**DECISION:
Case No.: 140828**

Ms. Toliver reported that the Committee found that Dr. Webber failed to diagnose decay on Patient A's teeth #9, 10 and 11 as evident on radiographs taken on August 18, 2009 and August 25, 2010. Dr. Webber also failed to reassess his treatment plan of a maxillary bridge for Patient A, despite the fact he referred Patient A to a periodontist for a consult, and the periodontist advise Dr. Webber to reassess the treatment plan due to Patient A's significant recurrent decay, poor crown-to-root ratio, and poor prognosis; subsequently Patient A had her teeth extracted by another dentist.

The Committee found that Dr. Webber failed to document in Patient A's treatment record that radiographs were taken in August 2009, August 2010, December 2010, and January 2011; and Patient A's duplicate laboratory work orders dated August 2010 and February 2011 failed to contain the address of the prescribing dentist.

The sanctions reported by Ms. Toliver were that Dr. Webber shall pay a \$1,000.00 monetary penalty, and that his license shall be placed on probation subject to the terms and conditions that within 6 months from the date of entry of the Order he shall successfully complete 7 hours of continuing education in pre-prosthetic periodontal diagnosis and 7 hours of continuing education in restoration of endodontically treated teeth.

Ms. Swain moved to adopt the decision of the Committee. The motion was seconded and passed.
