Virginia Administrative Code Cite	Virginia Code Cite	Chapter	Proposed change and rationale
23VAC10-210-42	N/A—Amending for clarification	N/A—Amending for clarification	Provide clarification concerning charges for running an advertisement through electronic media such as the Internet and mass communication electronic databases.

In its current form, this regulation involves the tax application of charges for placing or running an ad in the media and addresses how charges by advertising businesses for professional services are treated when the client is located outside Virginia. The suggested regulatory action will add clarification concerning the tax implications for running an ad through electronic means.

This regulatory action is necessary to ensure a predictable and adequate revenue stream for the government to provide for the health, safety, and welfare of its citizens.

Legal basis

Please identify the state and/or federal legal authority to promulgate this proposed regulation, including (1) the most relevant law and/or regulation, including Code of Virginia citation and General Assembly

chapter number(s), if applicable, and (2) promulgating entity, i.e., agency, board, or person. Describe the legal authority and the extent to which the authority is mandatory or discretionary.

Code of Virginia § 58.1-203 provides that the “Tax Commissioner shall have the power to issue regulations relating to the interpretation and enforcement of the laws of this Commonwealth governing taxes administered by the Department.” The authority for the current regulatory action is discretionary.

Need

Please detail the specific reasons why the agency has determined that the proposed regulatory action is essential to protect the health, safety, or welfare of citizens. In addition, delineate any potential issues that may need to be addressed as the regulation is developed.

Government must have predictable and adequate revenue to provide for the health, safety and welfare of its citizens. Tax regulations enhance customer service and voluntary compliance. The interpretations, examples, and other guidance in tax regulations ensure uniform application of the tax laws to taxpayers. Business taxpayers in particular find regulations essential in predicting the tax consequences of transactions and avoiding unanticipated tax assessments as the result of audits. Tax regulations also ensure that audits and other compliance activity cause the assessment and collection of the correct amount of tax.

Substance

Please detail any changes that will be proposed. For new regulations, include a summary of the proposed regulatory action. Where provisions of an existing regulation are being amended, explain how the existing regulation will be changed.

This amendment will clarify the advertising regulations by addressing charges for the placement of ads in the media, specifically addressing ads placed through electronic media such as the Internet and other mass communication electronic databases.

Alternatives

Please describe all viable alternatives to the proposed regulatory action that have been or will be considered to meet the essential purpose of the action. Also, please describe the process by which the agency has considered or will consider other alternatives for achieving the need in the most cost-effective manner.

The Department considered alternatives to the proposed regulatory action. Doing nothing would leave the regulation inconsistent with the statute. Repealing the regulation would reduce the level of customer service, and as a result, tend to reduce the level of voluntary compliance with the tax laws. Audit and compliance activity would produce less uniform results and would be much less effective in enforcing the tax laws.

Since 1980, administrative interpretations of the tax laws that are not in the form of published rulings or a regulation have not been admissible as evidence in court. Code of Virginia § 58.1-205. Even published “rulings and policies themselves are not entitled to great weight, unless expressed in regulations. “

Chesapeake Hospital Authority v. Commonwealth, 262 Va. 551, 554 S.E.2d 55 (2001). Therefore, to ensure enforcement, it is necessary to promulgate regulations containing the Tax Commissioner's interpretations of the tax laws.
