Acronyms and Definitions

Please define all acronyms or technical definitions used in the Agency Background Document.

VCS – Virginia Certification Standards
Department – Department of Housing and Community Development

Mandate and Impetus

Please identify the mandate for this regulatory change, and any other impetus that specifically prompted its initiation (e.g., new or modified mandate, petition for rulemaking, periodic review, board decision, etc.). For purposes of executive branch review, “mandate” has the same meaning as defined in Executive Order 14 (as amended, July 16, 2018), “a directive from the General Assembly, the federal government, or a court that requires that a regulation be promulgated, amended, or repealed in whole or part.”

As this regulation addresses the certifications required by the Department’s building and fire regulations for persons performing enforcement activities under those regulations, this regulation needs to be coordinated with the other building and fire regulations of the Department. At its January 28, 2019 meeting, the Board of Housing and Community Development adopted a tentative regulatory schedule and directed staff to proceed with initiating the update process for the regulations.

The Board approved publication of the Notice of Intended Regulatory Action (NOIRA) at its March 18, 2019 meeting.

Legal Basis

Please identify (1) the agency or other promulgating entity, and (2) the state and/or federal legal authority for the regulatory change, including the most relevant citations to the Code of Virginia or Acts of Assembly chapter number(s), if applicable. Your citation must include a specific provision, if any, authorizing the promulgating entity to regulate this specific subject or program, as well as a reference to the agency or promulgating entity’s overall regulatory authority.

The statutory authority to update the regulation is contained in § 36-137 of the Code of Virginia. The promulgating agency is the Board of Housing and Community Development. As the regulation is a companion to the building and fire regulations of the Department, the VCS must be periodically updated to correlate with those regulations.

Purpose

Please describe the specific reasons why the agency has determined that this regulation is essential to protect the health, safety, or welfare of citizens. In addition, please explain any potential issues that may need to be addressed as the regulation is developed.

The regulatory action is to update the regulation to coordinate with the building and fire regulations of the Department which are being updated to reference the newest available nationally recognized model codes and standards. Since the national codes are comprehensive in scope, the agency will accept comment on all provisions of the regulation to insure its compatibility with the latest codes.

Substance

Please briefly identify and explain the new substantive provisions that are being considered, the substantive changes to existing sections that are being considered, or both.

The Virginia Certification Standards (the “VCS”) are coordinated with the building and fire regulations of the Department and set the standards for the certification of local building and fire officials. The action is

essential to protect the health, safety and welfare of Virginia’s citizens. When new nationally recognized standards become available and are considered for incorporation into the Department’s building and fire regulations, revisions to the VCS are considered at the same time as the VCS are companion regulations. Potential issues to be addressed during the update of the VCS are generally determined by the client groups who review the current VCS in conjunction with the new building and fire regulations and submit comments where appropriate.

Alternatives

Please describe any viable alternatives to the regulatory change that were considered, and the rationale used by the agency to select the least burdensome or intrusive alternative that meets the essential purpose of the regulatory change. Also, include discussion of less intrusive or less costly alternatives for small businesses, as defined in § 2.2-4007.1 of the Code of Virginia, of achieving the purpose of the regulatory change.

Although no viable alternatives have been identified at this time, the Board may make changes to the regulatory action under consideration if alternative proposals are identified during the regulatory review process.
