EMS for Children (EMSC) Program Report - (August 1, 2024)

Virginia EMS for Children (EMSC) program activities:

- The National Pediatric Readiness Project (NPRP) assessment of licensed EMS agencies that respond to 911 began May 1 closed today (August 1, 2024). This was a comprehensive survey seeking to establish a baseline of EMS agency information to assist in ongoing efforts to improve pediatric readiness nationally. The current plan is to repeat this assessment this every 5 years.
- The Virginia EMS for Children (EMSC) program is participating in the Pediatric Readiness Recognition Programs Collaborative (PRRPC). This collaborative intends to prepare states to establish both hospital and prehospital voluntary programs to recognize pediatric readiness. Best practices are identified and shared to assist states in their efforts to improve pediatric care and to recognize facilities and agencies that meet consensus criteria.
- Another issue of the Pediatric Champions Newsletter will be out soon. Lara Traylor is the point person for assembling the newsletter content and is being assisted by Dusty Lynn, Jen Farmer, and David Edwards.
- The previous supply of EMSC funded ambulance child restraints was placed, while a supply of small (3-18 lbs.) restraints is now ready for distribution.
- Regional Pediatric Training funded by the EMSC program, suspended for several months, is now ready to resume on a limited basis.
- Submit suggestions or questions related to the Virginia EMSC program to David P. Edwards via email (david.edwards@vdh.virginia.gov), or by calling 804-888-9144 (direct line).

Key Events of the Upcoming Quarter:

- The Pediatric Emergency Care (PEC) Council of the National Association of State EMS Officials (NASEMSO) will have a full meeting on August 27, 2024.

The Executive Committee of the National Pediatric Disaster Coalition (NPDC) will meet September 9, 2024. Virginia’s EMSC Manager is the NASEMSO (National Association of State EMS Officials) liaison to this group.
