Summary

Please provide a brief summary of the regulation. There is no need to state each provision; instead give a general description of the regulation and alert the reader to its subject matter and intent.

This regulation provides guidelines for public input and participation in the development and promulgation of regulations of the Commission. It details the processes in which parties may petition for rule making, the distribution of information concerning regulatory actions, periodic review of regulations, and the requirement of holding public hearings on all regulatory actions.
