

Summary of Final Amended Regulation

18 VAC 110-20-490

Regulations Governing the Practice of Pharmacy

Amendments to 18 VAC 110-20-490 have been adopted by the Board of Pharmacy to conform its regulations on the use of automated devices for dispensing and administration of drugs. The amendments are made to conform regulations to Chapter 750 of the 1999 Acts of the Assembly, which set forth provisions for filling, stocking and withdrawal of drugs from automated drug dispensing systems in licensed hospitals inconsistent with current requirements in subsections 2, 3 and 9 of section 490. Subsection 1 of current regulations is unnecessary as the requirement for packaging and repackaging is now specifically provided in the new section of the Drug Control Act (§ 54.1-3434.02. of the Code of Virginia).
