Subject matter and intent

Please describe briefly the subject matter, intent, and goals of the planned regulatory action.

The Administrative Regulation for the Virginia Occupational Safety and Health (VOSH) Program is the promulgated rules and procedures under which the Commonwealth carries out its obligations, as prescribed by Title 40.1 of the Code of Virginia and the Virginia State Plan for Occupational Safety and Health, as approved by the U.S. Department of Labor.

The NOIRA was requested to address several issues in regard to the Administrative Regulation of the VOSH Program. The proposed changes are intended to accommodate statutory changes to the Code of Virginia, strengthen anti-retaliation or “whistleblower” protections for both public and private sector employees, and to specify the burden of proof threshold for VOSH cases which go to Circuit Court. The goals of this regulatory action is to develop specific language covering the scope and range of each proposed change after these issues have been reviewed and analyzed by VOSH staff as well as input from the public during the initial 30-day public comment period.

Legal basis

Please identify the (1) the agency (includes any type of promulgating entity) and (2) the state and/or federal legal authority for the proposed regulatory action, including the most relevant citations to the Code of Virginia or General Assembly chapter number(s), if applicable. Your citation should include a specific provision, if any, authorizing the promulgating entity to regulate this specific subject or program, as well as a reference to the agency’s overall regulatory authority.

The Safety and Health Codes Board is authorized by Title 40.1-22(5) to: “... adopt, alter, amend, or repeal rules and regulations to further, protect and promote the safety and health of employees in places of employment over which it has jurisdiction and to effect compliance with the federal OSH Act of 1970...as may be necessary to carry out its functions established under this title”.

“In making such rules and regulations to protect the occupational safety and health of employees, the Board shall adopt the standard which most adequately assures, to the extent feasible, on the basis of the best available evidence that no employee will suffer material impairment of health or functional capacity”.

“However, such standards shall be at least as stringent as the standards promulgated by the federal OSH of 1970 (P.L. 91-596). In addition to the attainment of the highest degree of health and safety protection for the employee, other considerations shall be the latest available scientific data in the field, the feasibility of the standards, and experiences gained under this and other health and safety laws.”

Purpose

Please describe the specific reasons why the agency has determined that the proposed regulatory action is essential to protect the health, safety, or welfare of citizens. In addition, please explain any potential issues that may need to be addressed as the regulation is developed.

The purpose of amending the Administrative Regulation for the VOSH Program is to accommodate statutory changes to the Code of Virginia, strengthen anti-retaliation or “whistleblower” protections for both public and private sector employees, and to specify the burden of proof threshold for VOSH cases which go to Circuit Court.
