Summary

Please provide a brief summary of all regulatory changes, including the rationale behind such changes. Alert the reader to all substantive matters or changes. If applicable, generally describe the existing regulation.

This final rule corrects four specific errors in five OSHA standards. The first correction amends two standards, the General Industry and Construction Industry standards for Mechanical Power-Transmission Apparatus, §§1910.219 and 1926.307, and deletes two references to a non-existing table in the Mechanical Power – Transmission Apparatus Standard. The second is a correction of typographical errors in the Mechanical Power Presses Standard, §1910.217. The third correction is to a cross-reference in the Telecommunications Standard, §1910.268. The fourth correction is to a reference to a table contained in the Hazardous Materials Standard for Hydrogen, §1910.103.
