This information is required for executive branch review pursuant to Executive Order 19 (2022) (EO 19), any instructions or procedures issued by the Office of Regulatory Management (ORM) or the Department of Planning and Budget (DPB) pursuant to EO 19. In addition, this information is required by the Virginia Registrar of Regulations pursuant to the Virginia Register Act (§ 2.2-4100 et seq. of the Code of Virginia). Regulations must conform to the Regulations for Filing and Publishing Agency Regulations (1 VAC 7-10), and the *Form and Style Requirements for the Virginia Register of Regulations and Virginia Administrative Code*.

Brief Summary

Provide a brief summary (preferably no more than 2 or 3 paragraphs) of this regulatory change (i.e., new regulation, amendments to an existing regulation, or repeal of an existing regulation). Alert the reader to all substantive matters. If applicable, generally describe the existing regulation.

This regulatory change requires that limblines be removed from the water, the shoreline, and tree limbs when not in use (4 VAC 15-350-60). The change further modifies bag limits on gar and bowfin taken with archery tackle during the spawning period and prohibits discarding these and other fish commonly taken by bowfishing into public waters or on public property (4VAC15-350-70).

Mandate and Impetus

Identify the mandate for this regulatory change and any other impetus that specifically prompted its initiation (e.g., new or modified mandate, internal staff review, petition for rulemaking, periodic review, or board decision). For purposes of executive branch review, "mandate" has the same meaning as defined

in the ORM procedures, “a directive from the General Assembly, the federal government, or a court that requires that a regulation be promulgated, amended, or repealed in whole or part.”

The impetus for these regulatory changes is the Board’s biennial periodic review of its Aquatics/freshwater fishing regulations. Internal staff review and consideration of subsequent public comment through the Board’s regulatory development process found this change advisable based on fisheries management and recreational goals.

Statement of Final Agency Action

Provide a statement of the final action taken by the agency including: 1) the date the action was taken; 2) the name of the agency taking the action; and 3) the title of the regulation.

The Board of Wildlife Resources adopted these final amendments to regulations found in 4VAC15-350 (Fish: Gigs, Grab Hooks, Trotlines, Snares, Etc.) at its meeting held on August 18, 2022.
