Regulatory Stage (including Issuance of Guidance Documents)	Removing guidance documents

Cost Benefit Analysis

Complete Tables 1a and 1b for all regulatory actions. You do not need to complete Table 1c if the regulatory action is required by state statute or federal statute or regulation and leaves no discretion in its implementation.

Table 1a should provide analysis for the regulatory approach you are taking. Table 1b should provide analysis for the approach of leaving the current regulations intact (i.e., no further change is implemented). Table 1c should provide analysis for at least one alternative approach. You should not limit yourself to one alternative, however, and can add additional charts as needed.

Report both direct and indirect costs and benefits that can be monetized in Boxes 1 and 2. Report direct and indirect costs and benefits that cannot be monetized in Box 4. See the ORM Regulatory Economic Analysis Manual for additional guidance.

Table 1a: Costs and Benefits of the Proposed Changes (Primary Option)

NB: The guidance documents currently on townhall for the Commission on Local Government do not meet the definition of Guidance Documents in the Virginia Code because they do not interpret or implement any statutes or rules. They are instead restatements of statutes and rules in an easily accessible, plain language, bulleted format. They are not intended to have the force of law, regulation, or guidance document, and have no impact outside what is already required by law and regulation. Therefore, removing them will also have no impact, and this form is accordingly blank except for Table 5.

The Commission has decided that the best location for these technical assistance documents is in a central location on the Commission’s website where they are already posted.
