**Cost Benefit Analysis**

Complete Tables 1a and 1b for all regulatory actions. You do not need to complete Table 1c if the regulatory action is required by state statute or federal statute or regulation and leaves no discretion in its implementation.

Table 1a should provide analysis for the regulatory approach you are taking. Table 1b should provide analysis for the approach of leaving the current regulations intact (i.e., no further change is implemented). Table 1c should provide analysis for at least one alternative approach. You should not limit yourself to one alternative, however, and can add additional charts as needed.

Report both direct and indirect costs and benefits that can be monetized in Boxes 1 and 2. Report direct and indirect costs and benefits that cannot be monetized in Box 4. See the ORM Regulatory Economic Analysis Manual for additional guidance.

**Table 1a: Costs and Benefits of the Proposed Changes (Primary Option)**

(1) Direct & Indirect Costs & Benefits (Monetized)	The proposed guidance changes do not have any direct or indirect costs and benefits. Changes clarify language regarding the completion of a DSS-Enhanced Child and Adolescent Needs and Strengths (CANS) assessment for any child or caregiver who is identified on a service plan and receiving a direct or funded intervention or service in an In-Home Services case. There have been inconsistencies among different local departments of social services on when a CANS assessment is required. The updated guidance became necessary to promote consistency and bring practice in line with the federal Family First Act.
