refer to the online exam schedule and Site Information for details.

Operative

The Operative Section is a WREB required section that is performed on a live patient, subject to acceptance criteria. The Candidate may complete up to two procedures to demonstrate competence on the Operative Section.

A Class II must be completed to pass the WREB exam:
- Direct Posterior Class II Composite Restoration (MO, DO or MOD)

A second procedure, if required, may be any of the following:
- Direct Posterior Class II Composite Restoration (MO, DO or MOD)
- Direct Posterior Class II Amalgam Restoration (MO, DO or MOD)
- A Direct Anterior Class III Composite Restoration (ML, DL, MF, DF)

If the Candidate is successful, (3.00 or higher), on the first procedure, the section is passed, with no need to complete another procedure. If the first procedure scores below a 3.00, the Candidate may proceed with a second procedure, which will be averaged with the first procedure. For states requiring two Operative procedures, Candidates will have the option to complete a second procedure, even if the first procedure scored above a 3.00. The average of the two procedures must be 3.00 or higher to pass the section. If a second procedure is completed and the average scores below 3.00, the attempt is completed and reported as failing. In this instance, the Candidate must pay to retake the full Operative section at a different site. No onsite retakes are available for Operative.

Periodontal

The Periodontal Section consists of Initial Phase Treatment, S/RP, on a live patient, subject to acceptance criteria. Candidates will have the choice to opt out of the Periodontal Section during registration if the state to which they are applying for initial licensure does not require this procedure.
Comprehensive Treatment Planning (CTP) Exam

The Comprehensive Treatment Planning (CTP) examination is a computer-based written examination administered by Prometric Testing Centers. The exam consists of three (3) patient cases of varying complexity, one of which is a pediatric patient. For each case, Candidates assess patient history, photographs, radiographs, and clinical information.

Candidates will create and submit a treatment plan, and then answer questions or perform tasks related to each case. Candidates are allowed three (3) hours to complete the CTP exam. A 15-minute tutorial is provided prior to the beginning of the examination.

Once enrolled in a clinical exam, the Candidate will receive information regarding scheduling the CTP exam. This exam will be taken at a Prometric Testing Center in the fall. Candidates will be given a timeframe of approximately 45-60 days to take the exam. Windows are pre-assigned based on the site where the Candidate will take the Clinical Exam.

Endodontics

This is a required section and will be completed on simulated teeth. Teeth mounted in sextants and preoperative radiographs will be provided to Candidates by WREB upon arrival in the simulation lab.

Candidates are required to place and maintain the manikin in correct patient treatment position and remain articulated in correct vertical dimension. Universal precautions and a rubber dam are required for all Endodontic treatment. Candidates are allotted three (3) hours to complete their treatment and postoperative radiographs. The sextants and radiographs are then submitted for calibrated examiner scoring to published criteria. Candidates are allotted a thirty (30) minute set up period prior to the start of the exam.

Required Endodontic procedures:
- Anterior-Graded on Access and Condensation
- Posterior-Graded on Access only

Prosthodontics

This is an optional section. Candidates can choose to opt into the Prosthodontic Section during registration if the state to which they are applying for initial licensure requires this procedure. The Prosthodontic section is not part of the WREB Dental Examination unless the Candidate adds it at the time of application.

The Prosthodontic Section consists of simulated preparation of two abutments to support a posterior three-unit fixed partial denture prosthesis and preparation of an anterior tooth for a full-coverage ceramic crown. The Prosthodontic preparations are completed in a single day during a time slot assigned for this purpose. Candidates are allotted three and one-half (3.5) hours to complete their prosthodontic preparations and are given thirty (30) minutes prior to the start of the exam to set up their unit, mount their arches and prepare to begin.

Onsite Retakes

Candidates with a failing result in Endodontics, Prosthodontics, or Periodontal Treatment may have the opportunity to retake the failed section onsite at the same exam. This eligibility will depend on each Candidate’s scheduled sections and individual time constraints. Candidates that have certain critical errors, are dismissed from the exam, or require remediation will not be eligible for an onsite retake. There is no additional fee for an onsite retake. If, for any reason, the section is not retaken onsite, the Candidate must pay to retake the section at a different exam site. Onsite retakes for Endodontics and Prosthodontics are scheduled on Clinic Day 3 only. Onsite retakes for Periodontal treatment may be attempted any time during open clinic time on Clinic Days 2 or 3.

Exam Related Questions

When will my exam scores be released?

Dental and Dental Hygiene Scores are released within 10 business days after the exam. Computer base CSCE) will be posted to your online profile within 5 business days of completion.

Can CITA assist in finding a patient for the exam?

CITA is not responsible for finding patients for candidates. We recommend you get in touch with your scl used for exams or you need to look for an outside patient.

How do I request an official printed score report?

Click here to download the pdf form to fill out and send back to us.

How and when are scores reported?

All scores are reported in your profile. When results are posted, you will receive an automated email info give you your scores over the telephone. Scores are reported to the ADEX online portal every Tuesday online portal to check scores.
Do we need to bring our own water to the exams?

Most schools do not require you to bring water unless it is for drinking purposes. Review the site information to find out what a school provides.

Is sharing my patient with another candidate allowed?

Patients can be shared but is not recommended. The decision of candidates to share patients during the certain inherent risks, certainly one of which is the inability of another candidate to perform their procedure. The first candidate has to place a temporary in their preparation and the second candidate is planning to repair proximal surface. Also note that if you choose to share patients, you are individually responsible for the results.

Registration Questions

When should I register and take the DSE?

The DSE can be taken at any time. Candidates who choose to take it before their senior year should pay to their Candidate Profile that equals the DSE fee. This credit is added after July 1 of the candidate’s D4 year. Their next exam.

How do I register for just the Manikin or Patient part of the exam?

The Manikin exam contains two parts of the full traditional exam. Candidates need to make sure they are registered. Overpayments will follow the CITA refund policy. Click on the apply tab in your profile to begin the registration. Choose individual exams. Choose the Prosthetic part. Click apply. Then do the same process for registering for just the Manikin exam and/or one time for the Patient exam if at the same examination.

When are exam registration deadlines?

Click here to be taken to our Dental and Dental Hygiene Exam Calendar. There you will find all registrants. Non-students can register before the 60 day deadline but they will not after the deadline. Non-students will be notified after the 60 day deadline only if they did not get in the final payment deadline for all candidates.

General Questions

What is the difference between CITA and ADEX?

CITA (The Council of Interstate Testing Agencies) is the name of our organization. ADEX (American Board of Dental Examiners) is the organization that administers the core Dental and Dental Hygiene exams we administer.

Profile Questions

I have two email addresses. What email address should I use when creating my profile?

CITA recommends you use the email address that you check the most. We strongly recommend that you use only one email address.
When will my profile be verified by CITA?

Profiles are reviewed Monday-Friday during business hours. Please allow at least 72 hours after you add to be reviewed. Profiles are verified after the candidate has uploaded all necessary documents and photos.

Do I need to fill out an application form if I am just taking the DSE?

Yes. All candidates must fill out an Qualification form and upload it to their Candidate Profile. See pages Process Manual for step-by-step instructions to guide you.

I started my profile several weeks ago and it still is not verified. Do I need to do anything else to it?

CITA will review each profile for the appropriate picture and documents. Profiles will be verified only after accepted. Complete details about how to register can be found in the Candidates Application Process Manual.

I am an LSU D3 student and have paid for the Manikin exam. What is the extra fee that was assessed?

LSU has asked CITA to collect a facility fee from all of their students at one time. We collect this fee after a typical assessment is with the Manikin section of the exam. This fee needs to be paid no later than the 30 day deadline.

I am a UAB student and see that I was just assessed an extra fee. What is this fee?

UAB has a reduced facility fee for their students: $150 for the Patient Section and $150 for the Manikin Section to the Candidate’s profile within 72 hours of making an online payment. We recommend that all fees are paid however, payment is not due until the 30 day deadline. Please note: Any Candidate who has outstanding deadline are at risk of losing their seat in the exam and all paid fees forfeited.

If I took the exam prior to 2014, do I need an online profile to request a Score Report?

No, you do not need an online profile if you took the exam prior to 2014. You must submit Score Reports notarized.

Hygiene Exam Questions

I’m not sure if my patient’s 3rd molar is fully erupted. How does CITA define fully erupted?

In the Hygiene manual on page 25, the term "Fully erupted" means that the entire occlusal plane of the 3rd molar coincides with the rest of the teeth. Un-erupted, partially erupted – including cases where the distal and supra-erupted 3rd molars are not required to be part of your Case Selection.

I am confused about the 2 extra surfaces assigned by examiners inside my Case Selection. What are we allowed to bring Oraqix to numb our patient?

Yes, you are allowed to use Oraqix to numb your patient.

I know that the molar teeth have to be no more that 2mm apart when choosing my 12 surfaces in some of my anterior teeth to have a little spacing?
There are no specification for spacing between anterior teeth. If all requirements as well as surface requ should not be any issues with the anterior teeth having a little spacing.
Special Announcement

CDCA Advances Technology in Dental OSCE Testing

The Commission on Dental Competency Assessments (CDCA) is introducing high-fidelity item types to the ADEX Dental Skills Examination (DSE) OSCE. The purpose of introducing these new kinds of questions to further enhance the measurement of diagnosis, treatment planning, and other dental knowledge, clinical judgment, skills of licensure candidates. The CDCA anticipates psychometrically validated AITs will appear beside previously evaluated examination questions beginning in early 2020.

The CDCA’s DSE OSCE is the first and continuously maintained, independent, third-party OSCE in dentistry, first computerized from its paper form in 2001. An OSCE is an Objective Structured Clinical Examination, the DSE OSCE is the didactic computerized portion of the five-element American Board of Dental Examiners (ADEX) dental licensure examination. Pilot questions have been a part of every examination given and are integral to the test development process. A thorough evaluation of piloted items leads to valid, reliable and fair examinations for all candidates.

Items in the ADEX DSE OSCE will now include multiple-choice (single response); multiple choice (multiple response), extended match, drop down, fill in the blank, hot spot and drag and drop questions. CDCA Subject matter experts and psychometricians have evaluated AITs, and believe with their inclusion, components of the ADEX blueprint will be presented in a context that adds increased fidelity with respect to the live practice of dentistry. The ADEX Dental Hygiene CSE examination will undergo similar development. AITs facilitate a more thorough evaluation of a licensure candidate’s knowledge, through a demonstration of cognitive reasoning and applied judgments to case scenarios, rather than just identification of a correct choice. They offer the ability to require multiple answers to complex questions and assign scaled points and penalties for less than ideal, but not incorrect, responses.
Founded in 1969, and formerly known as the North East Regional Board of Dental Examiners, the CDCA is committed to serving boards of dentistry by designing and administering assessments that are based on sound principles of testing and measurement. A founding principle, the CDCA remains committed to a national uniform examination process dedicated to the protection of the public.

For more information about AITs, to see examples, and to learn about how the CDCA is working to incorporate them, click here. Questions concerning the utilization of this technology can be addressed to Stephanie Beeler, Multimedia and Communications Specialist at sbeeler@cdcaexams.org.

Diagram of ADEX Dental Licensure components. Full size rendering attached for your use, unmodified.
The ADEX examination series consists of computer simulations and clinical examinations performed on patients and manikins. There are five skill-specific clinical and simulated clinical examinations:

- Diagnostic Skills Exam OSCE (computer-based)
- Endodontic (manikin)
- Prosthodontic (manikin)
- Restorative (patient-based) (anterior & posterior)
- Periodontal (patient-based) (optional, based on state requirements)

For more extensive information please download the Candidate Manual. Candidates should contact the jurisdiction in which they wish to practice to confirm all requirements for licensure in that jurisdiction.

**International Graduates**
Internationally-trained candidates (other than a Canadian graduate) wishing to sit for the ADEX dental examination series administered by CDCA must first contact the state where they wish to practice to verify eligibility. Click here for additional information.

**Examination Fees: Dental (ADEX)**

Full Exam (Manikin, Patient-Based, & Computer-Based) $2,250*

The ADEX examination series consists of computer simulations and clinical examinations performed on patients and manikins. There are five skill-specific clinical and simulated clinical examinations:

- Diagnostic Skills Exam OSCE (computer-based)
- Endodontic (manikin)
- Prosthodontic (manikin)
- Restorative (patient-based) (anterior & posterior)
- Periodontal (patient-based) (optional, based on state requirements)

For more extensive information please download the Candidate Manual. Candidates should contact the jurisdiction in which they wish to practice to confirm all requirements for licensure in that jurisdiction.

Scoring System

The examination scoring system was developed in consultation with three different measurement specialists; the scoring system is criterion-based and was developed on an analytical model. The examination is conjunctive in that its content is divided into separate Parts containing related skill sets and competence must be demonstrated in each one of the Parts. A compensatory scoring system is used within each Part to compute the final score for each Part, as explained below.

Only State Boards of Dentistry are legally authorized to determine standards of competence for licensure in their respective jurisdictions. However, in developing the examination, CRDTS has recommended a score of 75 to be a demonstration of sufficient competence; and participating State Boards of Dentistry have agreed to accept that standard. In order to achieve "CRDTS status" and be eligible for licensure in a participating state, candidates must achieve a score of 75 or more in each Part of the examination.

Each examination score is based on 100 points. **If all sections of an examination are not taken, a score of "0" will be recorded for that specific examination.**

Parts II-V: Scoring System for Manikin and Patient-Based Restorative Procedures

CRDTS and other testing agencies have worked together on a national level to draft and refine the performance criteria for each procedure in this examination. For the majority of those criteria, gradations of competence are described across a 4-level rating scale. Those criteria appear in this manual and are the basis of the scoring system. Those four rating levels may be generally described as follows:

**SATISFACTORY**
The treatment is of good to excellent quality, demonstrating competence in clinical judgment, knowledge and skill. The treatment adheres to accepted mechanical and physiological principles permitting the restoration of the tooth to normal health, form and function.

**MINIMALLY ACCEPTABLE**
The treatment is of acceptable quality, demonstrating competence in clinical judgment, knowledge and skill to be acceptable; however, slight deviations from the mechanical and physiological principles of the satisfactory level exist which do not damage the patient nor significantly shorten the expected life of the restoration.

**MARGINALY SUBSTANDARD**
The treatment is of poor quality, demonstrating a significant degree of incompetence in clinical judgment, knowledge or skill of the mechanical and physiological principles of restorative dentistry, which if left unmodified, will cause damage to the patient or substantially shorten the life of the restoration.

**CRITICALLY DEFICIENT**
The treatment is of unacceptable quality, demonstrating critical areas of incompetence in clinical judgment, knowledge or skill of the mechanical and physiological principles of restorative dentistry. The treatment plan must be altered and additional care provided, possibly temporization in order to sustain the function of the tooth and the patient's oral health and well-being.

In Parts II, III and V, a rating is assigned for each criterion in every procedure by three different examiners evaluating independently. Based on the level at which a criterion is rated by at least two of the three examiners, points may be awarded to the candidate. In any instance that none of the three examiners' ratings are in agreement, the median score is assigned. However, if any criterion is assigned a rating of critically deficient by two or more of the examiners, no points are awarded for that procedure or for the Examination Part, even though other criteria within that procedure may have been rated as satisfactory. A description of Parts II, III and V and the number of criteria that are evaluated for the procedures in each of those Parts appears below:

**PART II: ENDODONTICS EXAMINATION - 100 POINTS**
The Endodontics Examination is a manikin-based examination which consists of two procedures: an access opening on an artificial posterior tooth and an access opening, canal instrumentation and obturation on an artificial anterior tooth. The criteria for these procedures are combined and scored in total:

- Anterior Endodontics/Posterior Access Opening 17 Criteria

**PART III: FIXED PROSTHODONTICS - 100 POINTS**
The Prosthodontics Examination is a manikin-based examination which consists of three procedures completed on artificial teeth: a cast gold crown preparation as a terminal abutment for a 3-unit bridge, a porcelain-fused-to-metal crown preparation as an abutment for a bridge, plus an evaluation of the line of draw for the bridge abutment preparations, and an all ceramic crown preparation on an anterior central incisor.

- Cast Gold Crown 10 Criteria
- Porcelain-Fused-to-Metal Crown Preparation 10 Criteria
- Ceramic Crown Preparation 11 Criteria

**PART V: RESTORATIVE EXAMINATION - 100 POINTS**
The patient-based Restorative Clinical Examination consists of four procedures as specified below; for the posterior procedure, candidates may choose to place a Class II Amalgam or a Posterior Composite:

- Class II Amalgam Preparation 12 Criteria
- Class II Amalgam Restoration 8 Criteria

OR
Central Regional Dental Testing

- Class II Composite Preparation 11 Criteria
- Class II Composite Restoration 8 Criteria*

OR
- Class II Composite Slot Preparation 9 Criteria
- Class II Composite Slot Restoration 8 Criteria*

AND
- Class III Composite Preparation 7 Criteria
- Class III Composite Restoration 9 Criteria*

* 1 category split into 2 for clarity; scored as 1 criteria

To compute the score for each individual procedure, the number of points the candidate has earned for each criterion is totaled, divided by the maximum number of possible points for that procedure and the results are multiplied by 100. This computation converts scores for each procedure to a basis of 100 points. Any penalties that may have been assessed during the treatment process are deducted after the total score for the Examination Part has been converted to a basis of 100 points.

If no critical deficiency has been confirmed by the examiners, the total score for each of Parts II, III and V is computed by adding the number of points that the candidate has earned across all procedures in that Part, and that sum is divided by the number of possible points for all procedures in that Part. If a critical deficiency has been confirmed by the examiners, an automatic failure is recorded for both the procedure and the Examination Part. An example for computing scores that include no critical deficiency is shown below for Part III:

<table>
<thead>
<tr>
<th>PROCEDURE</th>
<th>#CRITERIA</th>
<th>POINTS Earned</th>
<th>POINTS Possible</th>
<th>COMPUTED SCORE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cast Gold Crown Preparation</td>
<td>10 Criteria</td>
<td>30</td>
<td>40</td>
<td>75.00</td>
</tr>
<tr>
<td>Porcelain-Fused-to-Metal Crown</td>
<td>10 Criteria</td>
<td>34</td>
<td>40</td>
<td>85.00</td>
</tr>
<tr>
<td>Ceramic Crown Preparation</td>
<td>11 Criteria</td>
<td>38</td>
<td>44</td>
<td>86.36</td>
</tr>
<tr>
<td>TOTALS for Part III</td>
<td>31 Criteria</td>
<td>102</td>
<td>124</td>
<td>82.25</td>
</tr>
</tbody>
</table>

Although there are three Parts that are scored separately for restorative clinical skills, within each Part a compensatory system is used to compute the final score for that Part, as long as there is no critical deficiency. For Parts III and V, the computed score for each procedure is not averaged, but instead is numerically weighted by the ratio of the number of scorable criteria to the total number of scorable criteria in the Part. For example, the Cast Gold Crown Preparation has a total of 10 scorable criteria which represents 40 possible points out of the total of 124 possible points for Part III. As shown in the example above, the candidate earned 102 out of 124 possible points for the three procedures in Part III for a final score of 82.25 points. If any penalties were assessed, the points would be deducted from the final score for Part III.

PART IV: PERIODONTAL EXAMINATION - 100 POINTS

1. Treatment Selection - Penalty points are assessed for Treatment Selections that do not meet the described criteria for medical management, radiographs, patient selection, oral assessment and calculus detection:
   - 7 penalty points for 1st rejection
   - 7 penalty points for 2nd rejection
   - 2 points for Intra/Extra-oral assessment
   - No additional penalty points deducted for subsequent rejections but an acceptable Treatment Selection must be submitted within the allotted time limits

2. Calculus Detection Exercise - 8 Points
   - 4 scorable items
   - 2 points awarded for each surface of correctly identified calculus

3. Periodontal Measurements/Gingival Recession - 12 Points
   - 12 probing depths evaluated on two teeth
   - 0.75 points for each correctly measured probing depth
   - 4 gingival recession measurements taken on facial and lingual aspects of two teeth
   - 0.75 points for each correctly measured area of gingival recession

4. Scaling/Subgingival Calculus Removal - 66 Points
   - 12 scorable items
   - 5.5 points are awarded for each of the 12 required surfaces that are acceptably debrided of subgingival accretions

5. Subgingival Deposit Removal - 12 Points

6. **Tissue Management - Penalty Points**

- 5 penalty points are assessed for any unwarranted areas of tissue trauma
- 1 point awarded for each of the six teeth and surrounding tissues that are free of damage and well managed
  - **Critical Error:** A tissue trauma critical error, resulting in failure of the examination, will be assessed if any of the following exist:
    - Damage to 3 or more areas of gingival tissue, lips or oral mucosa located anywhere within or near the Treatment Selection
    - An amputated papillae
    - An exposure of the alveolar process
    - A laceration or damage that requires suturing or perio packing
    - An unreported broken instrument tip found in the sulcus
    - One or more ultrasonic burns requiring follow-up treatment

7. **Treatment Standards - Penalty Points** are assessed for any violation of standards as defined for:

- Infection Control
- Record Keeping
- Patient Management
- Professional Conduct and Demeanor

**Penalty Deductions**

Throughout the examination, not only clinical performance will be evaluated, but also the candidate's professional demeanor will be evaluated by Clinic Floor Examiners. A number of considerations will weigh in determining the candidate's final grades and penalties may be assessed for violation of examination standards, as defined within this manual, or for certain procedural errors as described below:

1. Any of the following may result in a deduction of points from the score of the entire examination Part or dismissal from the exam in any of the clinical procedures:
   a. Violation of universal precautions or infection control; gross aspasia; operating area is grossly unclean, unsanitary or offensive in appearance; failure to dispose of potentially infectious material and clean the operatory after individual examinations.
   b. Poor Professional Demeanor—unkempt, unclean, or unprofessional appearance; inconsiderate or uncooperative with other candidates, examiners or testing site personnel;
   c. Poor Patient Management—disregard for patient welfare or comfort; inadequate anesthesia
   d. Improper management of significant history or pathology;
   e. Inappropriate request for extension or modification;
   f. Unsatisfactory completion of required modifications;
   g. Improper Operator/Patient/Manikin position;
   h. Improper record keeping;
   i. Improper treatment selection:

**Periodontal Treatment Selection Penalty Points**

- Penalty points are assessed for Treatment Selections that do not meet the described criteria
  - 7 penalty points for 1st rejection
  - 7 penalty points for 2nd rejection
  - No additional penalty points deducted for subsequent rejections but an acceptable Treatment Selection must be submitted within the allotted time limits

**Restorative Treatment Selection Penalty Points**

- Penalty points are assessed for Treatment Selections that do not meet the described criteria
  - 5 penalty points for 1st rejection on either procedure
No additional penalty points deducted for subsequent rejections but an acceptable Treatment Selection must be submitted within the allotted time limits

j. Improper liner placement;

k. Inadequate isolation - The isolation dam is inappropriately applied, torn and/or leaking, resulting in debris, saliva and/or hemorrhagic leakage in the preparation, rendering the preparation unsuitable for evaluation or the subsequent manipulation of the restorative material.

l. Administration of anesthesia before approval of Medical History by Clinic Floor examiners

m. Corroborated errors for Treatment Management criteria on all Restorative procedures

2. The following infractions will result in a loss of all points for the entire examination Part:

a. Temporization or failure to complete a finished restoration;

b. Violation of Examination Standards, Rules or Guidelines;

c. Treatment of teeth or surfaces other than those approved or assigned by examiners;

d. Gross damage to an adjacent tooth;

e. Failure to recognize exposure;

f. Unavoidable mechanical exposure which is poorly managed or irreparable;

g. Unjustified or irreparable mechanical exposure;

h. Critical Lack of Diagnostic/Clinical Judgment Skills - This penalty would be applied when the prognosis of the treatment and/or the patient's well-being is seriously jeopardized. Examples include but are not limited to:
   i. Inability to differentiate between caries and a pulpal exposure.
   ii. Inability to carry out instructions for modifications that any competent practitioner should be able to complete.
   iii. Failure to recognize the need for a critical alteration of the preparation beyond the assigned surfaces, such as a fracture or defect that must be eliminated by the extension of the preparation.

The penalties or deficiencies listed above do not imply limitations, since obviously some procedures will be classified as unsatisfactory for other reasons, or for a combination of several deficiencies. Corroborated errors for the treatment management criteria for each Restorative procedure - Manuskm and Patient-based will be deducted as penalty points. If any restorative procedure is unacceptable for completion during the examination, any preparations must be temporized, the patient must be adequately informed of any deficiencies, and a "Follow-up Form" must be completed.

PROFESSIONAL CONDUCT

All substantiated evidence of falsification or intentional misrepresentation of application requirements, collusion, dishonesty, or use of unwarranted assistance during the course of the examination shall automatically result in failure of the entire examination by any candidate.

In addition, there will be no refund of examination fees and that candidate cannot apply for re-examination for one full year from the time of the infraction. Any of the following will result in failure of the entire examination:

- Falsification or intentional misrepresentation of application requirements
- Cheating (Candidate will be dismissed immediately);
- Any candidate demonstrating complete disregard for the oral structures, welfare of the patient and/or complete lack of skill and dexterity to perform the required clinical procedures.
- Misappropriation of equipment (theft);
- Receiving unwarranted assistance;
- Alteration of examination records and/or radiographs
