REPORT FROM BOARD MEMBERS

Charles Church
Mr. Church reported on recent and upcoming Virginia Pest Management Association (VPMA) trainings. The VPMA master tech series was held in person in April. The Jeffrey M. Johnson Memorial ACE Prep Course will be held in June in person in Richmond. VPMA conducted WDI Recertification Inspector training virtually in March and will hold another session in June. He concluded by reporting that VPMA also hosted General Recertification webinars in April and May, during which 150 technicians were trained, with another General Recertification webinar scheduled for June.

Neil Houff
Mr. Houff reported that supply chain challenges continue to impact the pesticide and fertilizer industries. He discussed challenges in the crop protection industry regarding the individual permits required for the application of certain restricted use pesticides for permitted commercial applicators. He stated that he has asked the state to develop a program that would allow a commercial applicator permit to cover all restricted pesticide products to address these challenges. He later commented on the stress to the transportation industry due to backordered parts and regulations prohibiting modifications that would allow repairs with available parts.

O. Bryan Taliaferro
Mr. Taliaferro echoed Mr. Houff’s concerns about supply chain issues. He reported that grain prices are extremely high and input costs have been relatively low based on last year’s prices. As a result, there is potential for good profits for producers as long as the weather remains good through the rest of the year. He discussed the impacts of the war in Ukraine on global wheat markets and world hunger. He stated that the war and its effects would have major impacts on the U.S. agriculture industry and in Virginia. He concluded with concerns about soil moisture in his district and stated that they will need timely showers through the growing season.

Clifton Slade
Mr. Slade began his report by thanking the Virginia Department for the Blind and Vision Impaired for their assistance. He then reported that his sweet potato crop is coming in well and shipping is brisk. However, the deer have been relentless and can cause significant crop damage. He stated that the Virginia Department of Wildlife Resources has been helpful with
obtaining kill permits for the deer. He concluded his report by discussing his concerns as a small farmer about the rules and regulations regarding the destruction of hemp.

Margaret Ann Smith
Ms. Smith reported that it has been cold and dry in her district, which has resulted in grass being late for turnouts. She reported on the cattle markets, which have been very strong. For the last few weeks, Virginia has led the U.S. in pricing for 450-pound steers. She explained that this is perplexing because cattle prices typically increase as you move West. She stated that numbers are strong in sale barns. There are concerns going forward about significant increases in grain prices. She reported on the impacts of the drought in the West to the cattle industry. Increases in interest rates and trucking and fuel prices have also been a challenge. She stated that her freight bills have increased from $3.00 a mile to over $4.75+ a mile, which is a $2,100 increase per load. She concluded by commending VDACS cattle graders for their work.

Jacquelin Easter
Ms. Easter began her report by offering condolences to the family of L. Wayne Kirby, her predecessor on the Board, who passed away in April. She reported on the challenges with the pricing and availability of fuel in her district. It has also been a challenge to order parts for work and personal vehicles. She reported that corn and soybeans have been planted in her district. The lack of moisture has impacted crops and pastures, and many producers in her district have weaned cows early as a result.

James Huffard
Mr. Huffard reported that producers in his district have finished harvesting rye and fertilizing fields and are now planting corn. Dairy prices have been at record highs, but he shared his concerns that the last time prices went this high, they eventually fell below the cost of production. Milk prices have increased approximately $1.60 a gallon. Sales have been good at his operation, Duchess Dairy, but input prices have also been high. Pricing has been complicated due to the price increases, and they have been working with retailers on the mark up. He reported that Duchess Dairy has also started distributing cheese curds and it is going well.

Richard Sellers
Mr. Sellers reported that the highlight in his district since the Board last met was a visit from Commissioner Guthrie to his church garden. He stated that local Virginia Cooperative Extension agents were also in attendance, and he thanked the Commissioner for the visit. He concluded with a report on local precipitation and stated that they look forward to a good growing season.

M. Wondi Mersie
Dr. Mersie reported that Virginia State University (VSU) held its 2022 Spring Commencement Ceremony on May 14, during which, 527 graduates received their degrees. VSU students attended the Association of 1890 Research Directors Symposium in Atlanta, Georgia. He stated that the VSU College of Agriculture is offering a Sustainable Urban Agriculture Certificate program. This program helps meet the growing demand for trained urban agriculture professionals. He concluded with an announcement that the 2022 VSU Agricultural Field Day will be held on September 1, 2022, at Randolph Farms.

Lonnie Johnson
Mr. Johnson was unable to attend the meeting, but he provided a report for Secretary Schmidt to read. His report stated that Virginia Tech (VT) held 2022 commencement ceremonies on May 7-15 in Blacksburg, Roanoke, and the Washington, D.C., area. More than 6,300 graduates were honored. The College of Agriculture and Life Sciences (CALS) conferred nearly 40 associate’s degrees in the Agriculture Technology program and over 650 bachelor’s degrees. Dr. Arash Rashed has accepted the Director of Southern Piedmont Agriculture Research and Extension Center and Entomology Specialist position. At VT, searches continue for an Associate Dean for the College of Natural Resources and Environment, the Director of CALS Information Technology, and the Associate Dean and Director of Virginia Cooperative Extension.

Shelly Butler Barlow
Ms. Barlow began her report by providing comments and feedback on the reports from other Board members. She stated that cotton prices have been extremely high, but the high associated input costs result in the similar profit margins. She reported that in her district, corn has been planted and peanuts are in the ground. Cotton planting has started on her farm. Weather conditions have been good. She stated that she looks forward to an excellent farmers’ market season. She concluded with an update on the interviews for the seventh VALOR cohort.

COMMISSIONER’S REPORT
Commissioner Joseph Guthrie delivered his report to the Board. During the presentation of this report, he briefed the Board on personnel changes, recent events, and other matters relating to VDACS. A copy of the written report on which his presentation was based was included in the Board meeting agenda and materials.

FINAL STAGE - 2 VAC 5-405 (REGULATIONS FOR THE APPLICATION OF FERTILIZER TO NONAGRICULTURAL LANDS)
President Barlow called on David Gianino, Program Manager, Office of Plant Industry Services. Mr. Gianino briefed the Board on the final stage for 2 VAC 5-405. Following Mr. Gianino’s presentation and questions from the Board, Mr. Sellers moved that the Board adopt 2 VAC 5-405, Regulations for the Application of Fertilizer to Nonagricultural Lands, as presented by staff, and that the Board authorize staff to take any and all steps necessary to have this regulation become a final regulation of the Board.

Mr. Houff seconded the motion. The Board voted unanimously to approve the motion.

VIRGINIA GROWN PROGRAM REBRANDING AND NEW LOGO AND REFRESH OF THE VIRGINIA’S FINEST LOGO
President Barlow called on Rob Davenport, Director, Division of Marketing. Mr. Davenport presented the Board with information on the refresh of the Virginia’s Finest logo and the rebranding and new logo of the Virginia Grown program. Following his presentation, Mr. Davenport responded to Board member question and comments.

NEW BUSINESS
There was no new business brought before the Board.

FUTURE BOARD MEETINGS
President Barlow announced that the summer Board meeting and tour will be held July 19-20, 2022, in Suffolk. The December meeting will be held on December 9 in Richmond.
PUBLIC COMMENT PERIOD
Stefanie Taillon, Senior Assistant Director of Governmental Relation, Virginia Farm Bureau Federation, addressed the Board to provide information on a series of listening sessions the Virginia Farm Bureau Federation, Virginia Agribusiness Council, and Virginia Cattlemen’s Association are hosting related to meat processing in Virginia as part of the development of VDACS’s strategic plan to help increase meat processing capacity within Virginia. She stated that these sessions will give producers an opportunity to weigh in and share their thoughts on the opportunities and challenges associated with the industry. The sessions will be held; June 15 in Buckingham, June 20 in Culpeper, June 21 in Harrisonburg, and June 22 in Wytheville. She concluded by inviting Board members to attend.

ADJOURNMENT
There being no further business, the Board adjourned at approximately 11:24 a.m.

Respectfully submitted,

B.1. For taxable years beginning on and after January 1, 2000, any individual or persons filing a joint return whose family Virginia adjusted gross income does not exceed 100 percent of the poverty guideline amount corresponding to a household of an equal number of persons as listed in the poverty guidelines published during such taxable year, shall be allowed a nonrefundable credit against the tax levied pursuant to § 58.1-320 in an amount equal to $300 each for the individual, the individual’s spouse, and any person claimed as a dependent on the individual’s or married individuals’ income tax return for the taxable year. For any taxable year in which married individuals file separate Virginia income tax returns, the credit provided under this section shall be allowed against the tax for only one of such two tax returns. Additionally, the credit provided under this section shall not be allowed against

The refundable credit shall be claimed on the Virginia income tax return and redeemed by the Tax Commissioner. In no case shall a household be allowed a credit pursuant to this subdivision and subdivision 1 or 2 for the same taxable year.

For the purpose of this subdivision, “household” means an individual and, in the case of married individuals, the individual and his spouse regardless of whether or not the individual and his spouse file combined or separate Virginia individual income tax returns.

5. That § 58.1-611.1 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-611.1. Exemption for food purchased for human consumption and essential personal hygiene products.
A. Before January 1, 2023, the tax imposed by §§ 58.1-603 and 58.1-604 on food purchased for human consumption and essential personal hygiene products shall be one and one-half percent of the gross sales price. The revenue from the tax shall be distributed as follows: (i) the revenue from the tax at the rate of one-half percent shall be distributed as provided in subsection A of § 58.1-638 and (ii) the revenue from the tax at the rate of one percent shall be distributed as provided in subsections B, C, and D of § 58.1-638.

B. The provisions of this section shall not affect the imposition of tax on food purchased for human consumption and essential personal hygiene products pursuant to §§ 58.1-605 and 58.1-606.

C. On and after January 1, 2023, and except for taxes imposed pursuant to §§ 58.1-605 and 58.1-606, no tax shall be imposed under this chapter, or pursuant to any authority granted under this chapter, on food purchased for human consumption or essential personal hygiene products.

C. Beginning February 1, 2023, an amount equal to the revenue that would have been distributed pursuant to clause (ii) of subsection A shall be distributed as provided in subsections B, C, and D of § 58.1-638 based on the estimates of the population of cities and counties ages five to 19.

D. 1. As used in this section, “food purchased for human consumption” has the same meaning as “food” defined in the Food Stamp Act of 1977, 7 U.S.C. § 2012, as amended, and federal regulations adopted pursuant to that Act, except it shall not include seeds and plants which produce food for human consumption. For the purpose of this section, “food purchased for human consumption” shall not include food sold by any retail establishment where the gross receipts derived from the sale of food prepared by such retail establishment for immediate consumption on or off the premises of the retail establishment constitutes more than 80 percent of the total gross receipts of that retail establishment, including but not limited to motor fuel purchases, regardless of whether such prepared food is consumed on the premises of that retail establishment. For purposes of this section, “retail establishment” means each place of business for which any “dealer,” as defined in § 58.1-612, is required to apply for and receive a certificate of registration pursuant to § 58.1-613.

2. As used in this section, “essential personal hygiene products” means (i) nondurable incontinence products such as diapers, disposable undergarments, pads, and bed sheets and (ii) menstrual cups and pads, pantyliners, sanitary napkins, tampons, and other products used to absorb or contain menstrual flow. “Essential personal hygiene products” does not include any item that is otherwise exempt pursuant to this chapter.

6. That § 58.1-322.03 of the Code of Virginia is amended and reenacted as follows:

58.1-322.03. Virginia taxable income; deductions.

In computing Virginia taxable income pursuant to § 58.1-322, there shall be deducted from Virginia adjusted gross income as defined in § 58.1-321:

1. a. The amount allowable for itemized deductions for federal income tax purposes where the taxpayer has elected for the taxable year to itemize deductions on his federal return, but reduced by the amount of income taxes imposed by the Commonwealth or any other taxing jurisdiction and deducted on such federal return and increased by an amount that, when added to the amount deducted under § 170 of the Internal Revenue Code for mileage, results in a mileage deduction at the state level for such purposes at a rate of 18 cents per mile; or

b. Provided that the taxpayer has not itemized deductions for the taxable year on his federal income tax return: (i) for taxable years beginning before January 1, 2019, and on and after January 1, 2026, $3,000 for single individuals and $6,000 for married persons (one-half of such amounts in the case of a married individual filing a separate return) and; (ii) for taxable years beginning on and after January 1, 2019, but before January 1, 2026, 2022, $4,500
for single individuals and $9,000 for married persons (one-half of such amounts in the case of a married individual filing a separate return); and (iii) for taxable years beginning on and after January 1, 2022, but before January 1, 2026, $8,000 for single individuals and $16,000 for married persons (one-half of such amounts in the case of a married individual filing a separate return). For purposes of this section, any person who may be claimed as a dependent on another taxpayer’s return for the taxable year may compute the deduction only with respect to earned income.

2. a. A deduction in the amount of $950 for each personal exemption allowable to the taxpayer for federal income tax purposes.

b. Each blind or aged taxpayer as defined under § 63(f) of the Internal Revenue Code shall be entitled to an additional personal exemption in the amount of $800.

The additional deduction for blind or aged taxpayers allowed under this subdivision shall be allowable regardless of whether the taxpayer itemizes deductions for the taxable year for federal income tax purposes.

3. A deduction equal to the amount of employment-related expenses upon which the federal credit is based under § 21 of the Internal Revenue Code for expenses for household and dependent care services necessary for gainful employment.

4. An additional $1,000 deduction for each child residing for the entire taxable year in a home under permanent foster care placement as defined in § 63.2-908, provided that the taxpayer can also claim the child as a personal exemption under § 151 of the Internal Revenue Code.

5. a. A deduction in the amount of $12,000 for individuals born on or before January 1, 1939.

b. A deduction in the amount of $12,000 for individuals born after January 1, 1939, who have attained the age of 65. This deduction shall be reduced by $1 for every $1 that the taxpayer’s adjusted federal adjusted gross income exceeds $50,000 for single taxpayers or $75,000 for married taxpayers. For married taxpayers filing separately, the deduction shall be reduced by $1 for every $1 that the total combined adjusted federal adjusted gross income of both spouses exceeds $75,000.

For the purposes of this subdivision, ‘adjusted federal adjusted gross income’ means federal adjusted gross income minus any benefits received under Title II of the Social Security Act and other benefits subject to federal income taxation solely pursuant to § 86 of the Internal Revenue Code, as amended.

6. The amount an individual pays as a fee for an initial screening to become a possible bone marrow donor, if (i) the individual is not reimbursed for such fee or (ii) the individual has not claimed a deduction for the payment of such fee on his federal income tax return.

7. a. A deduction shall be allowed to the purchaser or contributor for the amount paid or contributed during the taxable year for a prepaid tuition contract or college savings trust account entered into with the Virginia College Savings Plan, pursuant to Chapter 7 (§ 23.1-700 et seq.) of Title 23.1. Except as provided in subdivision b, the amount deducted on any individual income tax return in any taxable year shall be limited to $4,000 per prepaid tuition contract or college savings trust account. No deduction shall be allowed pursuant to this subdivision 7 if such payments or contributions are deducted on the purchaser’s or contributor’s federal income tax return. If the purchase price or annual contribution to a college savings trust account exceeds $4,000, the remainder may be carried forward and subtracted in future taxable years until the purchase price or college savings trust contribution has been fully deducted; however, except as provided in subdivision b, in no event shall the amount deducted in any taxable year exceed $4,000 per contract or college savings trust account. Notwithstanding the statute of limitations on assessments contained in § 58.1-312, any deduction taken hereunder shall be subject to recapture in the taxable year or years in which distributions or refunds are made for any reason other than (i) to pay qualified
higher education expenses, as defined in § 529 of the Internal Revenue Code or (ii) the beneficiary’s death, disability, or receipt of a scholarship. For the purposes of this subdivision, “purchaser” or “contributor” means the person shown as such on the records of the Virginia College Savings Plan as of December 31 of the taxable year. In the case of a transfer of ownership of a prepaid tuition contract or college savings trust account, the transferee shall succeed to the transferor’s tax attributes associated with a prepaid tuition contract or college savings trust account, including, but not limited to, carryover and recapture of deductions.

b. § 58.1-439.30. Virginia housing opportunity tax credit.

A. Subject to the provisions of subsection H, a housing opportunity tax credit shall be allowed for each qualified project for each year of the credit period, in an amount equal up to the amount of federal low-income housing tax credit allocated or allowed by the Authority to such qualified project, except that there shall be no reduction in the tax credit allowable in the first year of the credit period due to the calculation in 26 U.S.C. § 42(f)(2). The credit shall be allowed ratably for each qualified project, with one-tenth of the credit amount allowed annually for 10
years over the credit period, except that there shall be a reduction in the tax credit allowable in the first year of the credit period due to the calculation in 26 U.S.C. § 42(f)(2) and any reduction by reason of 26 U.S.C. § 42(f)(2) in the credit allowable for the first taxable year of the credit period shall be allowable for the first taxable year following the credit period.

B. 1. For taxable years beginning on and after January 1, 2021, but before January 1, 2026, a qualified taxpayer may claim a housing opportunity tax credit against its Virginia tax liability prior to reduction by any other credits allowed the taxpayer. The housing opportunity tax credit may be allocated by pass-through entities to some or all of its partners, members, or shareholders in any manner agreed to by such persons, regardless of whether or not any such person is allocated or allowed any portion of any federal low-income housing tax credit with respect to the qualified project, whether or not the allocation of the housing opportunity tax credit under the terms of the agreement has substantial economic effect within the meaning of § 704(b) of the Internal Revenue Code, and whether or not any such person is deemed a partner for federal income tax purposes as long as the partner or member would be considered a partner or member as defined under applicable state law, and has been admitted as a partner or member on or prior to the date for filing the qualified taxpayer’s tax return, including any amendments thereto, with respect to the year of the housing opportunity tax credit. Such pass-through entities or qualified taxpayers may assign all or any part of its interest, including its interest in the tax credits, to one or more pass-through entities or qualified taxpayers, and the qualified taxpayer shall be able to claim the housing opportunity tax credit so long as its interest is acquired prior to the filing of its tax return claiming the housing opportunity tax credit.

2. If a housing opportunity tax credit has been awarded according to the terms of subsection G prior to January 1, 2026, such credit may continue to be claimed on a return for taxable years on and after January 1, 2026, but only pursuant to the applicable credit period specified in § 58.1-439.29.

C. The housing opportunity tax credit authorized by this article shall not be refundable. Any housing opportunity tax credit not used in a taxable year may be carried forward by a qualified taxpayer for the succeeding five years.

D. A qualified taxpayer claiming a housing opportunity tax credit shall submit a copy of the eligibility certificate at the time of filing its tax return with the Department. If the owner of the qualified project has applied to the Authority for the eligibility certificate but the Authority has not yet issued the eligibility certificate at the time the qualified taxpayer files its original tax return claiming the housing opportunity tax credit, the taxpayer may claim the housing opportunity tax credit based upon the amount of tax credit set forth in the carryover allocation or 42(m) letter, as applicable, award letter issued by the Authority for the housing opportunity tax credit issued to the qualified project and shall amend its tax return to include the eligibility certificate upon its receipt. If the amount of tax credit in the eligibility certificate is different than the amount of tax credit previously claimed, the taxpayer shall adjust the tax credit amount claimed on the amended tax return.

E. If under § 42 of the Internal Revenue Code, as amended, a portion of any federal low-income housing credits taken on a qualified project is required to be recaptured or is otherwise disallowed during the credit period, the taxpayer claiming housing opportunity tax credits with respect to such project shall also be required to recapture a portion of any tax credits authorized by this article. The percentage of housing opportunity tax credits subject to recapture shall be equal to the percentage of federal low-income housing credits subject to recapture or otherwise disallowed during such period. Any tax credits recaptured or disallowed shall increase the income tax liability of the qualified taxpayer who claimed the tax credits in a like amount and shall be included on the tax return of the qualified taxpayer submitted for the taxable year in which the recapture or disallowance event is identified. The balance of any tax credits recaptured or disallowed shall be allocated by the Authority for any qualified project in accordance with subsection G.

F. The Authority shall administer the housing opportunity tax credit program and shall be authorized to promulgate the regulations and guidelines necessary to implement and administer the provisions of this article. Such regulations and guidelines may include the imposition of application, allocation, certification, and
monitoring fees designed to recoup the costs of the Authority in administering the housing opportunity tax credit program. The Authority may also promulgate regulations and guidelines in consultation with the Department to allow a qualified project to elect in its application to the Authority to sell all or any portion of its credits awarded pursuant to this article to one or more unrelated taxpayers. Regulations and guidelines regarding the sale of credits, if promulgated, shall not take effect prior to January 1, 2023, and shall not apply to credits awarded prior to January 1, 2023.

G. 1. Any housing opportunity tax credit amounts authorized in a calendar year that are subsequently (i) canceled and returned to the Authority or (ii) recaptured or disallowed pursuant to subsection E may be awarded in the following calendar year, but no later than December 31, 2025. If the amount of housing opportunity tax credits authorized in a calendar year for qualified projects is less than the total amount of credits available for qualified projects under subdivision H 2, the balance of such credits, in an amount not greater than 15 percent of the amount of credits available for qualified projects under subdivision H 2, (a) shall be allocated by the Authority for any qualified project in the following calendar year, (b) shall not be allocated at any time after such following calendar year, and (c) shall be allocated no later than December 31, 2025.

2. Such housing opportunity tax credits issued pursuant to this subsection shall be allowed ratably, with one-tenth of the total amount of credits allowed annually for 10 years over the credit period, except that there shall be a reduction in the tax credit allowable in the first year of the credit period due to the calculation in 26 U.S.C. § 42(f)(2) and any reduction by reason of 26 U.S.C. § 42(f)(2) in the credit allowable for the first taxable year of the credit period shall be allowable for the first taxable year following the credit period.

H. 1. The total amount of housing opportunity tax credits authorized for qualified projects under this article shall not exceed $15 million per calendar year 2021.

2. For calendar years 2022 through 2025, the total amount of housing opportunity tax credits authorized for qualified projects under this article shall not exceed $60 million per calendar year. Such credits issued each calendar year shall be allowed ratably, with one-tenth of the total amount of credits allowed annually for 10 years over the credit period, except that there shall be a reduction in the tax credit allowable in the first year of the credit period due to the calculation in 26 U.S.C. § 42(f)(2) and any reduction by reason of 26 U.S.C. § 42(f)(2) in the credit allowable for the first taxable year of the credit period shall be allowable for the first taxable year following the credit period.

3. Notwithstanding any other provision of law to the contrary, the aggregate amount of housing opportunity tax credits authorized for all qualified projects under this article shall not exceed $255 million across all calendar years.

10. That, for the purposes of the ninth enactment of this act, notwithstanding any provision of law or regulation to the contrary, only Virginia housing opportunity tax credits awarded in calendar year 2021, up to a maximum of $15 million total for all taxpayers in all taxable years, may be claimed pursuant to the provisions of § 58.1-439.30 of the Code of Virginia as set forth in Chapter 495 of the Acts of Assembly of 2021, Special Session I, prior to amendment by the ninth enactment of this act. Nothing in this enactment shall apply to § 58.1-439.30 of the Code of Virginia as amended by the sixth enactment of this act.

11. That, for the purposes of the ninth enactment of this act, the Virginia Housing Development Authority (the Authority) shall, upon request from the Chairs of the House Committee on Appropriations, the House Committee on Finance, and the Senate Committee on Finance and Appropriations, provide information, data, and any other requested advisement on the potential structure and cost of a separately authorized certificated Virginia housing opportunity tax credit program that would allow a qualified project to sell all or any portion of its Virginia housing opportunity tax credits, to one or more unrelated taxpayers based on findings in the report of the Department of Housing and Community Development and the Authority stakeholder advisory group submitted pursuant to Chapter 517 of the Acts of Assembly of 2020.
12. That, for the purposes of the ninth enactment of this act, of the $60 million of Virginia housing opportunity tax credits authorized per calendar year from 2022 through 2025 for qualified projects by the Virginia Housing Development Authority (the Authority) pursuant to Article 13.4 (§ 58.1-439.29 et seq.) of Chapter 3 of Title 58.1 of the Code of Virginia, as amended by the ninth enactment of this act, $20 million of such credits shall be first allocated exclusively for qualified projects located in a locality with a population no greater than 35,000 as determined by the most recent United States census. Such allocation of Virginia housing opportunity tax credits shall constitute the minimum amount of such tax credits to be allocated for qualified projects in such localities. However, if the amount of such tax credits requested for qualified projects in such localities is less than the total amount of such credits available for qualified projects in such localities, the balance of such credits shall be allocated for any qualified project, regardless of location. In allocating or allowing such credits to qualified projects in such localities, the Authority shall give equal consideration to qualified projects allocated or allowed a federal low-income housing credit in an amount equal to the 10-year present value calculation of the percentages prescribed under 26 U.S.C. §§ 42(b)(1)(B)(i) and 42(b)(1)(B)(ii).

   For the purposes of this subdivision and notwithstanding any provision in this section to the contrary, the making, placing, or receipt of any bet or wager of money or other consideration or thing of value shall include the purchase of a product, Internet access, or other thing made in exchange for a chance to win a prize, stake, or other consideration or thing of value by means of the operation of a gambling device as described in subdivision 3 b, regardless of whether the chance to win such prize, stake, or other consideration or thing of value may be offered in the absence of a purchase.

   "Illegal gambling" also means the playing or offering for play of any skill game.

2. "Skill game" includes (i) a device that contains a meter or measurement device that records the number of free games or portions of games that are rewarded and (ii) a device designed or adapted to enable a person using the device to increase the chances of winning free games or portions of games by paying more than the amount that is ordinarily required to play the game. pesticide application records for the industrial hemp from which it produces the industrial hemp extract.

K. The pesticide chemical residue content in a sample from a batch of industrial hemp extract shall not exceed the most stringent tolerance for a pesticide chemical residue in any food item as set forth by the U.S. Environmental Protection Agency's regulations for Tolerances and Exemptions for Pesticide Chemical Residues in Food in 40 CFR Part 180, Subpart C meet the standard for the pesticide chemical residue test established in 18 VAC 110-60-300. Pesticide chemical residue testing shall include testing for carbamates, organochlorines, and organophosphates.

L. The total delta-9 tetrahydrocannabinol concentration of a sample from a batch of industrial hemp extract shall not exceed 0.3%.

M. If a manufacturer labels an industrial hemp extract as having any amount of a cannabinoid, a sample from a batch of the industrial hemp extract shall be tested and shall have the claimed amount of the cannabinoid. If a manufacturer labels an industrial hemp extract as having any amount of phytochemical, including a terpene or flavonoid, a sample from a batch of the industrial hemp extract shall be tested and shall have the claimed amount of the phytochemical.

N. If batch testing of industrial hemp extracts from industrial hemp grown in a specific production field consistently shows that levels of contaminants do not exceed the limits established in this chapter, the frequency of batch testing by the manufacturer may be adjusted after consultation with the department. The manufacturer shall retain documentation of the reasoning for adjustment of batch testing frequency and the recommendation of the department and make such available to the department on request.

O. The manufacturer shall maintain industrial hemp extract testing records for at least three years.
2VAC5-595-60. Labeling of industrial hemp extracts and foods containing an industrial hemp extract.

A. For the purpose of this chapter, label or labeling includes the label on the packaging of an industrial hemp extract or food containing an industrial hemp extract as well as any brochure, advertisement, information on social media or on any website, or any other form of product marketing.

B. An industrial hemp extract or food containing an industrial hemp extract shall be labeled in accordance with 21 CFR Part 101 and Chapter 51 (§ 3.2-5100 et seq.) of Title 3.2 of the Code of Virginia.

C. Notwithstanding subsection B of this section, a manufacturer shall label an industrial hemp extract or food containing an industrial hemp extract in compliance with the labeling provisions for dietary supplements in 21 CFR Part 101 and Chapter 51 (§ 3.2-5100 et seq.) of Title 3.2 of the Code of Virginia if the industrial hemp extract or food containing an industrial hemp extract is:

1. Produced in a tablet, capsule, powder, softgel, or gel cap form;
2. Labeled with a panel titled "Supplement Facts"; or
3. Labeled with a statement that describes the role of a nutrient or ingredient intended to affect the structure or function in humans or that characterizes the documented mechanism by which a nutrient or ingredient acts to maintain such structure or function.

D. If a manufacturer labels an industrial hemp extract or food containing an industrial hemp extract as containing a specific cannabinoid or concentration thereof, the number of milligrams of each such cannabinoid must be declared on the product label. The manufacturer must make and maintain records verifying the declared amount of cannabinoid. Such records may include a recipes, formulation, or batch record.
E. The label of an industrial hemp extract or food containing an industrial hemp extract shall not contain a claim indicating the product is intended for diagnosis, cure, mitigation, treatment, or prevention of disease, which shall render the product a drug, as that term is defined in 21 USC § 321(g)(1). An industrial hemp extract or food containing an industrial hemp extract with a label that contains a claim indicating the product is intended for diagnosis, cure, mitigation, treatment, or prevention of disease is not a food and shall be considered misbranded.

F. A manufacturer shall identify each batch of an industrial hemp extract or a food containing an industrial hemp extract with a unique code for traceability. Julian date coding or any other system developed and documented by the manufacturer for assigning a unique code to a batch may be used. The batch identification shall appear and be legible on the industrial hemp extract label.

G. The label of an industrial hemp extract or a food containing an industrial hemp extract shall include a statement that the product contains a total delta-9-tetrahydrocannabinol concentration that does not exceed 0.3% or shall state the specific total delta-9-tetrahydrocannabinol concentration of the product that contains tetrahydrocannabinol or a food containing an industrial hemp extract that contains tetrahydrocannabinol must be equipped with a label that states:

1. That the industrial hemp extract or food containing an industrial hemp extract contains tetrahydrocannabinol and may not be sold to a person younger than 21 years of age;

2. All ingredients contained in the industrial hemp extract or food containing an industrial hemp extract;

3. The amount of such industrial hemp extract or food containing an industrial hemp extract that constitutes a single serving; and
4. The total percentage and milligrams of tetrahydrocannabinol included in the industrial hemp extract or food containing an industrial hemp extract and the number of milligrams of tetrahydrocannabinol that are contained in each serving.

Spotted Lanternfly (SLF): The Threat

- SLF is an exotic insect with no natural enemies present in the US. Their numbers can become very high, very quickly.
- SLF prefers Tree of Heaven but will feed on over 100 other plants including apple, peach and cherry trees, grape vines and more.
- SLF feeding can decrease grape harvest by 75-90%.
- SLF can be a nuisance to homeowners due to honeydew and sooty mold production.
- Small trees can die and large trees will lose tips from heavy feeding.

Revised July 2022
In May of 2019, the Virginia Department of Agriculture and Consumer Services (VDACS) enacted a quarantine for Spotted Lanternfly (SLF). Before moving regulated items out of the quarantined area they must be free of SLF.

**Regulated articles**

Regulated Articles include but are not limited to:
- Any life stage of Spotted Lanternfly,
- All plant parts living and dead,
- Outdoor industrial and construction material, landscaping and remodeling waste,
- Packing materials, crates and pallets,
- Outdoor household articles,
- Conveyances of any type, cars, trucks, ATVs, boats and trailers.

Essentially anything that has been outside.

**Moving Regulated Articles**

**Who needs a permit**

A permit to allow businesses to conduct self inspections can be obtained through VDACS.

**How to get a permit**

This is a train the trainer program. A company representative takes an on-line training through Virginia Tech.

Once successfully completed, the trained staff will receive a Training Credential. By submitting the Training Credential and a SLF permit application to spottedlanternfly@vdacs.virginia.gov, the business will receive a permit.

The trained staff person trains other employees as inspectors.

A link to the training and the permit application can be found at: [https://www.vdacs.virginia.gov/plant-industry-services.shtml](https://www.vdacs.virginia.gov/plant-industry-services.shtml)

**Best Management Practices**

- Kill any life stage of SLF found.
- Before moving regulated items, inspect for and kill SLF when found.
- Manage *Ailanthus altissima*, Tree of Heaven, SLF’s favorite host. Remove 90% of all Tree of Heaven on your property using a herbicide and treat the remaining 10% with an insecticide.
- Keep windows and doors shut and do not park near trees or shrubs.
- Do not store items under or near trees or shrubs.

**Virginia Permits and Inspection Statements will be honored by other states and VDACS will honor other state permits.**
