

## Appendix G Early Intervention Certification Requirements

The certified providers are categorized as either Reimbursement Category 1 or 2 according to their discipline. The Early Intervention Program uses nine different procedure codes with modifiers to trigger reimbursement processing based on the practitioner who provides the service (reimbursement category 1 or 2) and the type of service being provided by the practitioner such as assessment, group treatment or individual treatment services.

Qualified personnel in the following disciplines are eligible for certification as Early Intervention Specialists:
